Mr. Otto P. Smith

Cripple Creek, Colorado

Dear Mr. Smith:

The Defense Minerals Administration has reviewed your application for an exploration loan on the Spring Creek mines, near Cripple Creek.

We do not consider that the property holds enough promise for any significant discovery of lead or zinc in this gold camp to warrant an expenditure of public funds on the project that you propose. I regret, therefore, that we are unable to approve an exploration loan for your project.

We wish to thank you for bringing this property to our attention.

Very truly yours,

BF 9/10

June 8, 1951

Memorandum

To: Tom Lyon, Chairman, Coordinating Committee

From: DMA Field Team, Region IV

Subject: DMA Docket 1150, Otto P. Smith, Cripple Creek, Colorado

This will acknowledge receipt of the brochure of docket DMA 1150, Otto P. Smith, Cripple Creek, Colorado.

This application has been discussed with Mr. Koschmann, Supervising Geologist, Colorado-Wyoming, U. S. Geological Survey, and Mr. Koschmann agrees with the findings of the Lead-Zinc Branch and concurs that the application should be denied.

The Cripple Creek District has never produced appreciable quantities of lead and zinc ore and it is not believed that the district ever will produce substantial amounts.

We are returning the brochure.

Re: Docket DMA-1150
Otto P. Smith
Cripple Creek, Colorado
Lead-zinc
Exploration loan

Dear Mr. East:

The Lead-Zinc Branch has reviewed the application submitted by Otto P. Smith, Cripple Creek, Colorado for a loan to explore his property in Teller County, Colorado.

The applicant proposes to open up the Spring Creek mines, formerly operated by the Montreal Gold Mining Company, in Sec. 1, T. 15, R. 70 W, 1½ miles north of Cripple Creek, Colorado. The total estimated cost of the project is $7,000. The applicant does not state clearly the exact work he proposes to undertake, but on the map accompanying the application there is shown a proposed incline to the ore zone.

Although this was a gold property, the applicant claims that there is zinc and lead on the 130 ft. level. Accompanying the application are assays dated 1948 and 1949 showing 26.5% Zn in one sample and 0.11 oz. Au, 6.1 oz. Ag, 6.4% Pb, and 8.8% Zn in the second. Location and types of samples are not indicated.

The Lead-Zinc Branch tentatively recommends the following:

As the workings are apparently all caved and the mine inaccessible for examination, the application should be denied, unless the field team may have some independent and favorable information on the deposit. Applicant states that he has called attention of Mr. Koschmann to this deposit. Possibly Mr. Koschmann may have seen the property since then or may, from his knowledge of the district, be able to make a recommendation. The application is forwarded to the field team mainly to get its concurrence on the proposed action or to allow for reversal, if this seems warranted.

Very truly yours,

Dear Mr. Smith:

Your application (Docket DMA-1150) for a Government loan under the provisions of the Defense Production Act of 1950 has been reviewed by the Lead-Zinc Branch of the Defense Minerals Administration. Before final decision can be taken on your request, it will be necessary to obtain additional information on your property. Your application, therefore, has been referred to Mr. J. H. East, Jr., Executive Officer of the Field Team, 224 New Customhouse, Denver 2, Colorado, with the request that the needed information be supplied to us.

Very truly yours,

Cripple Creek
Colorado

Name and address of applicant

Date May 1 1951

INSTRUCTIONS

This form is to be filed with Defense Minerals Administration, Department of the Interior, Washington 25, D. C. It should be accompanied by appropriate application form when a specific type of Government assistance is requested, in the form of (1) loan, (2) purchase contract, (3) Government guarantee of a private loan, (4) Necessity Certificate pursuant to the provisions of Sec. 124-A (Amortization Deduction) of Internal Revenue Code, 1950, (5) priorities or allocation of mining equipment, and maintenance, repair and operating supplies, and (6) other forms of Government assistance that might arise under the Act. Submit four (4) signed copies of the form and accompanying papers. Name and address should be stamped or typed on each sheet of this form and all accompanying papers. *When a question is inapplicable it should be so stated on the form.* Additional sheets may be attached in answering any questions or in supplying additional information. (IF YOU CANNOT ANSWER A QUESTION, SO STATE.) If a question is answered elsewhere indicate where answered. It is not necessary to answer it again.

GENERAL TECHNICAL DATA

Supply the following information on separate sheets, arranged, numbered, and lettered as indicated:

1. Materials produced:
   (*a*) What are the chief mine, mill, or smelter products?
   (*b*) What are the byproducts, if any?
2. Name(s) and type(s) of mine(s), mill(s), smelter(s), refinery(ies), pit(s), quarry (ies), drilling operation(s). Include old names of property, if any. Show extent of workings, including the following:
   (*a*) Linear feet of shafts.
   (*b*) Linear feet of drifts and crosscuts.
   (*c*) Linear feet of tunnels or adits.
   (*d*) Linear feet of other mine openings (explain briefly).

   Indicate whether mine is flooded or not. Describe any pumping problems. Give size or productive capacity.
3. For each operation listed above supply the following:
   (*a*) Distance and direction from nearest town and shipping point.
   (*b*) Mining district.
   (*c*) Township, Section, Range.
   (*d*) County, State.
4. (*a*) State whether or not property is now in operation, and if in operation, by whom operated.
   (*b*) Are you operating this property as:
   - ☐ Owner.
   - ☐ Lessee.
   - ☐ Contractor.
5. Number of years in production None

   If not in production or operation, estimated date when production will begin 5 months after start of operations
6. Experience of operators:

   Describe the mining and general business experience of (*a*) the applicant, and (*b*) the person or persons who manage the project.
7. History:
   (*a*) Give a statement, as complete as possible, of previous exploration, development, operation, and production of property, with reasons for suspension of operation.
   (*b*) State briefly the known history and production of adjoining and neighboring properties.
   (*c*) Furnish any available (private) reports that may apply to this application, including results of mine examinations, recommended exploration and development, and metallurgical investigations.

8. Names and addresses of Officers, Directors, or Partners, and in addition thereto, the five largest stockholders if applicant is a corporation.

Name and Address (a)	Official Title (If officer is also director indicate by "D") (b)	Total of Annual Salary, Commissions, Bonuses, Etc., Received From Applicant and Affiliates During Last Fiscal Year (c)	Estimated Net Worth Outside of Interest in Applicant (d)	Number of Shares Held in Applicant Corporation: Common (e)	Number of Shares Held in Applicant Corporation: Preferred (f)	Life Insurance Carried for Benefit of Applicant: Amount (g)	Life Insurance Carried for Benefit of Applicant: Net Cash Surrender Value After Loans (h)
Otto Smith Cripple Creek Colorado	Owner	None	$ 6000	Sole Owner		None	None
	Total		x x x x x			x x x x x	x x x x x

If more lines are needed continue on separate sheet.

9. Capital Stock Issues:

For Corporate Applicants

Item	Authorized (a)	Outstanding (b)	Par Value (c)	Number of Shares Outstanding (d)	Dividend Rate Last Paid* (e)
Common stock	$ None	$ None	$ —	—	—
Preferred stock	$ None	$ None	$ —	—	—

*Indicate period covered.

10. Production:

Item	Kind of Product (a)	1948 Total (b)	1949 Total (c)	1950 Total (d)	Present Average Monthly (e)
1. Quantity of product mined or quarried (Short, long, metric tons; barrels; pounds; etc.)	No Production				
2. Quantity of product processed (specify unit of measure and type of process)					
3. Quantity and grade of product sold or shipped (specify units of measure)					

11. Do you contemplate a change in the present average monthly rate of production? If so, state estimated maximum monthly production and basis of change.

12. Ore or Mineral Reserves:

(a) Describe the ore or mineral deposit briefly. Accompany the application by any available report on the geology and ore reserves.

(*b*) If deposit is other than placer:

(1) Submit assay plans and/or sections showing location and size of proved (measured) and probable (indicated) ore or mineral reserve.

(2) State the tonnage (indicate type of ton) and grade of each class of ore reserve, as above, and show how computed. Tabulated total ore reserve as follows:

TOTAL ORE OR MINERAL RESERVES

Ore or Mineral Reserve	Estimated Tons (a)	Metal or Mineral Content Per Ton (Grade) (b)	Gross Value Per Ton (c)	Recoverable Unit Value Per Ton (d)	Estimated Cost of Production Per Ton (e)
Measured (proved)	Prospect				
Indicated (probable)					

(*c*) If placer:

(1) Give estimated total yardage and average marketable mineral content of each deposit.

(2) Submit map showing location of placer deposit and surrounding area, with all test holes or pits. Submit logs of each hole and test pit with depth and average value of each.

(3) Describe gravel, stating whether fine, medium or coarse; loose, tight, cemented, or frozen, and whether it contains stumps or boulders more than 1 foot in diameter; if so, how large, and in what proportion.

(4) Describe bedrock, giving type (granite, sandstone, shale, etc.) and state whether it is hard or soft, smooth, uneven or rough.

(5) Describe overburden, stating whether loose, tight, or cemented; fine or coarse textured; furnish estimate of average thickness and total amount.

(6) Tabulate the reserves using the form outlined above for ore or mineral reserves.

13. Access Roads:

Give road distances to shipping, supply and residence points, stating kind and condition of roads.

14. Water Supply:

State source and quantity of water available for operations and whether sufficient for all seasons of year.

15. Power:

State amount of power used, rate per hour, and source thereof.

16. Labor:

State number and classes (miners, muckers, millmen, etc.) of men employed during a recent representative payroll period.

17. Equipment and Facilities:

Describe present equipment on the property, including buildings. (State condition.) List major pieces of equipment now owned or controlled and in serviceable condition available for this operation.

18. Are there any particular conditions or circumstances affecting your operations that are not described above? If so, explain.

CERTIFICATION

INSTRUCTIONS

Read Mineral Order 5, Regulations Governing Government Aid in Defense Projects, before completing this application. Submit four signed copies of the application to Defense Minerals Administration, Department of the Interior, Washington 25, D. C., or to the nearest field executive officer thereof, with your name and address on each sheet of the application and all accompanying papers. If any question is inapplicable, or if you cannot answer it, so state on the form. Where the space provided for answer is insufficient, answer on a separate sheet, annex it to the application form, and refer to it in space for answer. If the application is approved, you will be presented with an exploration project contract on Form MF-200, for your signature.

THE APPLICANT

*1. Is applicant an individual, partnership, or corporation?
*2. If a partnership, state names and addresses of partners.
*3. If a corporation, state names and addresses of officers, directors, and five largest stockholders.
*4. Describe the mining and general business experience of (*a*) the applicant, and (*b*) the person or persons who will manage the project.
*5. Are you the owner or the lessee of the property?
6. If owner, state what claims, liens, or encumbrances, if any, are against the property.
7. If lessee, attach a copy of the lease and state if it is in good standing.

NOTE.—It will be necessary to procure and attach to the exploration project contract agreements of claimants, lienors, encumbrances and lessors subordinating their interests in the property to the interest of the Government under the contract.

8. Furnish current financial statement, showing assets and liabilities, and a profit and loss statement.
9. How much money is applicant prepared to invest in proposed project? Is it sufficient to pay your part of the cost of the project as detailed in question 23 of this application form, in accordance with the regulations on Government participation (Section 9 of Mineral Order 5)?

*If you have already answered these questions on MF-100, you are not required to answer the questions for this application.

16—64067-1

Dma 1150 X

THE PROPERTY

10. (*a*) Give a description of the real property that will be in any way involved in the exploration project, including any existing mine or operating property.
    (*b*) Give the legal description of the exact parcel, plot, or area upon which the exploration is to be conducted.

    NOTE.—If both areas are the same, so state. The only obligation to repay the Government is from the net earnings from any commercial discovery made in the area specified in (*b*) above in which the exploration is to be conducted, and the expenditure of funds which may be charged as costs of the project must be limited to that area or to work necessary to perform the exploration in that area.

*11. State the present and former names of the property, if any.

*12. State, in detail, the location of the property with reference to towns, railroads, roads, shipping points, including distances and directions and kinds and conditions of roads.

*13. State source and quantity of water available for operations and its sufficiency at all seasons.
State amount of power to be used, rate per hour or other cost, and source.

*14. Describe any existing useable facilities, equipment, buildings, or structure now on the property that will be devoted to the exploration work.

15. State in detail how the ore could be shipped and how and where milled.

*16. History:
    (*a*) Give a statement, as complete as possible, of previous exploration, development, operation, and production of property, with reasons for any past suspensions of operations.
    (*b*) State briefly the known history and production of adjoining and neighboring properties.
    (*c*) Furnish any available (private) reports that may apply to this application, including results of mine examinations, recommended exploration and development, and metallurgical investigations.

*17. Production:
    (*a*) If mine is in production, furnish the following information:

	Tons per day	*Grade or analysis*	*Cost per ton*	*Net value per ton*
(1) Mining				
(2) Milling				
(3) Shipped or sold				

*18. Ore or mineral reserves: (If property is or has been operating.)
    (*a*) Describe the ore or mineral deposits briefly.
    (*b*) Submit available maps and assay data.
    (*c*) Give estimated tonnage and grade of each class of ore reserves.

19. State any conditions or circumstances regarding the property not sufficiently brought out by the foregoing questions.

THE EXPLORATION

20. For what mineral or minerals and for what types of deposits and ores will the exploration be conducted?

21. Describe briefly, but concisely, the proposed work and the estimated time required to complete it.

    NOTE.—The Government will not participate in a project that will require more than 2 years to complete.

22. Furnish statement of the geological basis of the project with particular emphasis on factors leading the operator to expect the finding of commercial ore bodies. This statement should be accompanied by supporting maps such as geological maps, maps of the proposed openings and assay maps, sample lists, and other pertinent data.

THE REQUIREMENTS AND COSTS

23. Tabulate in the form of an itemized statement with a sum for each item the estimated requirements and costs of the project so that the total will give the estimated cost of the project in which the Government will participate, as follows:
    (*a*) Labor, by numbers and classes (miners, muckers, millmen, etc.), with wages of each.
    (*b*) Supervisors, by numbers and positions, with salaries of each.
    (*c*) Cost of necessary repairs to existing facilities, structures, and buildings.
    (*d*) Cost of necessary installation or construction of additional facilities, structures, and buildings.
    (*e*) Cost of items of equipment, not now owned by the applicant which must be purchased for operations at a cost of $50 or more each.
    (*f*) Cost of rental for equipment which the operator proposes to rent.
    (*g*) Rental value of items of equipment which the operator now owns and which will be devoted to the work.
    (*h*) Cost of materials and supplies, including items of equipment costing less than $50 each.
    (*i*) Cost of power, water, utilities, and any other items not provided for above.

24. Furnish a time schedule of the project, stated in terms of months after project is approved, showing progress expected to be accomplished and the money expected to be spent.

CERTIFICATION

The undersigned company, and the official executing this certification on its behalf, hereby certify that the information contained in this form and accompanying papers is correct and complete to the best of their knowledge and belief.

Date May 1 - 1951

INSTRUCTIONS

This form is to be filed with Defense Minerals Administration, Department of the Interior, Washington 25, D. C. It should be accompanied by appropriate application form when a specific type of Government assistance is requested, in the form of (1) loan, (2) purchase contract, (3) Government guarantee of a private loan, (4) Necessity Certificate pursuant to the provisions of Sec. 124-A (Amortization Deduction) of Internal Revenue Code, 1950, (5) priorities or allocation of mining equipment, and maintenance, repair and operating supplies, and (6) other forms of Government assistance that might arise under the Act. Submit four (4) signed copies of the form and accompanying papers. Name and address should be stamped or typed on each sheet of this form and all accompanying papers. *When a question is inapplicable it should be so stated on the form.* Additional sheets may be attached in answering any questions or in supplying additional information. (IF YOU CANNOT ANSWER A QUESTION, SO STATE.) If a question is answered elsewhere indicate where answered. It is not necessary to answer it again.

GENERAL TECHNICAL DATA

Supply the following information on separate sheets, arranged, numbered, and lettered as indicated:

1. Materials produced:
   (*a*) What are the chief mine, mill, or smelter products?
   (*b*) What are the byproducts, if any?
2. Name(s) and type(s) of mine(s), mill(s), smelter(s), refinery(ies), pit(s), quarry (ies), drilling operation(s). Include old names of property, if any. Show extent of workings, including the following:
   (*a*) Linear feet of shafts.
   (*b*) Linear feet of drifts and crosscuts.
   (*c*) Linear feet of tunnels or adits.
   (*d*) Linear feet of other mine openings (explain briefly).

   Indicate whether mine is flooded or not. Describe any pumping problems. Give size or productive capacity.
3. For each operation listed above supply the following:
   (*a*) Distance and direction from nearest town and shipping point.
   (*b*) Mining district.
   (*c*) Township, Section, Range.
   (*d*) County, State.
4. (*a*) State whether or not property is now in operation, and if in operation, by whom operated.
   (*b*) Are you operating this property as:
   - [x] Owner.
   - [ ] Lessee.
   - [ ] Contractor.
5. Number of years in production None

   If not in production or operation, estimated date when production will begin 5 months after start of operations
6. Experience of operators:

   Describe the mining and general business experience of (*a*) the applicant, and (*b*) the person or persons who manage the project.
7. History:
   (*a*) Give a statement, as complete as possible, of previous exploration, development, operation, and production of property, with reasons for suspension of operation.
   (*b*) State briefly the known history and production of adjoining and neighboring properties.
   (*c*) Furnish any available (private) reports that may apply to this application, including results of mine examinations, recommended exploration and development, and metallurgical investigations.

8. Names and addresses of Officers, Directors, or Partners, and in addition thereto, the five largest stockholders if applicant is a corporation.

Name and Address (a)	Official Title (If officer is also director indicate by "D") (b)	Total of Annual Salary, Commissions, Bonuses, Etc., Received From Applicant and Affiliates During Last Fiscal Year (c)	Estimated Net Worth Outside of Interest in Applicant (d)	Number of Shares Held in Applicant Corporation: Common (e)	Number of Shares Held in Applicant Corporation: Preferred (f)	Life Insurance Carried for Benefit of Applicant: Amount (g)	Life Insurance Carried for Benefit of Applicant: Net Cash Surrender Value After Loans (h)
Otto P. Smith Cripple Creek Colorado	Owner	None	$8000	100	Owner	None	None
	Total		x x x x x			x x x x x	x x x x x

If more lines are needed continue on separate sheet.

9. Capital Stock Issues:

For Corporate Applicants

Item	Authorized (a)	Outstanding (b)	Par Value (c)	Number of Shares Outstanding (d)	Dividend Rate Last Paid* (e)
Common stock	$ None	$ None	$ —	—	—
Preferred stock	$ None	$ None	$ —	—	—

*Indicate period covered.

10. Production:

Item	Kind of Product (a)	1948 Total (b)	1949 Total (c)	1950 Total (d)	Present Average Monthly (e)
1. Quantity of product mined or quarried (Short, long, metric tons; barrels; pounds; etc.)	Prospect — No Production				
2. Quantity of product processed (specify unit of measure and type of process)					
3. Quantity and grade of product sold or shipped (specify units of measure)					

11. Do you contemplate a change in the present average monthly rate of production? If so, state estimated maximum monthly production and basis of change.

12. Ore or Mineral Reserves:

(a) Describe the ore or mineral deposit briefly. Accompany the application by any available report on the geology and ore reserves.

(*b*) If deposit is other than placer:

(1) Submit assay plans and/or sections showing location and size of proved (measured) and probable (indicated) ore or mineral reserve.

(2) State the tonnage (indicate type of ton) and grade of each class of ore reserve, as above, and show how computed. Tabulated total ore reserve as follows:

TOTAL ORE OR MINERAL RESERVES

Ore or Mineral Reserve	Estimated Tons (a)	Metal or Mineral Content Per Ton (Grade) (b)	Gross Value Per Ton (c)	Recoverable Unit Value Per Ton (d)	Estimated Cost of Production Per Ton (e)
Measured (proved)	Prospect				
Indicated (probable)					

(*c*) If placer:

(1) Give estimated total yardage and average marketable mineral content of each deposit.

(2) Submit map showing location of placer deposit and surrounding area, with all test holes or pits. Submit logs of each hole and test pit with depth and average value of each.

(3) Describe gravel, stating whether fine, medium or coarse; loose, tight, cemented, or frozen, and whether it contains stumps or boulders more than 1 foot in diameter; if so, how large, and in what proportion.

(4) Describe bedrock, giving type (granite, sandstone, shale, etc.) and state whether it is hard or soft, smooth, uneven or rough.

(5) Describe overburden, stating whether loose, tight, or cemented; fine or coarse textured; furnish estimate of average thickness and total amount.

(6) Tabulate the reserves using the form outlined above for ore or mineral reserves.

13. Access Roads:

Give road distances to shipping, supply and residence points, stating kind and condition of roads.

14. Water Supply:

State source and quantity of water available for operations and whether sufficient for all seasons of year.

15. Power:

State amount of power used, rate per hour, and source thereof.

16. Labor:

State number and classes (miners, muckers, millmen, etc.) of men employed during a recent representative payroll period.

17. Equipment and Facilities:

Describe present equipment on the property, including buildings. (State condition.) List major pieces of equipment now owned or controlled and in serviceable condition available for this operation.

18. Are there any particular conditions or circumstances affecting your operations that are not described above? If so, explain.

CERTIFICATION

The undersigned company, and the official executing this certification on its behalf, hereby certify that the information contained in this form and accompanying papers is correct and complete to the best of their knowledge and belief.

a.1 - Lead - Zinc.
b. Silver, Gold, Manganese.

2 - a. Estimated 300 feet. Caved
b - " 400 " "
c. caved no record
d shallow prospect holes caved.
areal water is expected.

3 - a. 1½ miles due north of Cripple Creek.
b - Cripple Creek Colorado
c - Sec 1 - Twp 15 - R 70 W.
d - Teller County Colorado.

4 - a - Not in operation.

5 - answered.

6 - Mucker to shift boss in hard rock.
Miner to manager in Coal.
Plus many years prospecting.

7. a. All work on property was in search of gold. Some 90 000 taken from the upper oxidized zone at N.W. end of zone. (1900-1910)
Galena zinc ch came in at 130 ft level El. 9700 ft.
This includes the only other claim worked on the area (Not owned)

7. a - Twenty five tons of Galena were
b taken from a winze - 8 ft. deep - by the late G. E. Cortland, then head of the Golden Cycle Corp., while trying to reach the upper oxidized zone - 1929 -

MF100 Otto P. Smith Cripple Creek Colo

7-a No price lists for Lead Zinc.
b Project abandoned
c- None except for two very reliable ~~of~~ parties who worked in Carlton Tunnel, one of them a mine Supt.

8-9-10 Answered.

11 no production.

12-a- Known ~~ore~~ ore lies along left side of a sheeted Phonolite dike or plug - about 3000 feet long. Breccia lies between the Phonolite and the Granite wall. at the N.W. end of zone where gold was found. Galena came in at 130 feet, no more gold was found. The intrusive plug is very irregular the sides being about 2000 ft long the ends about 1800 ft.

12-b-1 - Assays attached
Only reports on Nelson were by Lindgren - 1904 - and Koschmann and Loughlin 1934??
Koschmann admitting to the writer that (1949) he had never been on Copper or on the adjacent Mt. Phonolite.
(The writer had protested the report to the U.S.B.S. in Washington)

12-b-2 - Cannot be answered
12-b-c Not applicable

MF.100. Otto Smith Cripple Creek Colo.

13. 1½ miles to highway. Road present will be put in excellent condition by County Commissioners if work starts

Ore would go to Leadville Smelter - 100 miles away.

14 Creek crosses property. Plenty of water on bed rock at all times.

15 Cannot by amount.

16. One miner and myself can easily do initial development, using drag line and scraper.

17 2 tons rails - 12-8 pound - on hand
2 mine cars,
1 chest
1 chest - on the road.

18 — None.

INSTRUCTIONS

Read Mineral Order 5, Regulations Governing Government Aid in Defense Projects, before completing this application. Submit four signed copies of the application to Defense Minerals Administration, Department of the Interior, Washington 25, D. C., or to the nearest field executive officer thereof, with your name and address on each sheet of the application and all accompanying papers. If any question is inapplicable, or if you cannot answer it, so state on the form. Where the space provided for answer is insufficient, answer on a separate sheet, annex it to the application form, and refer to it in space for answer. If the application is approved, you will be presented with an exploration project contract on Form MF-200, for your signature.

THE APPLICANT

*1. Is applicant an individual, partnership, or corporation?
*2. If a partnership, state names and addresses of partners.
*3. If a corporation, state names and addresses of officers, directors, and five largest stockholders.
*4. Describe the mining and general business experience of (*a*) the applicant, and (*b*) the person or persons who will manage the project.
*5. Are you the owner or the lessee of the property?
6. If owner, state what claims, liens, or encumbrances, if any, are against the property.
7. If lessee, attach a copy of the lease and state if it is in good standing.

NOTE.—It will be necessary to procure and attach to the exploration project contract agreements of claimants, lienors, encumbrances and lessors subordinating their interests in the property to the interest of the Government under the contract.

8. Furnish current financial statement, showing assets and liabilities, and a profit and loss statement.
9. How much money is applicant prepared to invest in proposed project? Is it sufficient to pay your part of the cost of the project as detailed in question 23 of this application form, in accordance with the regulations on Government participation (Section 9 of Mineral Order 5)?

*If you have already answered these questions on MF-100, you are not required to answer the questions for this application.

16—64067-1

THE PROPERTY

10. (*a*) Give a description of the real property that will be in any way involved in the exploration project, including any existing mine or operating property.
    (*b*) Give the legal description of the exact parcel, plot, or area upon which the exploration is to be conducted.

    NOTE.—If both areas are the same, so state. The only obligation to repay the Government is from the net earnings from any commercial discovery made in the area specified in (*b*) above in which the exploration is to be conducted, and the expenditure of funds which may be charged as costs of the project must be limited to that area or to work necessary to perform the exploration in that area.

*11. State the present and former names of the property, if any.

*12. State, in detail, the location of the property with reference to towns, railroads, roads, shipping points, including distances and directions and kinds and conditions of roads.

*13. State source and quantity of water available for operations and its sufficiency at all seasons.
State amount of power to be used, rate per hour or other cost, and source.

*14. Describe any existing useable facilities, equipment, buildings, or structure now on the property that will be devoted to the exploration work.

15. State in detail how the ore could be shipped and how and where milled.

*16. History:
    (*a*) Give a statement, as complete as possible, of previous exploration, development, operation, and production of property, with reasons for any past suspensions of operations.
    (*b*) State briefly the known history and production of adjoining and neighboring properties.
    (*c*) Furnish any available (private) reports that may apply to this application, including results of mine examinations, recommended exploration and development, and metallurgical investigations.

*17. Production:
    (*a*) If mine is in production, furnish the following information:

	Tons per day	*Grade or analysis*	*Cost per ton*	*Net value per ton*
(1) Mining				
(2) Milling				
(3) Shipped or sold				

*18. Ore or mineral reserves: (If property is or has been operating.)
    (*a*) Describe the ore or mineral deposits briefly.
    (*b*) Submit available maps and assay data.
    (*c*) Give estimated tonnage and grade of each class of ore reserves.

19. State any conditions or circumstances regarding the property not sufficiently brought out by the foregoing questions.

THE EXPLORATION

20. For what mineral or minerals and for what types of deposits and ores will the exploration be conducted?

21. Describe briefly, but concisely, the proposed work and the estimated time required to complete it.

    NOTE.—The Government will not participate in a project that will require more than 2 years to complete.

22. Furnish statement of the geological basis of the project with particular emphasis on factors leading the operator to expect the finding of commercial ore bodies. This statement should be accompanied by supporting maps such as geological maps, maps of the proposed openings and assay maps, sample lists, and other pertinent data.

THE REQUIREMENTS AND COSTS

23. Tabulate in the form of an itemized statement with a sum for each item the estimated requirements and costs of the project so that the total will give the estimated cost of the project in which the Government will participate, as follows:
    (*a*) Labor, by numbers and classes (miners, muckers, millmen, etc.), with wages of each.
    (*b*) Supervisors, by numbers and positions, with salaries of each.
    (*c*) Cost of necessary repairs to existing facilities, structures, and buildings.
    (*d*) Cost of necessary installation or construction of additional facilities, structures, and buildings.
    (*e*) Cost of items of equipment, not now owned by the applicant which must be purchased for operations at a cost of $50 or more each.
    (*f*) Cost of rental for equipment which the operator proposes to rent.
    (*g*) Rental value of items of equipment which the operator now owns and which will be devoted to the work.
    (*h*) Cost of materials and supplies, including items of equipment costing less than $50 each.
    (*i*) Cost of power, water, utilities, and any other items not provided for above.

24. Furnish a time schedule of the project, stated in terms of months after project is approved, showing progress expected to be accomplished and the money expected to be spent.

Form MF-100
(March 1951)

U. S. DEPARTMENT OF THE INTERIOR
DEFENSE MINERALS ADMINISTRATION

Form approved.
Budget Bureau No. 42-R1026.

GENERAL TECHNICAL DATA
FOR USE UNDER THE
DEFENSE PRODUCTION ACT OF 1950

NOT TO BE FILLED IN BY APPLICANT

Docket No. dma-1150X

Date received 5/10/51

Name and address of applicant

Date May 1 1951

INSTRUCTIONS

This form is to be filed with Defense Minerals Administration, Department of the Interior, Washington 25, D. C. It should be accompanied by appropriate application form when a specific type of Government assistance is requested, in the form of (1) loan, (2) purchase contract, (3) Government guarantee of a private loan, (4) Necessity Certificate pursuant to the provisions of Sec. 124–A (Amortization Deduction) of Internal Revenue Code, 1950, (5) priorities or allocation of mining equipment, and maintenance, repair and operating supplies, and (6) other forms of Government assistance that might arise under the Act. Submit four (4) signed copies of the form and accompanying papers. Name and address should be stamped or typed on each sheet of this form and all accompanying papers. *When a question is inapplicable it should be so stated on the form.* Additional sheets may be attached in answering any questions or in supplying additional information. (IF YOU CANNOT ANSWER A QUESTION, SO STATE.) If a question is answered elsewhere indicate where answered. It is not necessary to answer it again.

GENERAL TECHNICAL DATA

Supply the following information on separate sheets, arranged, numbered, and lettered as indicated:

1. Materials produced:
   (*a*) What are the chief mine, mill, or smelter products?
   (*b*) What are the byproducts, if any?
2. Name(s) and type(s) of mine(s), mill(s), smelter(s), refinery(ies), pit(s), quarry (ies), drilling operation(s). Include old names of property, if any. Show extent of workings, including the following:
   (*a*) Linear feet of shafts.
   (*b*) Linear feet of drifts and crosscuts.
   (*c*) Linear feet of tunnels or adits.
   (*d*) Linear feet of other mine openings (explain briefly).

   Indicate whether mine is flooded or not. Describe any pumping problems. Give size or productive capacity.
3. For each operation listed above supply the following:
   (*a*) Distance and direction from nearest town and shipping point.
   (*b*) Mining district.
   (*c*) Township, Section, Range.
   (*d*) County, State.
4. (*a*) State whether or not property is now in operation, and if in operation, by whom operated.
   (*b*) Are you operating this property as:
   - ☐ Owner.
   - ☐ Lessee.
   - ☐ Contractor.
5. Number of years in production None

   If not in production or operation, estimated date when production will begin 5 months after beginning operations
6. Experience of operators:

   Describe the mining and general business experience of (*a*) the applicant, and (*b*) the person or persons who manage the project.
7. History:
   (*a*) Give a statement, as complete as possible, of previous exploration, development, operation, and production of property, with reasons for suspension of operation.
   (*b*) State briefly the known history and production of adjoining and neighboring properties.
   (*c*) Furnish any available (private) reports that may apply to this application, including results of mine examinations, recommended exploration and development, and metallurgical investigations.

8. Names and addresses of Officers, Directors, or Partners, and in addition thereto, the five largest stockholders if applicant is a corporation.

Name and Address (a)	Official Title (If officer is also director indicate by "D") (b)	Total of Annual Salary, Commissions, Bonuses, Etc., Received From Applicant and Affiliates During Last Fiscal Year (c)	Estimated Net Worth Outside of Interest in Applicant (d)	Number of Shares Held in Applicant Corporation: Common (e)	Number of Shares Held in Applicant Corporation: Preferred (f)	Life Insurance Carried for Benefit of Applicant: Amount (g)	Life Insurance Carried for Benefit of Applicant: Net Cash Surrender Value After Loans (h)
Otto P. Smith	Owner	None	$8000	—	—	None	None
Cripple Creek							
Colorado							
	Total		x x x x x			x x x x x	x x x x x

If more lines are needed continue on separate sheet.

9. Capital Stock Issues: None

For Corporate Applicants

Item	Authorized (a)	Outstanding (b)	Par Value (c)	Number of Shares Outstanding (d)	Dividend Rate Last Paid* (e)
Common stock	$ None	$ None	$ —	—	—
Preferred stock	$ None	$ None	$ —	—	—

*Indicate period covered.

10. Production: None

Item	Kind of Product (a)	1948 Total (b)	1949 Total (c)	1950 Total (d)	Present Average Monthly (e)
1. Quantity of product mined or quarried (Short, long, metric tons; barrels; pounds; etc.)			—		
2. Quantity of product processed (specify unit of measure and type of process)		No Production.			
3. Quantity and grade of product sold or shipped (specify units of measure)					

11. Do you contemplate a change in the present average monthly rate of production? If so, state estimated maximum monthly production and basis of change. —

12. Ore or Mineral Reserves:

(a) Describe the ore or mineral deposit briefly. Accompany the application by any available report on the geology and ore reserves.

(*b*) If deposit is other than placer:

(1) Submit assay plans and/or sections showing location and size of proved (measured) and probable (indicated) ore or mineral reserve.

(2) State the tonnage (indicate type of ton) and grade of each class of ore reserve, as above, and show how computed. Tabulated total ore reserve as follows:

TOTAL ORE OR MINERAL RESERVES

Ore or Mineral Reserve	Estimated Tons (a)	Metal or Mineral Content Per Ton (Grade) (b)	Gross Value Per Ton (c)	Recoverable Unit Value Per Ton (d)	Estimated Cost of Production Per Ton (e)
Measured (proved)	Prospect.				
Indicated (probable)					

(*c*) If placer:

(1) Give estimated total yardage and average marketable mineral content of each deposit.

(2) Submit map showing location of placer deposit and surrounding area, with all test holes or pits. Submit logs of each hole and test pit with depth and average value of each.

(3) Describe gravel, stating whether fine, medium or coarse; loose, tight, cemented, or frozen, and whether it contains stumps or boulders more than 1 foot in diameter; if so, how large, and in what proportion.

(4) Describe bedrock, giving type (granite, sandstone, shale, etc.) and state whether it is hard or soft, smooth, uneven or rough.

(5) Describe overburden, stating whether loose, tight, or cemented; fine or coarse textured; furnish estimate of average thickness and total amount.

(6) Tabulate the reserves using the form outlined above for ore or mineral reserves.

13. Access Roads:

Give road distances to shipping, supply and residence points, stating kind and condition of roads.

14. Water Supply:

State source and quantity of water available for operations and whether sufficient for all seasons of year.

15. Power:

State amount of power used, rate per hour, and source thereof.

16. Labor:

State number and classes (miners, muckers, millmen, etc.) of men employed during a recent representative payroll period.

17. Equipment and Facilities:

Describe present equipment on the property, including buildings. (State condition.) List major pieces of equipment now owned or controlled and in serviceable condition available for this operation.

18. Are there any particular conditions or circumstances affecting your operations that are not described above? If so, explain.

CERTIFICATION

Form ~~[illegible]~~ M 100 Otto P Smith
Cripple Creek Colo

#1- Lead-Zinc.
B- Silver-Gold. Manganese.

2-
a. Est. 300 Feet. (caved) Old (1900-1910) workings.
b " 400.
c. caved - no record
d shallow prospect holes. caved
areal water is expected

3- a. 1½ miles due north of Cripple Creek
b - Cripple Creek Colorado.
c Sec. 1- 15 - R-70 W.
d Teller - Colorado.

4 - a. Not in operation
5 - answered.
Mucker to Shift Boss in Hard Rock
6 - Miner to Manager in Coal.
plus many years prospecting.
~~5 - answered~~
7 - a. all work done on property
was in search of gold.
Some $10.000. being taken from
the upper oxidized zone. (1900.1910)
Galena - Zinc etc came in at
the 130 ft level. El. 9700 ft.
this includes the only other
claim worked in the area. (Not owned)

MF 100 — Otto P. Smith — Cripple Creek, Colo.

7-a-b. Twenty five tons (25) being taken galena ore from two rounds (8 ft) in white fly the late A.E. Carlton then head of the Golden Cycle Corp. while trying to reach oxidized gold bearing ore zone (1929). No price then for lead and zinc. Project abandoned.

— c None except from two very reliable parties who worked in Carlton Tunnel. and then a mine bust.

8-9-10 — answered on Form MF 100.

11 — no production.

12-a. Known ore lies along the left side of a sheared phonolite fly or dike. about 3000 feet long. Breccia lies between the phonolite and the granite at NW. End of zone, where the gold was found. Galena came in at 130 feet no further gold occurrence.

The mineline fly is wedge shaped, the sides being about 2000 ft - the wide end 1800.

12-b-1. assay sheets attached.

Only reports on Geology are Lindgren 1894 - Koschmann and Loughlin 1934?? Koschmann advising in Oct 1949 that he had never been on either Copper or the adjoining Phyllite Mt. (the writer had forwarded the report to the U.S.G.S. Survey at Washington.

MF. 100 Otto F. Smith, Cripple Creek, Colo.

12 b - 2 cannot be answered.

12 - b - c Not applicable.

13 - 1½ miles to highway, road at present will be put in excellent condition by County Commissioners if work started on property.

One would go to Leadville - 100 miles mill or smelter.

14 Creek crosses property, plenty of water at hand nearly at all times.

15 - Cannot be answered.

16 - One miner and myself can easily care for initial development. using scraper and bail rope.

17 - On hand 2 tons 12 and 8 pound rails
2 - serviceable mine cars.
1 - chest.
1 - shack (liveable)

18 - none.

INSTRUCTIONS

Read Mineral Order 5, Regulations Governing Government Aid in Defense Projects, before completing this application. Submit four signed copies of the application to Defense Minerals Administration, Department of the Interior, Washington 25, D. C., or to the nearest field executive officer thereof, with your name and address on each sheet of the application and all accompanying papers. If any question is inapplicable, or if you cannot answer it, so state on the form. Where the space provided for answer is insufficient, answer on a separate sheet, annex it to the application form, and refer to it in space for answer. If the application is approved, you will be presented with an exploration project contract on Form MF-200, for your signature.

THE APPLICANT

*1. Is applicant an individual, partnership, or corporation? Individual

*2. If a partnership, state names and addresses of partners. — — —

*3. If a corporation, state names and addresses of officers, directors, and five largest stockholders. — —

*4. Describe the mining and general business experience of (*a*) the applicant, and (*b*) the person or persons who will manage the project. metal mining - Coal Mining - Prospecting - Canada & U.S.

*5. Are you the owner or the lessee of the property? Owner

6. If owner, state what claims, liens, or encumbrances, if any, are against the property. None

7. If lessee, attach a copy of the lease and state if it is in good standing. — —

NOTE.—It will be necessary to procure and attach to the exploration project contract agreements of claimants, lienors, encumbrances and lessors subordinating their interests in the property to the interest of the Government under the contract.

8. Furnish current financial statement, showing assets and liabilities, and a profit and loss statement. assets $600. liabilities - None

9. How much money is applicant prepared to invest in proposed project? Is it sufficient to pay your part of the cost of the project as detailed in question 23 of this application form, in accordance with the regulations on Government participation (Section 9 of Mineral Order 5)? $3500. yes.

*If you have already answered these questions on MF-100, you are not required to answer the questions for this application.

16—64067-1

THE PROPERTY

10. (*a*) Give a description of the real property that will be in any way involved in the exploration project, including any existing mine or operating property. See attached list.

(*b*) Give the legal description of the exact parcel, plot, or area upon which the exploration is to be conducted.

NOTE.—If both areas are the same, so state. The only obligation to repay the Government is from the net earnings from any commercial discovery made in the area specified in (*b*) above in which the exploration is to be conducted, and the expenditure of funds which may be charged as costs of the project must be limited to that area or to work necessary to perform the exploration in that area.

*11. State the present and former names of the property, if any.

*12. State, in detail, the location of the property with reference to towns, railroads, roads, shipping points, including distances and directions and kinds and conditions of roads.

*13. State source and quantity of water available for operations and its sufficiency at all seasons.
State amount of power to be used, rate per hour or other cost, and source.

*14. Describe any existing useable facilities, equipment, buildings, or structure now on the property that will be devoted to the exploration work.

15. State in detail how the ore could be shipped and how and where milled.

*16. History:

(*a*) Give a statement, as complete as possible, of previous exploration, development, operation, and production of property, with reasons for any past suspensions of operations.

(*b*) State briefly the known history and production of adjoining and neighboring properties.

(*c*) Furnish any available (private) reports that may apply to this application, including results of mine examinations, recommended exploration and development, and metallurgical investigations.

*17. Production:

(*a*) If mine is in production, furnish the following information:

	Tons per day	*Grade or analysis*	*Cost per ton*	*Net value per ton*
(1) Mining				
(2) Milling				
(3) Shipped or sold				

*18. Ore or mineral reserves: (If property is or has been operating.)

(*a*) Describe the ore or mineral deposits briefly.

(*b*) Submit available maps and assay data.

(*c*) Give estimated tonnage and grade of each class of ore reserves.

19. State any conditions or circumstances regarding the property not sufficiently brought out by the foregoing questions.

THE EXPLORATION

20. For what mineral or minerals and for what types of deposits and ores will the exploration be conducted? Lead, Zinc

21. Describe briefly, but concisely, the proposed work and the estimated time required to complete it. [illegible]

NOTE.—The Government will not participate in a project that will require more than 2 years to complete.

22. Furnish statement of the geological basis of the project with particular emphasis on factors leading the operator to expect the finding of commercial ore bodies. This statement should be accompanied by supporting maps such as geological maps, maps of the proposed openings and assay maps, sample lists, and other pertinent data.

THE REQUIREMENTS AND COSTS

23. Tabulate in the form of an itemized statement with a sum for each item the estimated requirements and costs of the project so that the total will give the estimated cost of the project in which the Government will participate, as follows:

(*a*) Labor, by numbers and classes (miners, muckers, millmen, etc.), with wages of each.

(*b*) Supervisors, by numbers and positions, with salaries of each.

(*c*) Cost of necessary repairs to existing facilities, structures, and buildings.

(*d*) Cost of necessary installation or construction of additional facilities, structures, and buildings.

(*e*) Cost of items of equipment, not now owned by the applicant which must be purchased for operations at a cost of $50 or more each.

(*f*) Cost of rental for equipment which the operator proposes to rent.

(*g*) Rental value of items of equipment which the operator now owns and which will be devoted to the work.

(*h*) Cost of materials and supplies, including items of equipment costing less than $50 each.

(*i*) Cost of power, water, utilities, and any other items not provided for above.

24. Furnish a time schedule of the project, stated in terms of months after project is approved, showing progress expected to be accomplished and the money expected to be spent.

CERTIFICATION

The undersigned company, and the official executing this certification on its behalf, hereby certify that the information contained in this form and accompanying papers is correct and complete to the best of their knowledge and belief.

8-9-10 Unanswered.

11 - no production

12-a- Known ore lies along left side of a sheeted phonolite dike or plug, about 2000 ft long. Breccia lies between the Phonolite and the Syenite at N.W. end of zone, where the gold occurred. Sealing Cave in at 130 ft level.

No further gold occurred.

The intrusive plug is wedge shaped the sides being about 2000 ft, the wide end about 1800.

12-b-1- Assay sheets attached.

Only report on Geology are Lindgren 1894 - and Koschmann and Loughlin about 1934. Koschmann admitting in 1949, that he had never been on Copper, or the adjacent Phyllite Mt.

The Writer has presented the report to the U.S.G.S. at Washington

12-b-2. Cannot be answered.

12-b-c. Not applicable.

MF 100 Colo P Smith Cripple Creek Colo.

13 - 1 1/2 miles to highway. Road at present would be just as excellent should by County Commissioners if would started on property. One would go to Gardinville smelter

14 - Creek crosses property. Plenty of water as they work at all times

15 Cannot be answered.

16 - One miner and myself can easily care for initial development using scraper and drag line.

17 On hand 2 tons - 12 and 8 pound rails
2 usable mine cars.

AMERICAN SMELTING & REFINING CO.
COLORADO DEPARTMENT
FIRST NATIONAL BANK BUILDING - DENVER, COLORADO

J. PAUL HARRISON
MANAGER

January 17, 1949.

Mr. Otto Smith
Cripple Creek, Colorado

Dear Sir:

In reply to your letter of January 13, 1949, and with reference to your letter from Mr. Welch dated December 28, 1948 with attached assay report, I am enclosing a copy of our mill schedule No. 66-A which I have used in calculating for you a return on the grade of ore as represented by your sample which gave the following assays.

Gold	Silver	Lead	Zinc
.11	6.1	6.4	8.8

Under this schedule and at present metal prices ore of the grade and character as shown would give you a net return of approximately $30.00 per net dry ton delivered at the Leadville Milling Unit in Leadville.

As suggested in Mr. Welch's letter I will ask you to please forward a 100 pound representative sample to

Mr. R. A. Blake, Supt.
Leadville Milling Unit
American Smelting and Ref. Co.
Leadville, Colo.

upon which suitable mill tests can be performed to determine whether your ore is amenable to our present milling procedure. After these results are obtained I will then advise you if the mill can satisfactorily handle your material and if so, issue a schedule which will apply in the purchase of your tonnage.

In the meantime if I can furnish you any additional information please let me know.

Yours very truly,

Max E. Coats

MAX E. COATS.

Mr. Otto Smith
Cripple Creek
Colorado

Dear Mr. Smith:

We have assayed the sample submitted to this office with your letter of December 15, with the results shown on the attached report.

Inasmuch as you undoubtedly will need the zinc payment in order to make such ore commercial, I suggest that the ore be handled through our mill at Leadville, Colorado. If you have not already sent samples to our Leadville Mill, I suggest you do so, at the same time sending a letter of instructions to Mr. Paul J. Harrison, Manager, American Smelting and Refining Company, 607 First National Bank Building, Denver, Colorado.

So that Mr. Harrison will be acquainted with the situation, I am sending a copy of this letter to him, together with a copy of the assay report.

Yours truly,

Reed F. Welch

AMERICAN SMELTING AND REFINING COMPANY
Leadville Milling Unit

Schedule No. 66-A

All schedules on ore not under contract for a definite period of time are subject to change or termination without notice.

Quotations for Lead-zinc Milling ore Date January 1, 1948

Name "Open Schedule" Effective As authorized for specific shippers

Shipping Point _____

PAYMENTS

GOLD: If 0.03 Troy oz. per dry ton or over, pay for 70 % at $19.00 per Troy oz. plus 90% of the amount by which the "Realized price" exceeds the former Mint price of $20.67+ per oz. (At the present realized price of $34.9125 per oz., this is equivalent to paying for 70 % at $31.81825 per oz.)

SILVER: If 1.0 Troy oz. per dry ton or over, pay for 70 % at the realized Mint price ($0.90 per oz. at present), provided silver qualifies for Government purchase and affidavit is furnished, or, if Seller so elects in advance, at the Handy and Harman New York quotation for silver. Minimum deduction 1.0 Troy oz. per ton.

LEAD: If the sulphide lead assay is 1.5 % or over, deduct from the sulphide lead assay 0.5 and pay for 75 % of the remainder at the A. S. & R. Co. New York quotation for common desilverized domestic lead less 2.45 cents per pound. No payment will be made for non-sulphide lead, or sulphide lead less than 1.5 % assay.

ZINC: If the sulphide zinc assay is 3.0 % or over, deduct 1.5 from the sulphide zinc assay and pay for 50 % of the remainder at the E.&M.J. East St. Louis quotation for Prime Western zinc less 2.75 cents per pound.

No payment will be made for any metal or content except as above specified.

QUOTATIONAL PERIOD: For the purpose of determining metal payments, each quotation specified for Silver, Lead and Zinc shall be the average of the daily published quotations for the calendar week including the date of delivery at Buyer's Mill.

DEDUCTIONS

BASE CHARGE: $ 3.70 per net dry ton of 2000 pounds.

SMALL LOTS: There will be a sampling charge of $10.00 on any lot containing less than forty dry tons.

DELIVERY: F.O.B. bins of Buyer's Mill at Leadville, Colorado.

Attention is called to additional clauses on the back of this sheet.

GENERAL CLAUSES COVERING ALL SCHEDULES

WEIGHING, SAMPLING AND ASSAYING: Weighing and sampling (at which Seller or a representative may be present) as done by Buyer according to standard practice, promptly after receipt of product, will be accepted as final. The absence of Seller or a representative shall be deemed a waiver of the right in each instance. After sampling, the product may be placed in process, commingled, or otherwise disposed of by Buyer. In case of disagreement on assays, an umpire shall be selected in rotation from a list mutually agreed upon, whose assay shall be final if within the limits of the assays of the two parties, and if not, the assay of the party nearer to the umpire shall prevail. Losing party shall pay cost of umpire. In case of Seller's failure to make or submit assay, Buyer's assay shall govern.

DEFINITIONS: A ton is 2000 pounds avoirdupois. As applied to gold and silver, an ounce means a Troy ounce. A unit is 1% of a ton, or 20 pounds. The date of delivery is the date of arrival of the last car or truckload of each lot.

FREIGHT AND HAULING: In order that delivery of the ore to our plant may not be unnecessarily delayed, we make it a general rule that, unless other arrangements have been previously made, the freight and/or hauling charges on shipments to us must either be prepaid or guaranteed by the shipper.

TAXES: Federal or State taxes, if any, in respect to ores or metals purchased hereunder shall be for the account of the shipper, and may be charged as a deduction from the purchase price payable on the schedule.

EXPIRATION: Should ninety days elapse before you make shipment on this schedule, it will be necessary for you to take the matter up with us again for confirmation of the rate, because our conditions of purchase may change from time to time.

FORCE MAJEURE: Cessation of operation of Buyer's Mill caused by act of nature, strike, fire, flood, traffic interruption, delay in transportation, war, insurrection or mob violence, requirement or regulation of Government, financial crisis, failure of ore supply or other operating requirement, or any disabling cause, without regard to the foregoing enumeration, beyond Buyer's control, shall entitle the Buyer to suspend or terminate this schedule.

SUSPENSION OF QUOTATIONS: In the event of a suspension of quotations for any cause, resulting in the absence of quotations for the period specified in the schedule as applicable to any lot of product, the quotations to be used in the case of each such lot will be those which would be applicable if the date of arrival of the material at Buyer's Mill occurred that number of days after the date of actual arrival as shall equal the total number of days during which quotations were suspended; and settlement will be made in respect to any metal or metals so affected as soon as such deferred quotations are available, if settlement shall then be due.
