Mining Lease

MINING LEASE

THIS AGREEMENT, made this 26th day of August, 1966 between Clarence Dubach, Helen Dubach, Cyprienna G. Whelan, John W. Gabelman and Olive T. Gabelman, "Lessors" and the R & G Mining Co., Inc., "Lessee", a Colorado corporation, having its registered office at 1700 Broadway, Denver, Colorado 80202, and duly qualified to do business in the state of Colorado,

W I T N E S S E T H :

WHEREAS, Lessors warrant and covenant to Lessee that they are the locators and owners in possession of certain lode mining claims, as further described in Annex A attached hereto and by this reference made a part hereof (hereinafter referred to as the "claims"); and that assessment work on the mining claims, and each of them, has been performed at the time, and in the manner, and to the extent required by law through and including the assessment year ending at noon on September 1, 1966, and that the mining claims are all in good standing, subsisting, and valid at the date hereof; and

WHEREAS, Lessee wishes to enter upon the claims for the purpose of exploration, development, sampling and mining of such mineral deposits as may be located thereon and thereunder,

NOW, THEREFORE, Lessors and Lessee do hereby agree as follows:

1. Grant by Lessors: Lessors in consideration of the royalties hereinafter stated and performance of the covenants and agreements hereinafter expressed hereby grant, lease,

demise, and let to Lessee, and Lessee's assigns and successors as permitted herein, the herein described claims together with all millsites, water rights, ways, water wells, ditches and flumes used in connection with or appurtenant to said claims, and together with the exclusive right to enter immediately upon and take the sole and exclusive possession and control of the said claims and to:

(a) manage and control the same and the water and water rights appurtenant thereto;

(b) search, prospect, explore for, mine, extract, remove, produce, sell, transport, ship and otherwise exploit and dispose of any and all of the minerals, metals, ores and any other useful or valuable elements therein;

(c) manufacture, separate, reduce, smelt, refine, concentrate, treat, convert, work and produce and store metals, ores and other minerals or valuable substances of all kinds; and to

(d) establish, build, acquire, own, equip, maintain, improve, repair and operate mills, factories, furnaces, converters, smelters, shops, laboratories, offices, buildings, structures and works of all kinds suitable, necessary or convenient to accomplish any of the activities and purposes permitted herein, together with the exclusive right to do any and all things which Lessee shall deem necessary or convenient to accomplish any or all of the foregoing purposes, including, without limitation the right to use the surface and subsurface of the claims in such manner and to such extent as may be necessary or convenient for the accomplishment of said purposes.

2. Term of Lease: The term of the lease hereby granted shall commence upon the execution of this Agreement by the parties hereto and shall end, unless sooner terminated or cancelled under the provisions hereof, on June 15, 1996. Provided, however, that in the event Lessee is not in default hereunder, Lessee (or any permitted successor to Lessee) may, at its sole option, by giving notice of election to renew the lease to the Lessors at least ninety (90) days before the end of the term, renew the term upon any termination for a specified additional period of years up to fifty (50) years from the date of termination of the then subsisting term upon the same terms and conditions set forth herein.

3. Obligations of Lessors: Lessors agree to perform such acts as may be required by Federal, State or local law in connection with the maintenance and protection of the claims (except as to such acts specifically undertaken by Lessee in this Agreement). Lessors agree, if they fail to perform such acts, that Lessee or any of its officers, employees, agents, attorneys or any permitted successor of Lessee or its officers, employees, agents, or attorneys may make and record on Lessor's behalf affidavits of annual labor or improvements at such time and place as is or may be provided by state law. Lessors agree to defend their title to the claims against any adverse assertion or claim and against any contest instituted by or on behalf of the United States or any of its agencies. Lessors further agree that they will not assign, mortgage, pledge or otherwise encumber their interests in the claims without the prior written consent of Lessee.

4. Obligations of Lessee: Lessee agrees to:

(a) maintain Lessors' claim markers on the claims in conformance with Section 92-22-7 of the Colorado Revised Statutes of 1963, and as may be amended;

(b) perform or cause to be performed drilling or physical ground development on the claims in at least the aggregate annual expenditure of $18,000 during each "Assessment Year". For the purposes of this Agreement the term "Assessment Year" shall mean the period from noon September 1st to noon of the next succeeding September 1st except that the first Assessment Year shall be the period from the date of this Agreement to noon September 1, 1967; and

(c) perform, at its own expense, such annual labor and assessment work as may be required by the laws of the United States and the State of Colorado with respect to the claims, beginning with that required for the period commencing at noon September 1, 1966, and to give Lessors notice of the performance thereof at least ninety (90) days prior to the expiration of the Assessment Year for which such work was required to be done.

5. Royalties and Payments: In consideration of the foregoing, Lessors reserve and Lessee shall pay to Lessors, as royalty, ten per cent (10%) of the Net Value of all mineral products, whether metallic or non-metallic, derived from the leased premises, and determined when such mineral products are sold, transferred or conveyed to a purchaser, user or consumer other than Lessee. As used herein, the term "Net Value" means the gross returns realized by and paid or credited to Lessee

from sales of such mineral products to a mill, smelter, or other purchaser, user or consumer other than Lessee, less direct mining costs and actual costs of transportation (including freight, insurance, taxes, handling, port, demurrage, delay and forwarding expenses incurred by reason of such transportation) of such mineral products from the leased premises to the mill, smelter, or other purchaser, user or consumer, if such costs are paid by Lessee. Gross production, severance and other taxes payable by Lessee shall also be deducted therefrom to the extent attributable to the Lessors' royalty interest, unless such taxes have been theretofore paid by Lessors and will not be required to be paid by Lessee.

Lessee shall have the right to beneficiate, mill, sort, concentrate and otherwise process the mineral products derived from the leased premises, not necessarily on the leased premises, prior to sale, transfer or conveyance to a purchaser, user or consumer other than Lessee, without liability for mineral values lost in such processing under sound engineering practices, and shall have the right to store low-grade ores on the leased premises for such processing and sale at any later time during the term and existence of this lease. In the event mineral products are derived from the leased premises and used or consumed by or on behalf of Lessee, or disposed of by Lessee for use or consumption other than by arms-length sale, the royalty thereon shall be calculated on the basis of the fair market value of such mineral products, in the form as used or consumed, in the manner above provided for the determination of Net Value. The term "fair market value" as used herein shall mean the total market value of all constituents of such mineral products paid

for or required for the use or consumption made of the products at the price quotations for the month of such sale, use or consumption published in the Engineering and Mining Journal for the nearest market to the location of the leased premises.

For the purposes of this paragraph 5, the term "direct mining costs" means the Lessee's expense of labor and the cost to Lessee of materials used or consumed in the actual extraction-of-ore operations and the development workings necessary to such operations. Lessee may commingle ore, minerals or mineral products, including concentrates (all of which are in this subparagraph hereafter referred to as "ores and minerals"), produced from the leased premises, with ores and minerals from other properties owned, leased or operated by Lessee, after sorting, but before beneficiation, milling, concentrating or otherwise processing the same, and such ores and minerals (whether or not commingled) may be further commingled with ores and minerals from other mines or other properties, whether or not owned, leased or operated by Lessee, in a beneficiation, processing or concentrating plant or mill operated by or on behalf of Lessee, before sale, transfer or conveyance to a smelter, user, purchaser, or consumer thereof. Production and sale of mineral products derived from or attributable to the leased premises from ores and minerals so commingled, and the calculation of the royalty due in respect thereof, shall be determined by Lessee in accordance with sound engineering and accounting principles.

In the event Lessee has net income from the leased premises, as determined for Federal income tax purposes, in the absence of sale or delivery of mineral products as hereinabove provided, Lessee shall pay to the Lessors one-tenth of any such

net income as so determined, or, in the alternative, one-tenth of the payments received by Lessee under a sublease or subleases as described in paragraph 9 hereof.

Lessee, upon request of Lessors, shall make available to Lessors the books and records of Lessee as the same relate to the performance by Lessee under this Agreement or in respect of the computation of the royalty due Lessors. In addition, Lessee shall provide Lessors, at the time of payment of the royalty, with a written statement summarizing the pertinent data on which the royalty is determined. Unless Lessors shall object within thirty (30) days from the mailing of the royalty and said statement, Lessee shall not be liable to Lessors in any manner in respect of the royalty for the Assessment Year in question except by reason of Lessee's fraud or willful misconduct.

Any royalties payable to the Lessors under this Agreement shall be payable annually by check drawn by the Lessee not later than ninety (90) days after the close of the Assessment Year. Such check shall be drawn to the order of John W. Gabelman and shall be mailed to the Lessors at the address specified in Paragraph 10 hereof. JWG J.L.G. C.N.W. C.T.G. C.D.

6. Termination of Agreement: This Agreement may be terminated, at the option of Lessors, upon the default by Lessee to perform its obligations set forth in Paragraphs 3, 4 and 5 hereof by giving notice to Lessee of their election to forfeit the lease, and by specifying in such notice the matters in which Lessee is in default; provided, however, that such forfeiture shall be inoperative if within fifteen (15) days of the effective date of such notice, Lessee remedies the matters of default specified by Lessors.

Lessee may cancel this Agreement as of the end of any Assessment Year by delivery to Lessors of a written notice to that effect within at least sixty (60) days before the close of the Assessment Year, provided that the Lessee may not cancel this Agreement within ninety (90) days of the end of the Assessment Year unless sufficient annual assessment work has been performed on the property covered by this lease to protect the Lessor's rights to such property.

7. Lessor's Liability: Lessors shall not be liable for any expenses or liabilities incurred by Lessee which may arise from the use of the claims by Lessee or any permitted sublessee.

The Lessee agrees that, in the event there is a termination, surrender or forfeiture of this Agreement, it will record or cause to be recorded the fact of such termination, surrender or forfeiture in the office of the appropriate county recorder.

8. Lessee's Liability: Lessee assumes full responsibility in case of accident to Lessee's agents or any person employed on the leased premises, and agrees to hold Lessors harmless from any suits for injury or accident arising out of employment. Lessee shall apply for and maintain at all times workmen's compensation insurance pursuant to the laws of the State of Colorado, and shall comply in all respects with any state or federal laws pertaining to employment of persons in mining operations.

9. Sublease: Lessee shall not assign or otherwise encumber its interest in the claims except with respect to workmen's, materialmen's and tax liens incurred by reason of this Agreement and/or the operation of the property subject thereto,

provided, however, with the prior written consent of the Lessors (which consent shall not be unreasonably withheld), Lessee may assign or otherwise encumber its interest or enter into a sublease for the purpose of performing any or all of the activities specified in Paragraph 1 hereof, provided, however:

(a) any sublease may be for an initial payment but shall in any case provide for a production royalty of a stated percentage, except that a minimum royalty may be required;

(b) any sublease shall be automatically terminated upon the cancellation or termination of this Agreement pursuant to Paragraph 6 hereof unless the sublease provides to the contrary with the express written consent of Lessors; and

(c) upon termination or cancellation of this Agreement, Lessee will assign all and any of its interests in the sublease to Lessors.

(d) Lessors shall have the right to withhold consent to subleases proposed in addition to the first sublease executed pursuant to this Paragraph 9 if the royalties provided in Paragraph 5 hereof would thereby be diluted.

10. Notice: Any notice, payment or delivery to any party hereto pursuant to this Agreement shall be in writing and delivered in person or by registered mail as follows:

(a) To Lessors: c/o John W. Gabelman
613 Crocus Drive
Rockville, Maryland 20850

(b) To Lessee: R & G Mining Co., Inc.
1700 Broadway
Denver, Colorado 80202

The above described addresses may be changed by any party upon notice to the other party.

11. Miscellaneous: The failure of any party hereto to insist upon a strict performance of any of the terms, conditions and covenants herein, shall not be deemed a waiver of any rights or remedies that such party may have, and shall not be deemed a waiver of any subsequent breach or default in the terms, conditions and covenants herein contained. This Agreement may not be changed, modified or discharged orally.

Notwithstanding termination, cancellation, surrender or forfeiture of this Agreement, Lessee shall be permitted for a period of six (6) months thereafter without hindrance or additional payment by Lessee to Lessors, to remove any structures, machinery, equipment, fixtures, improvements or other property of any nature whatsoever which Lessee may have brought onto or installed upon the claims, other than installed mine timbers and trackage. If Lessee should be hampered by any conditions beyond its reasonable control from completing the removal of said structures, machinery, equipment, fixtures, improvements or other property within the time specified, the time for removal shall be extended for a reasonable period upon the request of Lessee.

This Agreement shall be governed by the laws of the State of Colorado.

The paragraph headings are inserted only as a matter of convenience and in no way define the scope of this Agreement or the intent of any provision thereof.

It is mutually understood and agreed that the covenants and agreements contained in this Agreement shall inure to the benefit of and be binding upon the parties hereto and upon their respective successors, heirs, assigns, executors and administrators.

This Agreement shall be executed in form suitable for recording and may be recorded by any party hereto.
