Re: Docket No. DMA-1873 (Uranium)
Custer and Fremont Counties,
Colorado

Dear Mr. Knobbe:

Reference is made to your letter of December 10, 1951, and our response of December 19, 1951, regarding additional data required by the Defense Minerals Exploration Administration to process your above-docketed application.

Inasmuch as no further information has been submitted by you, we assume that you no longer desire to proceed with the application. We wish to cooperate with you in the matter of allowing ample time, but if the needed data has not been received by May 15, 1952, we will then consider the docket closed.

Sincerely yours,

Ernest Wm. Ellis, Chief

DMA Docket 1873

Dear Mr. Knobbe:

Your application for an exploration project DMA docket 1873, in the sum of $6,500 has been received by the Minor and Rare Metals Branch of the Supply Division.

We regret having to inform you that we are not at present empowered to grant general prospecting loans of the type requested by you. Where you control ground with definite showings of uranium or other metal iferous ores listed on attached copy of form DM-5 as amended, we shall be glad to consider your application for an exploration project thereon.

For your information we enclose copy of press release of May 24, 1951 together with above mentioned form DM-5, suggesting you read them carefully.

Yours very truly,

Weston Bourret

DMA Docket 1873

Dear Mr. Kubbe:

We have your letter of December 10 and advise that the information you have thusfar submitted in support of your application is insufficient to enable us to judge the merits of your request.

Therefore, we enclose five copies each of forms MF-100 and MF-103 and suggest that you fill out four copies of each and return them to us promptly, together with maps, answering all the questions fully and in as much detail as possible, preferably on separate sheets of paper. The extra copies are for your files. We also append a copy of a contract for your information.

Upon receipt of this information, we shall be glad to give further consideration to your application.

Regarding ground you may stake in the future, provided there exists sufficient probability of making a significant discovery, it should be made the subject of a new application.

Sincerely yours,

DISCUSSED
