Mr. Claude Goodman

Saint Joe, Arkansas

Subject: Docket No. DMEA-2423
(Fluorspar and other minerals)
Searcy County, Arkansas

Dear Mr. Goodman:

Reference is made to your application for Government assistance to explore for fluorspar and other minerals on land located in Searcy County, Arkansas at an estimated cost of $1,872.00.

A review of your application and other data available to us, indicates that your proposal does not meet the requirements for an exploration project under DMEA Order-1, entitled "Government Aid in Defense Exploration Projects", a copy of which is enclosed. Your application is therefore denied.

We appreciate your interest in the National Defense Program, and regret that we are unable to be of assistance to you in this instance.

Sincerely yours,

C. O. Mittendorf

Memorandum

To: Chairman, Operating Committee

From: Chief, Non-Metallic Minerals Division

Subject: Docket DMEA-2423 - Fluorspar
Recommendation for denial of Exploration Assistance.

As pointed out in a memorandum by Mr. Van Alstine to Mr. Houk, the proposed project is almost identical with one submitted by the same applicant under DMEA-2207 and denied December 29, 1951.

The applicant proposes to explore for fluorspar, based on some meager indications of the mineral in a chert and limestone rock found on his property. A sample submitted was mostly limestone, typical of much of the Boone Formation which covers the lead-zinc area of Northern Arkansas. One small piece showed a small crack containing a little fluorspar, and another piece showed a purple stain or smear of the same mineral. A second sample of material was sent in to College Park Experimental Station in 1944 by the same owner and the report on this sample likewise indicated no minerals of economic value.

The estimate of the cost of the project, $1,872, is unrealistic, as there is no specific program or basis for setting up a project. Further, the applicant does not indicate that he can support his share of the cost; he states a willingness to furnish half the cost of powder, caps, and fuse.

All in all, the proposed project appears unrealistic and confirmed by the poor samples of ore submitted.

It is recommended that this application be denied. There are no supporting data indicating that the applicant's property contains commercial amount of fluorspar or a reasonable premise of finding any.

Subject: Docket No. DMEA-2423
Fluorspar
Claude Goodman Prospect
Searcy County, Arkansas

Dear Mr. Goodman:

This office has made a careful review of your application, DMEA-2423, for an exploration project for fluorspar on your property located in Searcy County, Arkansas.

Based on the data contained in the application and the samples of rock submitted, we find that there is insufficient evidence that fluorspar occurs in significant amounts such as to justify Government participation in the project.

Therefore, your request for exploration assistance must be denied.

Sincerely yours,

C. O. Mittendorf (for)

WASHINGTON 25, D. C.

March 17, 1952

Memorandum

To: Lawrence G. Houk, Defense Materials Exploration Administration

From: Ralph E. Van Alstine, Geological Survey

Subject: DMEA-2423, application of Mr. Claude Goodman, Saint Joe, Arkansas, for assistance, total $1,872, with proposed exploration for fluorspar, cinnabar, etc., in Searcy County, Arkansas.

An almost identical request (DMA-2207) made by this applicant was reviewed by me on December 5, 1951 and was denied on December 29, 1951. I see no reason for treating the new application any differently; the area that would be explored is precisely the same as that described in the earlier application, with the following exception, and no new data are provided that indicate the deposit has any promise. According to this application the prospect starts at Lowgap, extends 350 feet northeast, and is about 250 (feet, yards ?) wide; in the earlier application, however, the prospect starts at Lowgap, extends 250 yards northeast, and is about 150 yards wide.

Memorandum

To: Lawrence G. Houk, Defense Minerals Exploration Administration

From: H. W. Davis, Bureau of Mines

Subject; DMEA-2423 - Claude Goodman, $1,872

The applicant expects to "find fluorspar and cinnebar and manganese ore". However, he has presented no evidence whatever in his sketchy proposal that there is fluorspar on his property. Moreover, only a trace of fluorspar was detected in one of the samples furnished.

Therefore, insofar as fluorspar is concerned, it is recommended that the loan be denied.

From: David Gallagher

Subject: Claude Goodman
Docket No. DMEA-2423

Attached hereto is a franked envelope without postmark received in this office today, and the entire contents thereof, consisting of one copy of MF-103 signed in pencil by Claude Goodman of St. Joe, Arkansas, and one lined notebook page containing penciled comments that appear to be an attempt to answer the questions on the MF-103.

The MF-103 bears an instamp of Defense Minerals Administration dated March 14, 1952. This would appear to substantiate the suspicion that this envelope and its contents came from Washington. I note also that Docket No. DMEA-2423 has been assigned.

Although many tenuous inferences could be drawn from the receipt of these papers, they do not seem warranted by the facts at our disposal, and as the conclusion that this material may have come from Washington appears to be the only permissible inference derivable from the facts at our disposal, we are returning the whole thing herewith.

DMEA-2423.

Dear Sirs:

Last week we received and returned to Washington one copy of an MF-103 application from Claude Goodman. When it arrived the entire staff puzzled over the three questions "why did we get it?", "who did it come from?", and "what do we do with it?". We were all completely baffled.

This week end it finally dawned on me that we must have received it in accordance with the new policy of sending one copy of each application to the Field immediately on receipt.

As this is the first such application we have received, and as it came without any notation or explanation, I hope that you can sympathize with our failure to understand it, and that you will accept our apology.

Sincerely yours,

David Gallagher

Docket No. DMEA-2423
Metal or Mineral
Date Received 3-14-52
Amount $
Participation (Government %)

Name and address of applicant: Glenn Goodman, St Joe Ark.

Date March 3, 1952

If you have already filed MF-100, give date filed _____, type of assistance requested _____,

DMA Docket Number (if available) _____

INSTRUCTIONS

Read Mineral Order 5, Regulations Governing Government Aid in Defense Projects, before completing this application. Submit four copies each, of the signed application form, General Technical Data Form MF-100, and answers to questions as specified, to Defense Minerals Administration, Department of the Interior, Washington 25, D. C., or to the nearest field executive office thereof, with your name and address on each sheet of the application and all accompanying papers. If you have previously filed MF-100, it is not necessary to file it again. However, you should indicate in space provided above the type of assistance previously applied for (loans, procurement contracts, etc.) and DMA Docket Number, if available. *When a question is inapplicable it should be so stated in the form.* Additional sheets should be attached in answering any questions or in supplying additional information. IF YOU CANNOT ANSWER A QUESTION, SO STATE.

1. (*a*) Give a description of the real property that will be in any way involved in the exploration project, including any existing mine or operating property.

   (*b*) If you are not the owner of the property, submit a copy of the lease, purchase option, or other agreements under which you are authorized to operate the property with each copy of your application.

   (*c*) Give the legal description of the exact parcel, plot, or area upon which the exploration is to be conducted.

   NOTE: (1) If both areas are the same, so state. The only obligation to repay the Government from the net earnings from any commercial discovery made in the area specified in (*c*) above in which the exploration is to be conducted, and the expenditure of funds which may be charged as costs of the project must be limited to that area or to work necessary to perform the exploration in that area.

   (2) If applicant is not the owner of the property or if there are any liens or encumbrances against the property, copy of agreements of claimants, lienors, encumbrances, and lessors subordinating their interests in the property to the interest of the Government under the Exploration Project Contract will be required for attachment to the Contract.

DEPARTMENT OF THE INTERIOR
Defense Minerals Administration
RECEIVED
MAR 14 1952

2. (*a*) What metals or minerals do you expect to find?

   (*b*) Furnish statement of the geologic features of your property, giving type of ore deposit and reasons for expecting to find commercial ore bodies. Illustrate with maps or sketches. If you have a geologic or engineering report, or assay maps showing width and grade, please send them with application, stating whether or not you wish to have them returned.

The information requested in questions 3, 4, 5, 6, 7, 8, and 9 below should be answered specifically and in detail, as this information will be attached to and incorporated as part of the Exploration Project Contract, if such contract is entered into with you by the Government.

ANSWER EACH QUESTION ON SEPARATE SHEETS OF PAPER AND SUBMIT A COPY OF EACH ANSWER FOR EACH COPY OF YOUR APPLICATION.

3. (*a*) Describe fully the proposed work and give the total cost of the project.

   (*b*) State the time required to start the project and to complete it.

4. Submit a map or sketch of the property involved showing a plan (and cross section, if needed) of the present mine workings and the *location of the proposed exploration work* as related to geologic features, such as contacts, veins, ore-bearing beds, etc.

5. Furnish an itemized list of existing facilities, buildings, installations, and fixtures with a statement of the cost of any necessary rehabilitation or repairs to put into useful and operable condition.

6. Furnish a detailed list of additional facilities, buildings, and fixtures to be purchased, installed, or erected by you, with the estimated cost of each item.

7. Furnish a detailed list of operating equipment, separated into items to be—

   (*a*) Rented

   (*b*) Purchased

   (*c*) Furnished by you

   with the rental, purchase price, or depreciation of each item, as the case may be, to be charged as a cost of the project.

8. Furnish an itemized schedule of labor, by numbers and classes (miners, muckers, etc.) and of supervisors by numbers and positions, with the maximum wages or salaries to be paid to each.

9. Furnish a detailed list with estimated cost of each item for materials, supplies, engineering, assaying, accounting, power, water, utilities, and any other items not provided for above.

10. (*a*) How much are you prepared to invest in the proposed project?

    (*b*) Is this amount sufficient to pay your part of the cost of the project, in accordance with the regulations on Government participation (Sec. 9 of MO–5)?

11. State any conditions or circumstances regarding the property not sufficiently brought out by the foregoing questions.

U. S. GOVERNMENT PRINTING OFFICE 16—64067-2

1(A) The location of this land is in Henry County Ark. it is the Southwest ¼ of Sec. 15 Containing 160 Acres Twp 16 Range 16 west. mountain Grove being the County seat. this land is on the gypsum mine branch South the Hogan mining property joins this on the north ½ mile long.

(B) I own the property. it is all in the Clean taxes all paid.

(C) the place the mineral is located is

Long Hollow

Cappers Hill, Cinnabar

Buckhalton

the place I want to mine Starts at Long Hollow to the north the East 350 feet. And is about 250 wide. it is bounded by a the perpendicular north And the Buckhalton in the South.

note 1

2 the land is all in the County of the property.

2(A) I Expect to find Thompson and Cinnabar and magnetite and.

(B) All my property has mineral on it. one Gives minerals South East

EXPLORATION

Subject: DMEA-2423
Re: Exploration Loan
March 14, 1952

Mr. Claude Goodman
St. Joseph, Arkansas

My dear Mr. Goodman:

This will acknowledge receipt of your application dated March 3, 1952 for a loan under the Defense Production Act of 1950.

Your application was assigned Docket Number DMEA-2423 and referred to the Non-Metallics Division.

Kindly refer to DMEA-2423 in any future correspondence relating to your application.

Sincerely yours,

ROBERT E. ADAMS

Robert E. Adams
Acting Administrative Officer

DMEA-2423

UNITED STATES
DEPARTMENT OF THE INTERIOR
BUREAU OF MINES

EASTERN EXPERIMENT STATION

COLLEGE PARK, MARYLAND

January 20, 1944.

Mr. Claude Goodmon
Zack, Arkansas.

Dear Mr. Goodmon:

Replying to your letter of December 23 with which you sent a sample for examination:

The material is a porous limestone, probably derived from a spring deposit. No minerals of economic value were observed. It is not possible to advise you definitely as to what might be expected at depth in this deposit. Hot spring deposits are known to carry cinnabar, manganese-oxide and various other mineral materials, but the present sample does not give any indication of them.

Yours very truly,

Alton Gabriel

Gentlemen
the perfect rock or stone is of marble
I don't say anything on the flourspar.
the rest of the rock except a few pieces
are of a water formation. there is tons
and tons of this find formation I will have
to dig any where from 8 ft to 50 ft below
where the find is found. I can't even
reach it unless I get air for it is a
deep hole until something is found
that will pay off. yet I have all the conveniences
in the mountain it is a good thing
hope it goes through yours very truly

Glenda Thompson

Form MF-103
(Revised June 1951)

UNITED STATES DEPARTMENT OF THE INTERIOR
DEFENSE MINERALS ADMINISTRATION

Budget Bureau No. 42-R1035.1.

MF-103 Should Be Filed With General Technical Data Form MF-100

APPLICATION FOR AID FOR AN EXPLORATION PROJECT PURSUANT TO MINERAL ORDER 5, UNDER DEFENSE PRODUCTION ACT OF 1950

Not To Be Filled in by Applicant

Docket No. DMEA-2423
Metal or Mineral
Date Received 3-14-52
Amount $
Participation (Government %)

Name and address of applicant

Date March 31 1952

If you have already filed MF-100, give date filed ....., type of assistance requested .....,

DMA Docket Number (if available) .....

INSTRUCTIONS

Read Mineral Order 5, Regulations Governing Government Aid in Defense Projects, before completing this application. Submit four copies each, of the signed application form, General Technical Data Form MF-100, and answers to questions as specified, to Defense Minerals Administration, Department of the Interior, Washington 25, D. C., or to the nearest field executive office thereof, with your name and address on each sheet of the application and all accompanying papers. If you have previously filed MF-100, it is not necessary to file it again. However, you should indicate in space provided above the type of assistance previously applied for (loans, procurement contracts, etc.) and DMA Docket Number, if available. *When a question is inapplicable it should be so stated in the form.* Additional sheets should be attached in answering any questions or in supplying additional information. IF YOU CANNOT ANSWER A QUESTION, SO STATE.

1. (*a*) Give a description of the real property that will be in any way involved in the exploration project, including any existing mine or operating property.

   (*b*) If you are not the owner of the property, submit a copy of the lease, purchase option, or other agreements under which you are authorized to operate the property with each copy of your application.

   (*c*) Give the legal description of the exact parcel, plot, or area upon which the exploration is to be conducted.

   NOTE: (1) If both areas are the same, so state. The only obligation to repay the Government is from the net earnings from any commercial discovery made in the area specified in (*c*) above in which the exploration is to be conducted, and the expenditure of funds which may be charged as costs of the project must be limited to that area or to work necessary to perform the exploration in that area.

   (2) If applicant is not the owner of the property or if there are any liens or encumbrances against the property, copy of agreements of claimants, lienors, encumbrances, and lessors subordinating their interests in the property to the interest of the Government under the Exploration Project Contract will be required for attachment to the Contract.

2. (*a*) What metals or minerals do you expect to find?

   (*b*) Furnish statement of the geologic features of your property, giving type of ore deposit and reasons for expecting to find commercial ore bodies. Illustrate with maps or sketches. If you have a geologic or engineering report, or assay maps showing width and grade, please send them with application, stating whether or not you wish to have them returned.

DEPARTMENT OF THE INTERIOR
Defense Minerals Administration
RECEIVED
MAR 14 1952

The information requested in questions 3, 4, 5, 6, 7, 8, and 9 below should be answered specifically and in detail, as this information will be attached to and incorporated as part of the Exploration Project Contract, if such contract is entered into with you by the Government.

ANSWER EACH QUESTION ON SEPARATE SHEETS OF PAPER AND SUBMIT A COPY OF EACH ANSWER FOR EACH COPY OF YOUR APPLICATION.

3. (*a*) Describe fully the proposed work and give the total cost of the project.

   (*b*) State the time required to start the project and to complete it.

4. Submit a map or sketch of the property involved showing a plan (and cross section, if needed) of the present mine workings and the *location of the proposed exploration work* as related to geologic features, such as contacts, veins, ore-bearing beds, etc.

5. Furnish an itemized list of existing facilities, buildings, installations, and fixtures with a statement of the cost of any necessary rehabilitation or repairs to put into useful and operable condition.

6. Furnish a detailed list of additional facilities, buildings, and fixtures to be purchased, installed, or erected by you, with the estimated cost of each item.

7. Furnish a detailed list of operating equipment, separated into items to be—

   (*a*) Rented

   (*b*) Purchased

   (*c*) Furnished by you

   with the rental, purchase price, or depreciation of each item, as the case may be, to be charged as a cost of the project.

8. Furnish an itemized schedule of labor, by numbers and classes (miners, muckers, etc.) and of supervisors by numbers and positions, with the maximum wages or salaries to be paid to each.

9. Furnish a detailed list with estimated cost of each item for materials, supplies, engineering, assaying, accounting, power, water, utilities, and any other items not provided for above.

10. (*a*) How much are you prepared to invest in the proposed project?

    (*b*) Is this amount sufficient to pay your part of the cost of the project, in accordance with the regulations on Government participation (Sec. 9 of MO–5)?

11. State any conditions or circumstances regarding the property not sufficiently brought out by the foregoing questions.
