AIR MAIL

J.R.

DEC 29 1951

Mr. Claude Goodman
Saint Joe, Arkansas

Re: Docket No. DMA-2207
Fluorspar and other minerals
Claude Goodman
Prospect

Dear Mr. Goodman:

Your application for aid for an exploration project on fluorspar and other minerals located in Searcy County, Arkansas, has been docketed as DMA-2207 and reviewed by this office.

Projects approved by the Defense Minerals Exploration Administration, in its judgment, show definite promise of yielding materials of acceptable grade, physical character and specifications, in quantities that will significantly improve the mineral supply position for National Defense.

A very careful study of your proposal revealed that you have not demonstrated that your deposit has promise of yielding strategic material in significant quantities. Therefore, your request for exploration assistance must be denied.

Sincerely yours,

C. O. Mittendorf (fw)

Acting Administrator
Defense Minerals Exploration
Administration

RECEIVED
DEC 10 1951

IN REPLY REFER TO:

G-MD-REVA

UNITED STATES
DEPARTMENT OF THE INTERIOR
GEOLOGICAL SURVEY
WASHINGTON 25, D. C.

December 5, 1951

Memorandum

To: Lawrence Houk, Defense Minerals Exploration Administration

From: Ralph E. Van Alstine, U. S. Geological Survey

Subject: DMA-2207, application of Mr. Claude Goodman, Saint Joe, Arkansas, for assistance with proposed exploration for fluorspar, cinnabar, etc., in Searcy County, Arkansas.

It is suggested that the proposed letter to the applicant be modified somewhat as he actually has requested financial assistance at this time ("anywhere from $156 to $1,000"). His proposed prospecting work seems to come within the scope of MO-5; however, it should be described fully and supported by the detailed data called for by the application form. The probability of making a significant discovery certainly has not been demonstrated.

Fluorspar, cinnabar, and lead assays were made by the Bureau of Mines at Washington, D. C., according to the applicant. These assays, if existent, and any pertinent data in the applicant's 12 letters in the Bureau files might be added to this docket.

Before his request is acted upon, the applicant should be asked for the additional information and possibly for samples. Form MF-100, which he says he has never filed, might be sent to him as a guide.

Ralph E. Van Alstine

Ralph E. Van Alstine

Mr. Claude Goodman
Saint Joe, Arkansas

Subject: DMA-2207
Re: Exploration Loan

My dear Mr. Goodman:

This will acknowledge receipt of your application dated October 27, 1951 for a loan under the Defense Production Act of 1950.

Your application was assigned Docket Number DMA-2207 and referred to the Production Expansion Division.

Kindly refer to DMA-2207 in any future correspondence relating to your application.

Sincerely yours,

Robert E. Adams

Robert E. Adams, Chief
Reports and Records Unit

St Joe Ark Oct 27. 1951

Gentlemen, there is my papers filled out. the best I know how. hope they are right. on a few days. I have already visited the Cinnabar. a piece of it is what I have found in the dirt. I will ship it to Joplin and as Rolla wants to be tested. Just as soon as it rains and I can get some of it to be tested. the Flourspar runs in the limestone it is a purple stain. there is a black metallic metal that is in the shale. surrounded by a beautiful purple stain. I am going to sink a hole down in the clay and shale to find the flourspar

Yours very truly

Glenn E Jackson

P.S. this Flourspar and the Cinnabar Ford was tested by the Bureau of mines at washington D.C. I have just the results of the test. But can ship the [illegible] necessary.

If you have already filed MF-100, give date filed no, type of assistance requested none at present time

DMA Docket Number (if available)

INSTRUCTIONS

Read Mineral Order 5, Regulations Governing Government Aid in Defense Projects, before completing this application. Submit four copies each, of the signed application form, General Technical Data Form MF-100, and answers to questions as specified, to Defense Minerals Administration, Department of the Interior, Washington 25, D. C., or to the nearest field executive office thereof, with your name and address on each sheet of the application and all accompanying papers. If you have previously filed MF-100, it is not necessary to file it again. However, you should indicate in space provided above the type of assistance previously applied for (loans, procurement contracts, etc.) and DMA Docket Number, if available. *When a question is inapplicable it should be so stated in the form.* Additional sheets should be attached in answering any questions or in supplying additional information. IF YOU CANNOT ANSWER A QUESTION, SO STATE.

1. (*a*) Give a description of the real property that will be in any way involved in the exploration project, including any existing mine or operating property.

   (*b*) If you are not the owner of the property, submit a copy of the lease, purchase option, or other agreements under which you are authorized to operate the property with each copy of your application.

   (*c*) Give the legal description of the exact parcel, plot, or area upon which the exploration is to be conducted.

   NOTE: (1) If both areas are the same, so state. The only obligation to repay the Government is from the net earnings from any commercial discovery made in the area specified in (*c*) above in which the exploration is to be conducted, and the expenditure of funds which may be charged as costs of the project must be limited to that area or to work necessary to perform the exploration in that area.

   (2) If applicant is not the owner of the property or if there are any liens or encumbrances against the property, copy of agreements of claimants, lienors, encumbrances, and lessors subordinating their interests in the property to the interest of the Government under the Exploration Project Contract will be required for attachment to the Contract.

2. (*a*) What metals or minerals do you expect to find?

   (*b*) Furnish statement of the geologic features of your property, giving type of ore deposit and reasons for expecting to find commercial ore bodies. Illustrate with maps or sketches. If you have a geologic or engineering report, or assay maps showing width and grade, please send them with application, stating whether or not you wish to have them returned.

The information requested in questions 3, 4, 5, 6, 7, 8, and 9 below should be answered specifically and in detail, as this information will be attached to and incorporated as part of the Exploration Project Contract, if such contract is entered into with you by the Government.

ANSWER EACH QUESTION ON SEPARATE SHEETS OF PAPER AND SUBMIT A COPY OF EACH ANSWER FOR EACH COPY OF YOUR APPLICATION.

3. (*a*) Describe fully the proposed work and give the total cost of the project.

   (*b*) State the time required to start the project and to complete it.

4. Submit a map or sketch of the property involved showing a plan (and cross section, if needed) of the present mine workings and the *location of the proposed exploration work* as related to geologic features, such as contacts, veins, ore-bearing beds, etc.

5. Furnish an itemized list of existing facilities, buildings, installations, and fixtures with a statement of the cost of any necessary rehabilitation or repairs to put into useful and operable condition.

6. Furnish a detailed list of additional facilities, buildings, and fixtures to be purchased, installed, or erected by you, with the estimated cost of each item.

7. Furnish a detailed list of operating equipment, separated into items to be—

   (*a*) Rented

   (*b*) Purchased

   (*c*) Furnished by you

   with the rental, purchase price, or depreciation of each item, as the case may be, to be charged as a cost of the project.

8. Furnish an itemized schedule of labor, by numbers and classes (miners, muckers, etc.) and of supervisors by numbers and positions, with the maximum wages or salaries to be paid to each.

9. Furnish a detailed list with estimated cost of each item for materials, supplies, engineering, assaying, accounting, power, water, utilities, and any other items not provided for above.

10. (*a*) How much are you prepared to invest in the proposed project?

    (*b*) Is this amount sufficient to pay your part of the cost of the project, in accordance with the regulations on Government participation (Sec. 9 of MO–5)?

11. State any conditions or circumstances regarding the property not sufficiently brought out by the foregoing questions.

CERTIFICATION

However, you should indicate in space provided above the type of assistance previously applied for (loans, procurement contracts, etc.) and DMA Docket Number, if available. *When a question is inapplicable it should be so stated in the form.* Additional sheets should be attached in answering any questions or in supplying additional information. IF YOU CANNOT ANSWER A QUESTION, SO STATE.

1. (*a*) Give a description of the real property that will be in any way involved in the exploration project, including any existing mine or operating property.

   (*b*) If you are not the owner of the property, submit a copy of the lease, purchase option, or other agreements under which you are authorized to operate the property with each copy of your application.

   (*c*) Give the legal description of the exact parcel, plot, or area upon which the exploration is to be conducted.

   NOTE: (1) If both areas are the same, so state. The only obligation to repay the Government is from the net earnings from any commercial discovery made in the area specified in (*c*) above in which the exploration is to be conducted, and the expenditure of funds which may be charged as costs of the project must be limited to that area or to work necessary to perform the exploration in that area.

   (2) If applicant is not the owner of the property or if there are any liens or encumbrances against the property, copy of agreements of claimants, lienors, encumbrances, and lessors subordinating their interests in the property to the interest of the Government under the Exploration Project Contract will be required for attachment to the Contract.

2. (*a*) What metals or minerals do you expect to find?

   (*b*) Furnish statement of the geologic features of your property, giving type of ore deposit and reasons for expecting to find commercial ore bodies. Illustrate with maps or sketches. If you have a geologic or engineering report, or assay maps showing width and grade, please send them with application, stating whether or not you wish to have them returned.

The information requested in questions 3, 4, 5, 6, 7, 8, and 9 below should be answered specifically and in detail, as this information will be attached to and incorporated as part of the Exploration Project Contract, if such contract is entered into with you by the Government.

ANSWER EACH QUESTION ON SEPARATE SHEETS OF PAPER AND SUBMIT A COPY OF EACH ANSWER FOR EACH COPY OF YOUR APPLICATION.

3. (*a*) Describe fully the proposed work and give the total cost of the project.

   (*b*) State the time required to start the project and to complete it.

4. Submit a map or sketch of the property involved showing a plan (and cross section, if needed) of the present mine workings and the *location of the proposed exploration work* as related to geologic features, such as contacts, veins, ore-bearing beds, etc.

5. Furnish an itemized list of existing facilities, buildings, installations, and fixtures with a statement of the cost of any necessary rehabilitation or repairs to put into useful and operable condition.

6. Furnish a detailed list of additional facilities, buildings, and fixtures to be purchased, installed, or erected by you, with the estimated cost of each item.

7. Furnish a detailed list of operating equipment, separated into items to be—

   (*a*) Rented

   (*b*) Purchased

   (*c*) Furnished by you

   with the rental, purchase price, or depreciation of each item, as the case may be, to be charged as a cost of the project.

8. Furnish an itemized schedule of labor, by numbers and classes (miners, muckers, etc.) and of supervisors by numbers and positions, with the maximum wages or salaries to be paid to each.

9. Furnish a detailed list with estimated cost of each item for materials, supplies, engineering, assaying, accounting, power, water, utilities, and any other items not provided for above.

10. (*a*) How much are you prepared to invest in the proposed project?

    (*b*) Is this amount sufficient to pay your part of the cost of the project, in accordance with the regulations on Government participation (Sec. 9 of MO–5)?

11. State any conditions or circumstances regarding the property not sufficiently brought out by the foregoing questions.

CERTIFICATION

The undersigned company, and the official executing this certification on its behalf, hereby certify that the information contained in this form and accompanying papers is correct and complete to the best of their knowledge and belief.

U. S. GOVERNMENT PRINTING OFFICE 16—64067-2

1(a) this mine is located in the S.W. ¼ of Sec 15 R 16 west
T.w. 16 Searcy County Ark. this mine is on a Point
Bound by the Buffalo river Bluff on the South East.
and a Hollow on the north west. from Hollow
to the river is about 150 yds more or less. and
Length about 250 yds. more or less. I am working
Zinc mine East of here about ¾ of a mile.
(B) I am the owner of the property
(C) this mine to be worked Starts at Jim gap.
Running to the north East about 250 yds and is
150 yds wide. from Hollow on north west to the
river on the South East
a Chance for Cinnabar and various other kinds
of minerals. tested by the Bureau of mines at
washington D.C. just as it reads here.
note 1. Both areas are just about the same
2 I am the owner. my Land is all in the clear.
2(a) I Expect to find Flourspar. Cinnabar Lead
manganese or Copper.
B) I have some Copper and Lead galena of Lead
and Zinc. and flourspar manganese crosses
the river towards Jim gap. Headed to the flourspar
and the Cinnabar. washington D.C. has tested all
my mineral since 1937.
3(a) I intend to go down in a Clay bed. about the
flourspar. and then go under the Point of the bluff

[illegible] the Cinnabar [illegible] [illegible]
the Copper [illegible] [illegible] the South [illegible]
item cost Copper [illegible] from 15c to 20c
I figured on [illegible] any of [illegible] [illegible]
[illegible] and [illegible] [illegible]
(3) Can find the [illegible] [illegible] [illegible]
[illegible] [illegible] it if I did it [illegible]
it is from 30 days to 150 days I [illegible]
be done.
4. [illegible] Cinnabar test Some Lead [illegible] Gasoline engine
5. [illegible] buildings
[illegible]
7 (A) Rented nothing (B) purchased nothing (C)
furnished by you Hammers Drills Caps Fuse
and Coal and Powder.
8. I am to be furnished by the Government at 6c
per lb. and my self.
9 Hauling 150 to 200
10 Just any days work. And my friend [illegible]
[illegible] Coal [illegible] and Powder
11 There is a bed of Copper and Iron in the West
side and it can only be seen in low water
the month of July and August, near the Cinnabar
Points to Copper it is 500 or 75 feet wide. I found
the mining [illegible] and he said it was
Copper and Iron.
