Re: Docket No. DMEA-3601 - Beryl
Price Minerals, Inc.
Waugh Property
Troup County, Georgia

Gentlemen:

Your application for aid for an exploration project and other data available to us in Washington relating to the above-named property have been reviewed.

Projects approved by the Defense Minerals Exploration Administration must, in its judgment, show definite promise of yielding materials of acceptable grade in quantities that will significantly improve the mineral supply position for the National Defense Program.

Careful study of all our information indicates to us that the probability of disclosing significant reserves of beryl by your proposed program is not sufficiently promising to justify Government participation. We regret to advise you, under these circumstances, that your application for exploration assistance is denied.

We wish to thank you for your interest in the Defense Minerals Program and for bringing your property to our attention.

Sincerely yours,

Frank E. Johnson

February 17, 1955

Memorandum

To: Administrator

From: Nonmetallic Minerals Division

Subject: A denial of exploration assistance and summary report

By: James Hopkins

1. Docket No. DMEA-3601 - Beryl
Property: Waugh Property
Troup County, Georgia

Applicant: Price Minerals, Inc.
P. O. Box 455
LaGrange, Georgia

Application: Typed MF-103 dated December 6, 1954.
Work Proposed:

Trenching (no stated amount) by bulldozer
12 weeks (estimated) $10,646.74
The applicant stated he would bulldoze two trenches across the pegmatite. Size of trenches are not given.

Labor and supervision	$ 5,400.00
Operating material & supplies	540.86
Operating equipment	3,438.00
Rehabilitation & repair	300.00
Miscellaneous	967.88
	$10,646.74

No contract: Application denied.

2. Comments:

A medium fine grained, unzoned pegmatite 8 feet wide extending over a strike length of 100 feet was found by pits trenches and auger holes. It is composed of perthite, scattered smoky quartz, green mica, scattered beryl crystals and red garnet. The beryl is sparse and and in very small sizes. The pegmatite is found cross-cutting hornblende gneiss.

An estimated 100 pounds of beryl was recovered from a pit 15' X 15' and 10 feet deep. At a locality 300 feet distant from the pegmatite a few beryl crystals have been obtained from an accumulation of float quartz.

The examining team recommend denial of the application because the possibility for the discovery of a worthwhile beryl or mica deposit is very remote.

The Nonmetallic Minerals Division concur in the denial. The commodity divisions of the Geological Survey and the Bureau of Mines also concur in the denial.

Re: DMEA-3601
Price Minerals, Inc.
(Waugh Property)
Troup Co., Georgia
$10,647 - Beryl

Memorandum

To: L. G. Houk, Defense Minerals Exploration Administration

From: E. L. Newcomb, U. S. Geological Survey

Subject: Review of Field Examination Report

The Field Team has recommended this application be denied.

Prospecting by the applicant has indicated the presence of a pegmatite over a strike length of at least 100 feet. Although the pegmatite is 8 feet thick, it is unzoned and contains only sparse amounts of scattered, small beryl crystals. The character of the deposit does not indicate that a significant discovery can reasonably be expected by DMEA exploration on this property.

I concur with the Field Team's conclusions, and recommend this application be denied.

FIELD EXAMINATION REPORT
On
WAUGH PROPERTY (beryl)
DMFA-3601

Applicant: Price Minerals, P.O. Box 455, LaGrange, Georgia

Beryl has been found at two places on this property, but neither occurrence shows sufficient beryl to justify exploration. The application should be denied.

This deposit was examined on January 13, 1955. Messrs. Will E. Morgan and Thomas E. Braswell accompanied the examiners on the inspection which required two hours.

The Waugh Property is 1 mile airline north of LaGrange, Troup County, Georgia. It is one-half mile east of U. S. Highway No. 27 along the north side of a new soil road. Access is excellent at all times.

Beryl has been found at two localities on this property.

West of stream

Recent prospecting by the applicant by pits, trenches, and auger holes shows the presence of an 8-foot thick pegmatite over a strike length of about 100 feet. It is medium fine grained, unzoned, trends N. 40° E., dips 80° NW crosscutting weathered hornblende gneiss, and is composed of perthite, scattered smoky quartz, green mica, scattered beryl crystals and red garnet. An estimated 100 pounds of beryl was recovered from a pit 15' x 15' and 10 feet deep. The beryl is sparce and in very small sizes. It occurs scattered throughout the pegmatite. The possibility for the discovery of a worthwhile beryl or mica deposit at this place is very poor; therefore, the examiners recommend denial.

East of stream

This locality is about 300 yards northeast of the one described above. A thick accumulation of float quartz is scattered along the hillside. A few small beryl crystals have been obtained from the quartz float. No prospecting has been done here, thus the character of the underlying rock cannot be appraised; however, the distribution of the float suggests that the quartz has resulted from the weathering out of numerous thin quartz pods and veins. Certainly beryl is not sufficiently abundant to justify exploration.

Date of Examination-January 13, 1955.

Gentlemen:

Your application for assistance in exploring the subject property has been reviewed by the Nonmetallic Minerals Division of the Defense Minerals Exploration Administration and has been referred to Mr. Robert A. Laurence, Executive Officer, DMEA Field Team, Region VII, Room 13, Post Office Building, Knoxville 2, Tennessee, for further consideration and possibly a field examination.

The Regional Office will contact you at an early date if an examination is to be made. Any assistance that you may give the members of the field team during the examination will be appreciated.

Sincerely yours,

C. O. Mittendorf (for)

Re: DMEA-3601
Price Minerals, Inc.
(Waugh Property)
Troup Co., Georgia
$10,647 - Beryl

Memorandum

To: L. G. Houk, Defense Minerals Exploration Administration

From: E. L. Newcomb, U. S. Geological Survey

Subject: Review of application

The applicant apparently proposes to trench the property for favorable exposures of beryl-bearing pegmatite.

We do not have any information on this property in our files. Mr. Laurence in his transmittal memorandum states that he does not know of any publication which describes this prospect.

Inasmuch as the applicant's supporting data is inadequate, I do not believe we are justified at the present time to send this application to the Field Team for an on-site examination.

The applicant states that he has stockpiled 100 pounds of beryl and 200 pounds of scrap mica which were produced during one week of recent exploratory work. No evidence of the grade of this material has been submitted.

I recommend that the applicant be requested to submit further appropriate data on the geology of his property, a more complete map, and an assay certificate of representative material from the bedrock of the pegmatite deposit.

December 7, 1954

Memorandum

To: Operating Committee, DMEA - Washington

From: Executive Officer, DMEA - Region VII - Knoxville, Tennessee

Subject: Application, Price Minerals, Inc., P.O. Box 455, LaGrange, Ga. (beryl)

Enclosed are three copies of the subject application, accompanied by four signed copies (each) of Owner's Consent to Lien and Mortgagors' Consent to Lien. The applicant has been asked to supply two more signed copies of each of the Consent to Lien forms. The fourth copy of the application is being kept here for our use.

Also enclosed are three copies of the lease, three copies of a general location map, and three copies of a sketch map of the property. According to the applicant, all the Waugh property between US-27 and Youngs Mill Road, but none west of US-27, is to be included in the application.

The applicant's agent, Mr. Will Morgan of LaGrange, Georgia brought with him a sample of pegmatite containing a single green beryl crystal about 1½ inches in diameter and 5 or 6 inches long, said to have come from the shaft at Knoll # 1. Applicant has spent $640 in the preliminary work at this site.

Although not specifically stated in the application, their proposal is to trench across the pegmatite at both the knolls shown on their map. Equipment listed under item 6d is owned by Price Dredging Corporation, and Price Minerals, Inc., proposes to rent it at the rates listed. Mr. W. T. Price, Jr., of Miami, Florida is president of both corporations. We pointed out that the dragline and the drill rig (which is a 4-inch power auger) would not be useful on an exploration job of this kind.

This deposit is not described in any publication that I know of.

Robert A. Laurence

APPLICATION FOR AID IN AN EXPLORATION PROJECT, PURSUANT TO DMEA ORDER 1, UNDER THE DEFENSE PRODUCTION ACT OF 1950, AS AMENDED.

DMEA-3601
Beryl
$10,647

---

1. Name of applicant. (a) State here your full legal name, in the form in which you will wish to contract, and your mailing address:

~~W. T. Price, Jr., c/o Price Dredging Corp., 3300 S. W. 27th Ave., Miami 33, Florida.~~

(b) If other than an individual, add to your name above whether a corporation, partnership, etc., and the name of the State in which incorporated or otherwise organized.

Price Minerals, Inc., PO Box 455, LaGrange, Georgia.
Corporation, incorporated in Georgia.

(c) If a corporation, add to above statement, titles, names and addresses of officers.

W. T. Price, Jr., President, 3300 SW 27th Ave. Miami, Fla.
Thomas E. Braswell, Vice-Pres., PO Box 455, LaGrange, Ga.
John W. Price, Treasurer, 3300 SW 27th Ave., Miami, Fla.
L. R. Morgan, Secretary, c/o Wyatt & Morgan, Attorneys, LaGrange, Ga.

(d) If a partnership, add to the above statement the names and addresses of all partners.

Not a partnership.

2. General. READ DMEA Order 1, "Government Aid in Defense Exploration Projects," before completing this application. Submit this application and all accompanying papers in quadruplicate (four copies), with your name and address on each sheet of the application and on all accompanying papers. Where sufficient space is not provided on the form for all required information, state it on an accompanying paper, with a reference in each case to the instruction to which it refers by number. Comply with all applicable instructions; or, if not applicable, so state. File the application with Defense Minerals Exploration Administration, Department of the Interior, Washington 25, D. C., or with the nearest field executive officer thereof.

3. Applicant's property rights. (a) State the legal description of the land upon which you wish to explore, including all land which you possess or control that may be benefited by the exploration, and excluding any land or interest in land which is not to be included in the exploration project contract.

All that tract or parcel of land situate, lying and being in Land Lot No. 22, of the 6th Land District of Troup County, Georgia, and being a portion of the east half of Lots Nos. 6 and 7 of the LaGrange National Bank property as recorded in Plat Book 1, page 53, office of the Clerk, Superior Court, Troup County, Georgia, and more particularly described as follows:

Beginning at a point 306 feet west of the northeast corner of the Walter Waugh property on the Youngs Mill Road in Troup County, Georgia, and running thence west to the John Guinn lands; thence south with the John Guinn property to the Meadors-Darden-Ketzky Subdivision; thence east to a new road (which road connects U. S. Highway 27 and the Youngs Mill Road); thence east along the north side of said roadway to Lot #9 of the W. C. Waugh property as shown by a plat recorded in Plat Book 1, page 53, Troup County Records; thence north 500 feet to point of beginning.

3 a continued

Said above described tract containing seventy (70) acres, more or less.

ALSO, all that tract or parcel of land containing 255.04 acres, more or less, located in Land Lots 11, 12, 21 and 22 of the 6th Land District of Troup County, Georgia, on the west side of Youngs Mill Road, more particularly described as Tracts #8, 9, 10, 11, 12 of the LaGrange National Bank lands as shown by plat recorded in the office of the Clerk of Superior Court of Troup County, Georgia, in Plat Book 1, page 53, which is incorporated herein and made a part hereof for a more complete description. Said tract is located in the southwest corner of said Land Lot 11, the southeast corner of Land Lot 12, the eastern side of said Land Lot 21, and the western side of said Land Lot 22, and is a part of the lands conveyed to Ely R. Callaway by the LaGrange National Bank by deed dated November 12, 1927, and recorded in said Clerk's office in Deed Book 27, page 703.

b. State any mine name by which the property is known.

Not named.

c. State your interest in the land, whether owner, lessee, purchaser under contract, or otherwise.

Lessee

d. If you are not the owner, submit with this application a copy of the lease, contract, or other document under which you control the property.

Lease to be submitted.

e. If you own the land, describe any liens or encumbrances on it.

Not owner

f. If the land consists of unpatented claims, add to the description above, the book and page numbers for each recorded location notice.

Privately owned.

4.a Physical description. Describe in detail any mining or exploration operations which have been or now are being conducted upon the land, including existing mine workings and production facilities. State your interest, if any, in such operations. Also describe accessibility of mine workings for examination purposes.

Forty test holes by McCarthy four inch auger drill were bored to refusal. Recovered samples are placed nearby to existing numbered test holes.

Forty-five hours of dozer work in creating access roads, changing course of a small stream, removing quartz outcropping and exposing relatively large pegmatite vein.

A roughly defined shaft approximately four feet by eight feet has been sunk through quartz and feldspar formation to a depth of plus or minus ten feet. Some beryl crystals and small clusters of mica are visibly evident on shaft walls.

On a hillside approximately five hundred feet from the exploratory shaft there is considerable quartz float. A field inspection by Dr. Furcrom (of the State of Georgia, Department of Mines, mining and Geology) and party disclosed several

4-a continued

pieces of quartz float with imbedded beryl crystals; other quartz float was found with medium size beryl patterns.

From time to time over a period of years beryl crystals have been found on surface in vicinity of the exploratory shaft.

The mine workings are easily accessible at all times.

Price Minerals, Inc. is interested in this lease as the Lessee for the recovery of high grade beryl and probability of processing scrap mica.

b. State past and current production, and ore reserves, if any, giving quantities and grades.

Approximately one hundred pounds of high grade, well formed green beryl and approximately two hundred pounds of clear scrap mica were recovered during the recent one week exploratory period.

c. Describe the geologic features of the property, including mineralization, type of deposit (vein, bedded, etc), and your reasons for wishing to explore. Illustrate with maps or sketches. Send with your application (but not necessarily as a part of if) any geologic or engineering report, assay maps, or other technologic information you may have, indicating on each whether you require its return to you.

The proposed working areas are two prominent knolls separated by a small meandering stream flowing in a northerly direction. One possible worksite is centrally located about the aforementioned shaft from which the beryl crystals were recovered. Approximately two hundred and fifty feet of flat land and a stream bed divide the above site from the other knoll which lies in a northeasterly direction from the cited shaft. The first knoll contains an outcropping of milky grey quartz containing trapped green beryl crystals of varing sizes. The quartz is in contact with clusters of mica and adjacent to feldspar of unknown depth and width. In a general southwesterly direction from the quartz outcrop test holes were drilled to refusal. The first three holes were refused close to the cleared surface, the fourth hole penetrated to a depth of thirty-two feet. A sample recovered from fourth hole was mica, kaolin and gramite pellets. The second knoll has an abundance of quartz float, several pieces of this float contain visible beryl crystals while some few of other pieces of quartz float having patterns of dislodged beryl crystals.

d. State the facts with respect to the accessibility of the project; Access roads, distances to shipping, supply and residence points.

An access road passes in front of both proposed work sites. There is a railhead about three miles from project. The City of LaGrange possesses an adequacy of supply houses and residential sections. It is located about four miles away.

e. State the availability of manpower, materials, supplies, equipment, water, and power.

Manpower, materials, supplies, equipment, water and power have been checked. All items are sufficient and available for our needs.

5. The exploration project (a) State the mineral or minerals for which you wish to explore.

High grade beryl.

b. Describe fully the proposed work, including a map or sketch of the property showing a plan (and cross sections if needed)

of any present mine workings, and the location of the proposed exploration work as related to such features as contacts, veins, ore-bearing beds, ect.

See 4-C. Sketch is submitted herewith.

c. The work will start as soon as DMEA Loan is approved and will be completed in sixty working days.

d. State the operating experience and background of the applicant with relation to the ability to carry out such exploration project, and also that of the person or persons who will supervise the operations.

Attached hereto

6. Estimate of costs. Furnish a detailed estimate of the costs of the proposed work (you will have to use a separate sheet), under the following headings. Add the totals under all headings, to give the estimated total cost of the project.

a. Independent contracts. (note - if the applicant does not intend to let any of the work to contractors, write "none."

None

b. Labor, supervision, consultants. -Include an itemized schedule of numbers, classes and rates of wages, salaries or fees for necessary labor, supervision and engineering and geological consultants.

Classification	Per Hour	Total per wk	Total
Supervisor	$3.00	$120.00	
Equipment Operator	1.50	60.00	
Laborers (3)	1.00	120.00	
			$300.00
Consultant, Dr. A. S. Furcrom (Geologist)	Open		150.00
Estimated Exploration Time, 12 Weeks			450.00
			5400.00

c. Operating materials and supplies. Include an itemized list, including items of equipment costing less than $50 each, and power, water and fuel.

Equipment	Item	Pieces	Value	Total	
8 lb.	Sledge	2	$5.50	$11.00

MINING LEASE

THIS INDENTURE made this 12th day of ~~December~~ November, A. D. 1954, by and between W. C. WAUGH, hereinafter referred to as Lessor, and PRICE MINERALS, INC., hereinafter referred to as Lessee, witnesseth:

1.

That the Lessor, for and in consideration of the covenants and agreements hereinafter contained on the part of the Lessee, and one dollar in hand paid to the Lessor by the Lessee, the receipt whereof is hereby acknowledged, doth hereby grant and convey to the said Lessee, its successors and assigns, the right of entering in and upon the lands hereinafter described for the purpose of searching for mineral and fossil substance and of conducting mining, quarrying, exploration, operations and development of any and all deposits of mineral and/or fossils thereon, and to do so to any extent he may deem advisable; this lease to run for the term of twenty (20) years from the date hereof, paying for the site of such buildings or works as may be necessary thereto a reasonable rent which is described below in Paragraph II. The said lands herein leased are situated and described as follows:

> All that tract or parcel of land situate, lying and being in Land Lot No. 22, of the 6th Land District of Troup County, Georgia, and being a portion of the East half of Lots Nos. 6 and 7 of the LaGrange National Bank property as recorded in Plat Book 1, Page 53, office of the Clerk, Superior Court, Troup County, Georgia, and more particularly described as follows:
>
> Beginning at a point 306 feet west of the northeast corner of the Walter Waugh property on the Youngs Mill Road in Troup County, Georgia, and running thence west to the John Guinn lands; thence south with the John Guinn property to the Meadors-Darden-Ketzky Subdivision; thence east to a new road (which road connects U. S. Highway 27 and the Youngs Mill Road); thence east along the North side of said roadway to Lot #9 of the W. C. Waugh property as shown by a plat recorded in Plat Book 1, Page 53, Troup County Records; thence north 500 feet to point of beginning.
>
> Said above described tract containing seventy (70) acres, more or less.
>
> ALSO, all that tract or parcel of land contaning 255.04 acres, more or less, located in Land Lots 11, 12, 21, and 22 of the 6th Land District of Troup County, Georgia, on the west side of Youngs Mill Road, more particularly described as Tracts #8, 9, 10, 11, 12 of the LaGrange National Bank lands as shown by plat recorded in the office of the Clerk of Superior Court of Troup County, Georgia, in Plat Book #1, page 53, which is incorporated herein and made a part hereof for a more complete

description. Said tract is located in the southwest corner of said Land Lot 11, the southeast corner of Land Lot 12, the eastern side of said Land Lot 21, and the western side of said Land Lot 22, and is a part of the lands conveyed to Ely H. Callaway by the LaGrange National Bank by deed dated November 12, 1927, and recorded in said Clerk's office in Deed Book 27, Page 703.

SPECIAL STIPULATIONS:

(a) Lessee agrees to begin exploration and mining operations upon the above described land leased within ten (10) days from this date.

(b) Notwithstanding provisions contained in Paragraph 2 of this lease agreement, lessee agrees to pay Lessor One Thousand (1,000.00) Dollars from the first gross sales realized from the minerals sold from said tract, said One Thousand ($1,000.00) Dollars, however, to be credited to the 10% rent to be received by Lessor as provided in Paragraph II.

(c) Lessee agrees to pay Lessor the sum of One Hundred ($100.00) Dollars per month minimum after the expiration of ninety (90) days from the date of execution of this lease so long as mining operations or processing are continued on said above described tract. However, the One Hundred ($100.00) Dollars per month minimum to be paid by the Lessee under this stipulation is to be credited to Lessee's payment of rent as provided in Item II of this lease.

(d) Should Lessee fail to operate and work said mine or should Lessee fail to process on said tract for a period of six (6) months, then this lease shall become null and void.

(e) It is further provided and agreed by the parties hereto that should Lessee fail to mine or work the properties herein described or fail to process upon said properties for a period of six (6) months, then any and all equipment and machinery remaining on said above described tract at the expiration of six (6) months shall become the property of the Lessor. However, the Lessee shall have the right and privilege to retain said machinery and mining equipment by monthly payments to the Lessor of the minimum rental of One Hundred ($100.00) Dollars above stipulated.

(f) Lessee further agrees to pay Lessor at the rate of Fifty ($50.00) Dollars per acre for any timber lands damaged or destroyed on the above described tract of land and also agrees to restore the land at the completion of the mining operations thereon to the original general contour of said land. However, if it should be determined by the Lessee that the cost of restoring said land to its original contour shall be excessive, said Lessee shall have the right and privilege to pay Lessor at the rate of One Hundred ($100.00) Dollars per acre for any land not restored to its original contour.

(g) Lessee further agrees that any water shed, pond or lake constructed and maintained on said above described tract shall be in accordance with all health regulations and sanitation statues in Troup County in the State of Georgia and shall be constructed and maintained according to good engineering standards.

II

The Lessee hereby covenants that is, its successors and assigns, will pay or cause to be paid, to said Lessor, his heirs or assigns, as consideration for rent under this lease, ten (10) per cent of "the value of the minerals at the processing bins." which is more particularly described as, the monies realized from the sale of the minerals. All costs of placing the minerals at the processing bins to be borne by Lessee. Monthly statements of the previous months and analysis of sales and cost of sales shall be furnished for the Lessor, his heirs or assigns on or before the tenth day of each and every month beginning the tenth day of the first calendar month from date of this lease. Payment of the rent as provided herein shall be made on or before ten days after Lessee receives payment for minerals sold. Lessor or his agent shall have the right to enter the workings at any and all reasonable times and to inspect the records of production.

III

This lease may be assigned by Lessee to any business entity of which he is a party, and shall run to the assigns of Lessee. However, any assignment of this lease shall not relieve Lessee of any and all sub-lessees shall be bound by the terms of this agreement.

IV

Lessee further covenants that no damage shall be done to or upon the said lands and premises, herein leased, other than may be necessary in conducting the said operations as set forth herein.

V.

Lessee has the right to construct roads, store excavation materials from workings and materials incident to operating under this lease upon this pro erty, use water, erect camps, power lines, wells, and other structures for purpose of mining or beneficiation of minerals. The waste material incident to operating under this lease upon this property shall be dumped or left on these pr emises adjacent to the site of these operations at the discretion of Lessee.

VI

The rights of Lessee, its successors and assigns under this lease shall not be impaired by the passing of the Fee of this land or improvements situated thereon.

VII

This lease may be cancelled or terminated as follows:

1. By mutual agreement.

2. By Lessor in event:

(a) Lessee, its successors and assigns, fail to perform the terms and covenants of this lease.

VIII

Any and all liability of Lessee, its successors and assigns, due to the operation by Lessee, its successors or assigns under this lease agreement, shall cease upon the cancellation or termination of this lease as hereinabove provided or upon the abandonment of these premises by Lessee, its successors and assigns, and giving notice of such abandonment to Lessor, his heirs or assigns.

Signed, sealed and delivered in the presence of:

Leck R. Whitley

Mrs Otis Williams

STATEMENT OF QUALIFICATIONS

BRASWELL, THOMAS E.

2921 Bird Avenue
Miami 33, Florida

EDUCATION: Ohio State University - 2 years
Georgia School of Technology - 1 year

Special Schools:

Design and Construction of Flexible and Rigid Pavements for Highways and Airports
U. S. Engineering Department

Soils Engineering
Ohio State Highway Department

Job Relations Training
U. S. Engineering Department

Design and Control of Concrete and Bituminous Mixes
Florida State Highway Department

. . . . . .

PERIOD OF EMPLOYMENT: February 1954 to November 1954

NAME OF EMPLOYER: Commell and Rader Associates (Supervising Engineers)

TITLE OF POSITION: Paving Engineer

SALARY: $6000.00 per annum

DUTIES: Supervised the paving and coordinated measurements for monthly and final payments for same on a $11,000,000.00 sanitary sewer contract for City of Miami, Florida.

PERIOD OF EMPLOYMENT: May 1953 to February 1954

NAME OF EMPLOYER: U. S. Navy

TITLE OF POSITION: Construction Superintendent

SALARY: $6,000.00 per annum

DUTIES: Location; layout; construction tests; reports; estimates; sketches and drawings, in connection with the construction of a Guided Missile Project in the Bahama Islands. The work includes timber framed and reinforced concrete buildings and structures, airport and roadway subgrade and pavement; appurtenances and utilities; landing piers; concrete and steel tanks; reservoirs and influent and effluent ocean pipe lines.

Duties in connection with the above lines require a knowledge of coffer dam and related excavation; pile driving; underwater concrete placement; pipe installation and frequent underwater inspection.

PERIOD OF EMPLOYMENT: July 1952 to May 1953

NAME OF EMPLOYER: Metcalfe-Hamilton-Smith-Beck

TITLE OF POSITION: Project Engineer

SALARY: $9,200.00 per annum

DUTIES: Supervised the activities of twenty-five Engineers and Assistants on a $50,000,000.00 Airport and Harbor Development Program in Keflavik, Iceland. The work included gathering and submitting design data; design; suitability tests of materials; surveys; estimates and reports for the above Project.

PERIOD OF EMPLOYMENT: March 1952 to July 1952

NAME OF EMPLOYER: City of Miami

TITLE OF POSITION: Inspector

SALARY: $5,200.00 per annum

DUTIES: Inspector on a large Storm Drainage Project which involved the building of manholes; laying large diameter pipe and assisting in the construction of a 30,000 g.p.m. pumping station. A requisite on this job was a knowledge of various dewatering processes and underwater construction and inspection.

PERIOD OF EMPLOYMENT: July 1951 to March 1952

NAME OF EMPLOYER: Self-employed

PERIOD OF EMPLOYMENT: January 1950 to July 1951

PERIOD OF EMPLOYMENT: January 1950 to July 1951

NAME OF EMPLOYER: Foley Brothers

TITLE OF POSITION: Field Engineer

SALARY: $7,200.00 per annum

DUTIES: Supervised the layout; excavation; placing reinforcing steel; forming; heavy concrete pours; structural steel erection and installation of complicated machinery on portions of a new Copper Sulphide Plant in Chile, South America. The above included various underground work such as tunnels, tanks, transformer stations and pump houses. In charge of a plant prefabricating concrete houses, barracks and warehouses on a $5,000,000.00 Community Development Program.

PERIOD OF EMPLOYMENT: August 1949 to January 1950

NAME OF EMPLOYER: City of Miami

TITLE OF POSITION: Inspector

SALARY: $5,200.00 per annum

DUTIES: Inspected the construction of a Municipal Swimming Pool, bath house; pump station; roads; parkways; and storm drainage facilities in connection with the building of a large City Park.

PERIOD OF EMPLOYMENT: January 1947 to August 1949

NAME OF EMPLOYER: Atkinson-Drake-Park

TITLE OF POSITION: Assistant Superintendent of Construction and Assistant Chief Engineer.

SALARY: $9,200.00 per annum

DUTIES: In charge of all field engineering and field engineering crews, including the operation of field laboratories that provided engineering control and inspection on large and small airports and a 900 mile grading, drainage and paving project.

PERIOD OF EMPLOYMENT: June 1946 to January 1947

NAME OF EMPLOYER: Florida Highway Department

TITLE OF POSITION: Engineering Inspector

SALARY: $5,200.00 per annum

DUTIES: Required a knowledge of surveying; drafting; field design; allocating work; coordinating movement of supplies; equipment and construction materials. Sampling and testing materials used in embankment movement, construction of large and small structures and paving operations. Performed continuous necessary inspection of all constructional activity until final acceptance of the work.

PERIOD OF EMPLOYMENT: July 1945 to June 1946

NAME OF EMPLOYER: U. S. Engineering Department.

TITLE OF POSITION: Associate Civil Engineer

SALARY: $4,725.00 per annum

DUTIES: Full responsibility for engineering feasibility and soundness of duties in connection with activities performed by the highway; ports; railroad; gardening; concrete and asphalt; transportation; and airport sections. Outlined work; detailed personnel; allocated equipment, materials and supplies and coordinated the activities of the various groups in connection with a continuous maintenance and construction program on a large Army Base in Trinidad, B. W. I.

PERIOD OF EMPLOYMENT: November 1943 to February 1945

NAME OF EMPLOYER: United States Navy

PERIOD OF EMPLOYMENT: August 1942 to November 1943

NAME OF EMPLOYER: U. S. Engineering Department

TITLE OF POSITION: Section Head, Reports & Estimates.

SALARY: $5,200.00 per annum

DUTIES: In charge of preparation of job estimates, costs, reports, charts and graphs for a $15,000,000.00, 500 mile pioneer highway in Central America.

PERIOD OF EMPLOYMENT: August 1941 to August 1942

NAME OF EMPLOYER: U. S. Engineering Department

TITLE OF POSITION: Construction Supervisor

SALARY: $3,800.00 per annum

DUTIES: General Engineer review and design; location and construction features of Airports; Detention Camps; troop shelters; warehouses; water-front construction (Hydraulic Fills) highways and heavy ordnance emplacement. Supervised the construction and performance tests until acceptance was made of completed work.

PERIOD OF EMPLOYMENT: May 1938 to August 1941

NAME OF EMPLOYER: Ohio State Highway Department

TITLE OF POSITION: Project Engineer

SALARY: $2,400.00 per annum

DUTIES: Supervised the construction of sideroad drainage, box culverts and bridges; paving and landscaping operations in connection with highway construction. In charge of field laboratories that ran routine tests on soils, bitumen and concrete.

STATEMENT OF QUALIFICATIONS

PRICE, W. T., JR.
3300 S. W. 27th Ave.
Miami 33, Florida

W. T. Price, Jr. is President of Price Dredging Corp. and President of Price Minerals, a new corporation. Price Dredging has been affiliated with heavy construction in South Florida for the past twenty-five years, specializing in construction of underground utilities; power and pump stations, earth and rock movement and paving operations.

At the present time Price Dredging Corporation and Blythe Brothers of Charlotte, N. C. are completing their contract in the City of Miami, Florida, Sanitary Sewer Program and have started construction on their contract with U. S. Government for rehabilitating a sizeable portion of Homestead Air Base in Florida.

OWNER'S CONSENT TO LIEN

WHEREAS, the undersigned, as owner, co-owner, Lessor, or Seller has an interest in certain property in the State of Georgia, County of Troup, described as follows:

All that tract or parcel of land situate, lying and being in Land Lot No. 22, of the 6th Land District of Troup County, Georgia, and being a portion of the East half of Lots Nos. 6 and 7 of the LaGrange National Bank property as recorded in Plat Book 1, page 53, office of the Clerk, Superior Court, Troup County, Georgia, and more particularly described as follows:

1. Beginning at a point 306 feet west of the northeast corner of the Walter Waugh property on the Youngs Mill Road in Troup County, Georgia, and running thence west to the John Guinn lands; thence south with the John Guinn property to the Meadors-Darden-Ketzky Subdivision; thence east to a new road (which road connects U. S. Highway 27 and the Youngs Mill Road); thence east along the north side of said roadway to Lot #9 of the W. C. Waugh property as shown by a plat recorded in Plat Book 1, page 53, Troup County Records; thence north 500 feet to point of beginning.

Said above described tract containing seventy (70) acres, more or less.

ALSO, all that tract or parcel of land containing 255.04 acres, more or less, located in Land Lots 11, 12, 21 and 22 of the 6th Land District of Troup County, Georgia, on the west side of Youngs Mill Road, more particularly described as Tracts #8, 9, 10, 11, 12 of the LaGrange National Bank lands as shown by plat recorded in the office of the Clerk of Superior Court of Troup County, Georgia, in Plat Book 1, page 53, which is incorporated herein and made a part hereof for a more complete description. Said tract is located in the southwest corner of said Land Lot 11, the southeast corner of Land Lot 12, the eastern side of said Land Lot 21, and the western side of said Land Lot 22, and is a part of the lands conveyed to Ely R. Callaway by the LaGrange National Bank by Deed dated November 12, 1927 and recorded in said Clerk's office in Deed Book 27, page 703,

which is the subject of a proposed exploration project contract, hereinafter called the "contract," between the United States of America, hereinafter called the "Government," and

2. Price Minerals, Inc., LaGrange, Georgia, hereinafter called the "Operator," and

WHEREAS, under the provisions of said contract the Government is entitled to a percentage royalty on production and to other rights and equities which do or may conflict with or be adverse to the rights of the undersigned:

NOW THEREFORE, the undersigned, in consideration of said contract and as an inducement to the Government to enter into the same, undertakes and agrees as follows:

1. The Government's equity in and right to dismantle, sever, take possession of, and remove and dispose of facilities, buildings, fixtures, equipment, or other items as provided in the contract or any amendment thereof shall prevail over and be prior and superior to any conflicting or adverse rights of the undersigned, and the Government is authorized to enter upon the land for such purposes.

2. To secure the payment to the Government of the percentage royalty on production provided for under the terms of said exploration

project contract or any amendment thereof there is hereby granted to the Government a lien ~~upon the land above referred to and~~ upon any production of minerals therefrom until said royalty is fully paid or ten years have elapsed from the date of the contract, whichever occurs first.

---

1. Either (a) insert the legal description of the land, or (b) strike out the words "as follows" and insert "in a lease (or contract, deed, or other document) dated 11/12/54, and recorded in Book 98 page 224 official records of said county." If (b) is used, the book and page of recordation cannot be dispensed with. If the space provided is insufficient, use an Annex, and refer to the Annex in the space.

2. Insert the name of the Operator as it will appear in the exploration project contract.

3. Mining or production from the land is not required, and in the absence of production there is no obligation to repay the Government.

3. The undersigned shall commit no act nor assert any claim that may contravene or conflict with the lien, claim, or rights of the Government under the provisions of said contract. This agreement shall be binding upon the heirs, executors, administrators, successors, and assigns of the undersigned.

NOW THEREFORE, the undersigned, in consideration of said contract and as an inducement to the Government to enter into the same, undertakes and agrees as follows:

1. The Government's equity in and right to dismantle, sever, take possession of, and remove and dispose of facilities, buildings, fixtures, equipment, or other items as provided in the contract or any amendment thereof shall prevail over and be prior and superior to any conflicting or adverse rights of the undersigned, and the Government is authorized to enter upon the land for such purposes.

2. To secure the payment to the Government of the percentage royalty on production provided for under the terms of said exploration

project contract or any amendment thereof there is hereby granted to the Government a lien ~~upon the land above referred to and~~ upon any production of minerals therefrom until said royalty is fully paid or ten years have elapsed from the date of the contract, whichever occurs first.

---

1. Either (a) insert the legal description of the land, or (b) strike out the words "as follows" and insert "in a lease (or contract, deed, or other document) dated _____, and recorded in Book _____ page _____ official records of said county." If (b) is used, the book and page of recordation cannot be dispensed with. If the space provided is insufficient, use an Annex, and refer to the Annex in the space.

2. Insert the name of the Operator as it will appear in the exploration project contract.

3. Mining or production from the land is not required, and in the absence of production there is no obligation to repay the Government.

3. The undersigned shall commit no act nor assert any claim that may contravene or conflict with the lien, claim, or rights of the Government under the provisions of said contract. This agreement shall be binding upon the heirs, executors, administrators, successors, and assigns of the undersigned.

OWNER'S CONSENT TO LIEN

WHEREAS, the undersigned, as owner, co-owner, Lessor, or Seller has an interest in certain property in the State of Georgia, County of Troup, described as follows:

All that tract or parcel of land situate, lying and being in Land Lot No. 22, of the 6th Land District of Troup County, Georgia, and being a portion of the East half of Lots Nos. 6 and 7 of the LaGrange National Bank property as recorded in Plat Book 1, page 53, office of the Clerk, Superior Court, Troup County, Georgia, and more particularly described as follows:

1. Beginning at a point 306 feet west of the northeast corner of the Walter Vaugh property on the Youngs Mill Road in Troup County, Georgia, and running thence west to the John Guinn lands; thence south with the John Guinn property to the Meadors-Darden-Ketzky Subdivision; thence east to a new road (which road connects U. S. Highway 27 and the Youngs Mill Road); thence east along the north side of said roadway to Lot #9 of the W. C. Vaugh property as shown by a plat recorded in Plat Book 1, page 53, Troup County Records; thence north 500 feet to point of beginning.

Said above described tract containing seventy (70) acres, more or less.

ALSO, all that tract or parcel of land containing 255.04 acres, more or less, located in Land Lots 11, 12, 21 and 22 of the 6th Land District of Troup County, Georgia, on the west side of Youngs Mill Road, more particularly described as Tracts #8, 9, 10, 11, 12 of the LaGrange National Bank lands as shown by plat recorded in the office of the Clerk of Superior Court of Troup County, Georgia, in Plat Book 1, page 53, which is incorporated herein and made a part hereof for a more complete description. Said tract is located in the southwest corner of said Land Lot 11, the southeast corner of Land Lot 12, the eastern side of said Land Lot 21, and the western side of said Land Lot 22, and is a part of the lands conveyed to Ely R. Callaway by the LaGrange National Bank by Deed dated November 12, 1927 and recorded in said Clerk's office in Deed Book 27, page 703,

which is the subject of a proposed exploration project contract, hereinafter called the "contract," between the United States of America, hereinafter called the "Government," and

2. Price Minerals, Inc., LaGrange, Georgia, hereinafter called the "Operator," and

WHEREAS, under the provisions of said contract the Government is entitled to a percentage royalty on production and to other rights and equities which do or may conflict with or be adverse to the rights of the undersigned:

NOW THEREFORE, the undersigned, in consideration of said contract and as an inducement to the Government to enter into the same, undertakes and agrees as follows:

1. The Government's equity in and right to dismantle, sever, take possession of, and remove and dispose of facilities, buildings, fixtures, equipment, or other items as provided in the contract or any amendment thereof shall prevail over and be prior and superior to any conflicting or adverse rights of the undersigned, and the Government is authorized to enter upon the land for such purposes.

2. To secure the payment to the Government of the percentage royalty on production provided for under the terms of said exploration

project contract or any amendment thereof there is hereby granted to the Government a lien ~~upon the land above referred to and~~ upon any production of minerals therefrom until said royalty is fully paid or ten years have elapsed from the date of the contract, whichever occurs first.

---

1. Either (a) insert the legal description of the land, or (b) strike out the words "as follows" and insert "in a lease (or contract, deed, or other document) dated _____, and recorded in Book _____ page _____ official records of said county." If (b) is used, the book and page of recordation cannot be dispensed with. If the space provided is insufficient, use an Annex, and refer to the Annex in the space.

2. Insert the name of the Operator as it will appear in the exploration project contract.

3. Mining or production from the land is not required, and in the absence of production there is no obligation to repay the Government.

3. The undersigned shall commit no act nor assert any claim that may contravene or conflict with the lien, claim, or rights of the Government under the provisions of said contract. This agreement shall be binding upon the heirs, executors, administrators, successors, and assigns of the undersigned.

Mortgagor's Consent to Lien

WHEREAS, the undersigned, as owner, co-owner, lessor, or seller has an interest in certain property in the State of Georgia, County of Troup, described as follows:

1/ All that tract or parcel of land containing 255.04 Acres, more or less, located in Land Lots 11, 12, 21, and 22 of the 6th Land District of Troup County Georgia on the West side of Youngs Mill Road, more particularly described as tracts #8, 9, 10, 11, 12, of the La Grange National Bank lands as shown by plat recorded in the office of the clerk of Superior Court of Troup County Georgia in plat Book #1 Page 53, which is incorporated herein and made a part hereof for a more complete description. Said tract is located in the southwest Corner of said Land Lot 11, the southeast corner of Land Lot 12, the eastern side of land lot 21, and the western side of said Land Lot 22, and is a part of the lands conveyed to Ely R. Callaway by the La Grange National Bank by deed dated November 12, 1927 and recorded in said Clerks office in deed book 27, Page 703, which is the subject of a proposed exploration project contract, hereinafter called the "contract", between the United States of America, hereinafter called the"Government, and

2/ Price Minerals, Incorporated, LaGrange, Georgia hereinafter called the "Operator"; and

WHEREAS, under the provisions of said contract the Government is entitled to a percentage royalty on production and to other rights and equitieswhich do or may conflict with or be adverse to the rights of the undersigned:

NOW THEREFORE, the undersigned, in consideration of said contract and as an inducement to the Government to enter into same, undertakes and agrees as follows:

1. The Government's equity in and right to dismantle, sever, take possession of, and remove and dispose of facilities, buildings, fixtures, equipment, or other items as provided in the contract or any amendment thereof shall prewail over and be prior and superior to any conflicting or adverse rights of the undersigned, and the Government is authorized to enter upon the land for such purposes.

2. To secure the payment to the Government of the percentage royalty on production, 3/ provided for under the terms of said exploration project contract or any amendment thereof there is hereby granted to the Government a lien upon any production of minerals therefrom until said royalty is fully paid or ten years have elapsed from the date of the contract, whichever occurs first.

---

1. Either (a) insert the legal description of the land, or (b) strike out the words "as follows" and insert"in a lease (or contract, deed, or other document) dated 11-12-54, and recorded in book 98 page 224 official records of said county". If (b) is used, the book and page of recordation cannot be dispensed with. If the space provided is insufficient, use an Annex, and refer to the Annex in the space.
2. Insert the name of the Operator as it will appear in the exploration project contract.
3. Mining or production from the land is not required, and in the absence of production there is no obligation to repay the Government.

3. The undersigned shall commit no act nor assert any claim that may contravene or conflict with the lien, claim, or rights of the Government under the provisions of said contract. This agreement shall be binding under the heirs, executors, administrators, successors, and assigns of the undersigned, except that the undersigned shall not be precluded from exercising his rights and privileges as set out in his note and deed to secure debt given by W. C. Waugh to Ely R. Callaway on the ---1---day of -Oct--, 19~~4~~8- and recorded in deed book -72- page-328, in the office of the clerk of the superior Court of Troup County Georgia.

DEC 9 1954

UNITED STATES DEPARTMENT OF THE INTERIOR
DEFENSE MINERALS EXPLORATION ADMINISTRATION

APPLICATION FOR AID IN AN EXPLORATION PROJECT, PURSUANT TO DMEA ORDER 1, UNDER THE DEFENSE PRODUCTION ACT OF 1950, AS AMENDED.

DMEA-3601
Beryl
$10,647

1. Name of applicant. (a) State here your full legal name, in the form in which you will wish to contract, and your mailing address:

~~W. T. Price, Jr., c/o Price Dredging Corp., 3300 S. W. 27th Ave., Miami 33, Florida.~~

(b) If other than an individual, add to your name above whether a corporation, partnership, etc., and the name of the State in which incorporated or otherwise organized.

Price Minerals, Inc., PO Box 455, LaGrange, Georgia.
Corporation, incorporated in Georgia.

(c) If a corporation, add to above statement, titles, names and addresses of officers.

W. T. Price, Jr., President, 3300 SW 27th Ave. Miami, Fla.
Thomas B. Braswell, Vice-Pres., PO Box 455, LaGrange, Ga.
John W. Price, Treasurer, 3300 SW 27th Ave., Miami, Fla.
L. R. Morgan, Secretary, c/o Wyatt & Morgan, Attorneys, LaGrange, Ga.

(d) If a partnership, add to the above statement the names and addresses of all partners.

Not a partnership.

2. General. READ DMEA Order 1, "Government Aid in Defense Exploration Projects," before completing this application. Submit this application and all accompanying papers in quadruplicate (four copies), with your name and address on each sheet of the application and on all accompanying papers. Where sufficient space is not provided on the form for all required information, state it on an accompanying paper, with a reference in each case to the instruction to which it refers by number. Comply with all applicable instructions; or, if not applicable, so state. File the application with Defense Minerals Exploration Administration, Department of the Interior, Washington 25, D. C., or with the nearest field executive officer thereof.

3. Applicant's property rights. (a) State the legal description of the land upon which you wish to explore, including all land which you possess or control that may be benefited by the exploration, and excluding any land or interest in land which is not to be included in the exploration project contract.

All that tract or parcel of land situate, lying and being in Land Lot No. 22, of the 6th Land District of Troup County, Georgia, and being a portion of the east half of Lots Nos. 6 and 7 of the LaGrange National Bank property as recorded in Plat Book 1, page 53, office of the Clerk, Superior Court, Troup County, Georgia, and more particularly described as follows:

Beginning at a point 306 feet west of the northeast corner of the Walter Waugh property on the Youngs Mill Road in Troup County, Georgia, and running thence west to the John Quinn lands; thence south with the John Quinn property to the Meadors-Darden-Ketzky Subdivision; thence east to a new road (which road connects U. S. Highway 27 and the Youngs Mill Road); thence east along the north side of said roadway to Lot 9 of the W. C. Waugh property as shown by a plat recorded in Plat Book 1, page 53, Troup County Records; thence north 500 feet to point of beginning.

3 a continued

Said above described tract containing seventy (70) acres, more or less.

ALSO, all that tract or parcel of land containing 255.04 acres, more or less, located in Land Lots 11, 12, 21 and 22 of the 6th Land District of Troup County, Georgia, on the west side of Youngs Mill Road, more particularly described as Tracts #8, 9, 10, 11, 12 of the LaGrange National Bank lands as shown by plat recorded in the office of the Clerk of Superior Court of Troup County, Georgia, in Plat Book 1, page 53, which is incorporated herein and made a part hereof for a more complete description. Said tract is located in the southwest corner of said Land Lot 11, the southeast corner of Land Lot 12, the eastern side of said Land Lot 21, and the western side of said Land Lot 22, and is a part of the lands conveyed to Ely R. Callaway by the LaGrange National Bank by deed dated November 12, 1927, and recorded in said Clerk's office in Deed Book 27, page 703.

b. State any mine name by which the property is known.

Not named.

c. State your interest in the land, whether owner, lessee, purchaser under contract, or otherwise.

Lessee

d. If you are not the owner, submit with this application a copy of the lease, contract, or other document under which you control the property.

Lease to be submitted.

e. If you own the land, describe any liens or encumbrances on it.

Not owner

f. If the land consists of unpatented claims, add to the description above, the book and page numbers for each recorded location notice.

Privately owned.

4.a Physical description. Describe in detail any mining or exploration operations which have been or now are being conducted upon the land, including existing mine workings and production facilities. State your interest, if any, in such operations. Also describe accessibility of mine workings for examination purposes.

Forty test holes by McCarthy four inch auger drill were bored to refusal. Recovered samples are placed nearby to existing numbered test holes.

Forty-five hours of dozer work in creating access roads, changing course of a small stream, removing quartz outcropping and exposing relatively large pegmatite vein.

A roughly defined shaft approximately four feet by eight feet has been sunk through quartz and feldspar formation to a depth of plus or minus ten feet. Some beryl crystals and small clusters of mica are visibly evident on shaft walls.

On a hillside approximately five hundred feet from the exploratory shaft there is considerable quartz float. A field inspection by Dr. Purcrom (of the State of Georgia, Department of Mines, Mining and Geology) and party disclosed several

4-a continued

pieces of quartz float with imbedded beryl crystals; other quartz float was found with medium size beryl patterns.

From time to time over a period of years beryl crystals have been found on surface in vicinity of the exploratory shaft.

The mine workings are easily accessible at all times.

Price Minerals, Inc. is interested in this lease as the lessee for the recovery of high grade beryl and probability of processing scrap mica.

b. State past and current production, and ore reserves, if any, giving quantities and grades.

Approximately one hundred pounds of high grade, well formed green beryl and approximately two hundred pounds of clear scrap mica were recovered during the recent one week exploratory period.

c. Describe the geologic features of the property, including mineralization, type of deposit (vein, bedded, etc), and your reasons for wishing to explore. Illustrate with maps or sketches. Send with your application (but not necessarily as a part of it) any geologic or engineering report, assay maps, or other technologic information you may have, indicating on each whether you require its return to you.

The proposed working areas are two prominent knolls separated by a small meandering stream flowing in a northerly direction. One possible worksite is centrally located about the aforementioned shaft from which the beryl crystals were recovered. Approximately two hundred and fifty feet of flat land and a stream bed divide the above site from the other knoll which lies in a northeasterly direction from the cited shaft. The first knoll contains an outcropping of milky grey quartz containing trapped green beryl crystals of varing sizes. The quartz is in contact with clusters of mica and adjacent to feldspar of unknown depth and width. In a general southwesterly direction from the quartz outcrop test holes were drilled to refusal. The first three holes were refused close to the cleared surface, the fourth hole penetrated to a depth of thirty-two feet. A sample recovered from fourth hole was mica, kaolin and granite pellets. The second knoll has an abundance of quartz float, several pieces of this float contain visible beryl crystals while some few of other pieces of quartz float having patterns of dislodged beryl crystals.

d. State the facts with respect to the accessibility of the project; access roads, distances to shipping, supply and residence points.

An access road passes in front of both proposed work sites. There is a railhead about three miles from project. The City of LaGrange possesses an adequacy of supply houses and residential sections. It is located about four miles away.

e. State the availability of manpower, materials, supplies, equipment, water, and power.

Manpower, materials, supplies, equipment, water and power have been checked. All items are sufficient and available for our needs.

5. The exploration project (a) State the mineral or minerals for which you wish to explore.

High grade beryl.

b. Describe fully the proposed work, including a map or sketch of the property showing a plan (and cross sections if needed)

of any present mine workings, and the location of the proposed exploration work as related to such features as contacts, veins, ore-bearing beds, ect.

See 4-C. Sketch is submitted herewith.

c. The work will start as soon as DMEA loan is approved and will be completed in sixty working days.

d. State the operating experience and background of the applicant with relation to the ability to carry out such exploration project, and also that of the person or persons who will supervise the operations.

Attached hereto

6. Estimate of costs. Furnish a detailed estimate of the costs of the proposed work (you will have to use a separate sheet), under the following headings. Add the totals under all headings, to give the estimated total cost of the project.

a. Independent contracts. (note - if the applicant does not intend to let any of the work to contractors, write "none."

None

b. Labor, supervision, consultants. -Include an itemized schedule of numbers, classes and rates of wages, salaries or fees for necessary labor, supervision and engineering and geological consultants.

Classification	Per Hour	Total per wk	Total
Supervisor	$3.00	$120.00	
Equipment Operator	1.50	60.00	
Laborers (3)	1.00	120.00	
			$300.00
Consultant, Dr. A. S. Furcrom (Geologist)	Open		150.00
			450.00

Estimated Exploration Time, 12 Weeks 5400.00

c. Operating materials and supplies. Include an itemized list, including items of equipment costing less than $50 each, and power, water and fuel.

Equipment	Item	Pieces	Value	Total	
8 lb.	Sledge	2	$5.50	$11.00	
Mining	Bars	2	9.50	19.00	
Hand	Picks	6	3.50	21.00	
Hand	Shovels	2	2.95	5.90	
Claw	Hammer	2	3.25	6.50	
Hand	Saw	2	6.95	13.90	
Cross Cut	Saw	1	13.95	13.95	
Wheel	Barrow	2	13.95	27.90	
Wood	Axe	2	5.25	10.50	
Lufkin Extension	Rule	2	2.25	4.50	
Hack	Saw	2	1.85	3.70	
Set Open End	Wrenches	1	9.75	9.75	
Set Box	Sockets	1	34.25	34.25	
Log	Chain	1	8.30	8.30	
		Plus 3% State Tax		5.71	195.86
Power		15.00 mo. X 3 mo.			45.00
Water and Fuel		100.00 mo. X 3 mo.			300.00

d. Operating equipment. Furnish an itemized list of any operating equipment to be rented, purchased, or which is owned and will be furnished by the Operator, with the estimated rental, purchase price, or suggested use-allowance based on present value as the case may be.

d. (continued)

Operating Equipment

Description	Per hour	Total hours	
D-8 Dozer	$15.00	160	$2400.00
Compressor	3.00	40	120.00
Drill Rig	5.00	40	200.00
Dragline	10.00	40	400.00
3/4 Ton Pick-up	.09 (mi)	3000 (mi)	270.00
3/4 Centrifugal pump	2.00 (day)	24 (days)	48.00
			3438.00

9378.86

e. Rehabilitation and repairs. Furnish a detailed list showing the cost of any necessary initial rehabilitation or repairs of exhiting buildings, installations, fixtures, and movable operating equipment, now owned by the Operator and which will be devoted to the exploration project.

Estimated - - 300.00

f. New buildings, improvements, installations. Furnish a detailed list showing the cost of any necessary building, fixed improvements, or installations to be purchased, installed or constructed for the benefit of the exploration project.

None

g. Miscellaneous. Furnish a detailed list showing the cost of repairs to and maintenance of operating equipment (not including initial rehabilitation or repairs of the Operator's equipment), analytical work, accounting, workmen's compensation and employers' liability insurance, and payroll taxes.

Estimated 967.88

10646.74

h. Contingencies. Give an estimate of any necessary allowance for contingencies not included in the costs stated above.

None

7 a. Are you prepared to furnish your share of the cost of the proposed project in accordance with the regulations on Government participation (Sec. 7, DMMA No. 1)?

yes

b. How do you propose to furnish your share of the costs?

(x) Money (X) Use of equipment owned by you ( ) Other

(Price Minerals Inc.)

CERTIFICATION

The undersigned, whether as an individual, corporate officer, partner, or otherwise, both in his own behalf and acting for the applicant, certifies that the information set forth in this form and accompanying papers is correct and complete, to the best of his knowledge and belief.

Dated: December 6, 1954

Price Minerals, Inc.
Applicant

By Thomas E. Braswell
Vice President

GEORGIA, TROUP COUNTY

I, Lewis R. Morgan of LaGrange, Troup County, Georgia, do hereby certify that I am Secretary of Price Minerals, Inc. and that W. T. Price, Jr. of Miami, Florida, is President of Price Minerals, Inc. and that Thomas E. Braswell is Vice-President of said Corporation.

I do further certify that the by-laws of the Corporation, Price Minerals, Inc., were duly adopted on the 25th day of September, 1954, and that Thomas E. Braswell, as Vice-President, has authority under the by-laws adopted to sign and execute leases and contracts on behalf of the Corporation, Price Minerals, Inc.

/S/ Lewis R. Morgan

MINING LEASE

THIS INDENTURE made this 12th day of ~~December~~ November, A. D. 1954, by and between W. C. WAUGH, hereinafter referred to as Lessor, and FRIC MINERALS, INC., hereinafter referred to as Lessee, witnesseth:

1.

That the Lessor, for and in consideration of the covenants and agreements hereinafter contained on the part of the Lessee, and one dollar in hand paid to the Lessor by the Lessee, the receipt whereof is hereby acknowledged, doth hereby grant and convey to the said Lessee, its successors and assigns, the right of entering in and upon the lands hereinafter described for the purpose of searching for mineral and fossil substance and of conducting mining, quarrying, exploration, operations and development of any and all deposits of mineral and/or fossils thereon, and to do so to any extent he may deem advisable; this lease to run for the term of twenty (20) years from the date hereof, paying for the site of such buildings or works as may be necessary thereto a reasonable rent which is described below in Paragraph II. The said lands herein leased are situated and described as follows:

> All that tract or parcel of land situate, lying and being in Land Lot No. 22, of the 6th Land District of Troup County, Georgia, and being a portion of the East half of Lots Nos. 6 and 7 of the LaGrange National Bank property as recorded in Plat Book 1, Page 53, office of the Clerk, Superior Court, Troup County, Georgia, and more particularly described as follows:
>
> Beginning at a point 306 feet west of the northeast corner of the Walter Waugh property on the Youngs Mill Road in Troup County, Georgia, and runnin thence west to the John Guinn lands; thence south with the John Guinn property to the Meadors-Darden-Ketsky Subdivision; thence east to a new road (which road connects U. S. Highway 27 and the Youngs Mill Road); thence east along the North side of said roadway to Lot 79 of the W. C. Waugh property as shown by a plat recorded in Plat Book 1, Page 53, Troup County Records; thence north 500 feet to point of beginning.
>
> Said above described tract containing seventy (70) acres, more or less.
>
> ALSO, all that tract or parcel of land containing 255.04 acres, more or less, located in Land Lots 11, 12, 21, and 22 of the 6th Land District of Troup County, Georgia, on the west side of Youngs Mill Road, more particularly described as Tracts 8, 9, 10, 11, 12 of the LaGrange National Bank lands as shown by plat recorded in the office of the Clerk of Superior Court of Troup County, Georgia, in Plat Book 1, page 53, which is incorporated herein and made a part hereof for a more complete

description. Said tract is located in the southwest corner of said Land Lot 11, the southeast corner of Land Lot 12, the eastern side of said Land Lot 21, and the western side of said Land Lot 22, and is a part of the lands conveyed to Ely S. Calloway by the LaGrange National Bank by deed dated November 12, 1927, and recorded in said Clerk's office in Deed Book 27, Page 703.

SPECIAL STIPULATIONS:

(a) Lessee agrees to begin exploration and mining operations upon the above described land leased within ten (10) days from this date.

(b) Notwithstanding provisions contained in Paragraph 2 of this lease agreement, lessee agrees to pay Lessor one Thousand (1,000.00) Dollars from the first gross sales realized from the minerals sold from said tract, said one Thousand ($1,000.00) Dollars, however, to be credited to the 10% rent to be received by Lessor as provided in Paragraph II.

(c) Lessee agrees to pay Lessor the sum of one Hundred ($100.00) Dollars per month minimum after the expiration of ninety (90) days from the date of execution of this lease so long as mining operations or processing are continued on said above described tract. However, the one Hundred ($100.00) Dollars per month minimum to be paid by the Lessee under this stipulation is to be credited to Lessee's payment of rent as provided in Item II of this lease.

(d) Should Lessee fail to operate and work said mine or should Lessee fail to process on said tract for a period of six (6) months, then this lease shall become null and void.

(e) It is further provided and agreed by the parties hereto that should Lessee fail to mine or work the properties herein described or fail to process upon said properties for a period of six (6) months, then any and all equipment and machinery remaining on said above described tract at the expiration of six (6) months shall become the property of the Lessor. However, the Lessee shall have the right and privilege to retain said machinery and mining equipment by monthly payments to the Lessor of the minimum rental of one Hundred ($100.00) Dollars above stipulated.

(f) Lessee further agrees to pay Lessor at the rate of fifty ($50.00) Dollars per acre for any timber lands damaged or destroyed on the above described tract of land and also agrees to restore the land at the completion of the mining operations thereon to the original general contour of said land. However, if it should be determined by the Lessee that the cost of restoring said land to its original contour shall be excessive, said Lessee shall have the right and privilege to pay Lessor at the rate of one Hundred ($100.00) Dollars per acre for any land not restored to its original contour.

(g) Lessee further agrees that any water shed, pond or lake constructed and maintained on said above described tract shall be in accordance with all health regulations and sanitation statues in Troup County in the State of Georgia and shall be constructed and maintained according to good engineering standards.

II

The Lessee hereby covenants that is, its successors and assigns, will pay or cause to be paid, to said Lessor, his heirs or assigns, as consideration for rent under this lease, ten (10) per cent of "the value of the minerals at the processing bins." which is more particularly described as, the monies realized from the sale of the minerals. All costs of placing the minerals at the processing bins to be borne by Lessee. Monthly statements of the previous months and analysis of sales and cost of sales shall be furnished for the Lessor, his heirs or assigns on or before the tenth day of each and every month beginning the tenth day of the first calendar month from date of this lease. Payment of the rent as provided herein shall be made on or before ten days after Lessee receives payment for minerals sold. Lessor or his agent shall have the right to enter the workings at any and all reasonable times and to inspect the records of production.

III

This lease may be assigned by Lessee to any business entity of which he is a party, and shall run to the assigns of Lessee. However, any assignment of this lease shall not relieve Lessee of any and all sub-lessees shall be bound by the terms of this agreement.

IV

Lessee further covenants that no damage shall be done to or upon the said lands and premises, herein leased, other than may be necessary in conducting the said operations as set forth herein.

V.

Lessee has the right to construct roads, store excavation materials from workings and materials incident to operating under this lease upon this property, use water, erect camps, power lines, wells, and other structures for purpose of mining or beneficiation of minerals. The waste material incident to operating under this lease upon this property shall be dumped or left on these premises adjacent to the site of these operations at the discretion of Lessee.

VI

The rights of Lessee, its successors and assigns under this lease shall not be impaired by the passing of the fee of this land or improvements situated thereon.

VII

This lease may be cancelled or terminated as follows:

1. By mutual agreement.
2. By Lessor in event:

(a) Lessee, its successors and assigns, fail to perform the terms and covenants of this lease.

VIII

Any and all liability of Lessee, its successors and assigns, due to the operation by Lessee, its successors or assigns under this lease agreement, shall cease upon the cancellation or termination of this lease as hereinabove provided or upon the abandonment of these premises by Lessee, its successors and assigns, and giving notice of such abandonment to Lessor, his heirs or assigns.

Signed, sealed and delivered in the presence of:

Jack L. Petty

Mrs Otis Williams

STATEMENT OF QUALIFICATIONS

BRASWELL, THOMAS E.

2921 Bird Avenue
Miami 33, Florida

EDUCATION: Ohio State University - 2 years
Georgia School of Technology - 1 year

Special Schools:

Design and Construction of Flexible and Rigid Pavements for Highways and Airports
U. S. Engineering Department

Soils Engineering
Ohio State Highway Department

Job Relations Training
U. S. Engineering Department

Design and Control of Concrete and Bituminous Mixes
Florida State Highway Department

. . . . . .

PERIOD OF EMPLOYMENT: February 1954 to November 1954

NAME OF EMPLOYER: Connell and Rader Associates (Supervising Engineers)

TITLE OF POSITION: Paving Engineer

SALARY: $6000.00 per annum

DUTIES: Supervised the paving and coordinated measurements for monthly and final payments for same on a $11,000,000.00 sanitary sewer contract for City of Miami, Florida.

PERIOD OF EMPLOYMENT: May 1953 to February 1954

NAME OF EMPLOYER: U. S. Navy

TITLE OF POSITION: Construction Superintendent

SALARY: $6,000.00 per annum

DUTIES: Location; layout; construction tests; reports; estimates; sketches and drawings, in connection with the construction of a Guided Missile Project in the Bahama Islands. The work includes timber framed and reinforced concrete buildings and structures, airport and roadway subgrade and pavement; appurtenances and utilities; landing piers; concrete and steel tanks; reservoirs and influent and effluent ocean pipe lines.

Duties in connection with the above lines require a knowledge of coffer dam and related excavation; pile driving; underwater concrete placement; pipe installation and frequent underwater inspection.

PERIOD OF EMPLOYMENT: July 1952 to May 1953

NAME OF EMPLOYER: Metcalfe-Hamilton-Smith-Beck

TITLE OF POSITION: Project Engineer

SALARY: $9,200.00 per annum

DUTIES: Supervised the activities of twenty-five Engineers and Assistants on a $50,000,000.00 Airport and Harbor Development Program in Keflavik, Iceland. The work included gathering and submitting design data; design; suitability tests of materials; surveys; estimates and reports for the above Project.

PERIOD OF EMPLOYMENT: March 1952 to July 1952

NAME OF EMPLOYER: City of Miami

TITLE OF POSITION: Inspector

SALARY: $5,200.00 per annum

DUTIES: Inspector on a large Storm Drainage Project which involved the building of manholes; laying large diameter pipe and assisting in the construction of a 30,000 g.p.m. pumping station. A requisite on this job was a knowledge of various dewatering processes and underwater construction and inspection.

PERIOD OF EMPLOYMENT: July 1951 to March 1952

NAME OF EMPLOYER: Self-employed

PERIOD OF EMPLOYMENT: January 1950 to July 1951

PERIOD OF EMPLOYMENT: January 1950 to July 1951

NAME OF EMPLOYER: Foley Brothers

TITLE OF POSITION: Field Engineer

SALARY: $7,200.00 per annum

DUTIES: Supervised the layout; excavation; placing reinforcing steel; forming; heavy concrete pours; structural steel erection and installation of complicated machinery on portions of a new Copper Sulphide Plant in Chile, South America. The above included various underground work such as tunnels, tanks, transformer stations and pump houses. In charge of a plant prefabricating concrete houses, barracks and warehouses on a $5,000,000.00 Community Development Program.

PERIOD OF EMPLOYMENT: August 1949 to January 1950

NAME OF EMPLOYER: City of Miami

TITLE OF POSITION: Inspector

SALARY: $5,200.00 per annum

DUTIES: Inspected the construction of a Municipal Swimming Pool, bath house; pump station; roads; parkways; and storm drainage facilities in connection with the building of a large City Park.

PERIOD OF EMPLOYMENT: January 1947 to August 1949

NAME OF EMPLOYER: Atkinson-Drake-Park

TITLE OF POSITION: Assistant Superintendent of Construction and Assistant Chief Engineer.

SALARY: $9,200.00 per annum

DUTIES: In charge of all field engineering and field engineering crews, including the operation of field laboratories that provided engineering control and inspection on large and small airports and a 900 mile grading, drainage and paving project.

PERIOD OF EMPLOYMENT:	June 1946 to January 1947
NAME OF EMPLOYER:	Florida Highway Department
TITLE OF POSITION:	Engineering Inspector
SALARY:	$5,200.00 per annum
DUTIES:	Required a knowledge of surveying; drafting; field design; allocating work; coordinating movement of supplies; equipment and construction materials. Sampling and testing materials used in embankment movement, construction of large and small structures and paving operations. Performed continuous necessary inspection of all constructional activity until final acceptance of the work.
PERIOD OF EMPLOYMENT:	July 1945 to June 1946
NAME OF EMPLOYER:	U. S. Engineering Department.
TITLE OF POSITION:	Associate Civil Engineer
SALARY:	$4,725.00 per annum
DUTIES:	Full responsibility for engineering feasibility and soundness of duties in connection with activities performed by the highway; ports; railroad; gardening; concrete and asphalt; transportation; and airport sections. Outlined work; detailed personnel; allocated equipment, materials and supplies and coordinated the activities of the various groups in connection with a continuous maintenance and construction program on a large Army Base in Trinidad, B. W. I.
PERIOD OF EMPLOYMENT:	November 1943 to February 1945
NAME OF EMPLOYER:	United States Navy
PERIOD OF EMPLOYMENT:	August 1942 to November 1943
NAME OF EMPLOYER:	U. S. Engineering Department
TITLE OF POSITION:	Section Head, Reports & Estimates.
SALARY:	$5,200.00 per annum
DUTIES:	In charge of preparation of job estimates, costs, reports, charts and graphs for a $15,000,000.00, 500 mile pioneer highway in Central America.
PERIOD OF EMPLOYMENT:	August 1941 to August 1942
NAME OF EMPLOYER:	U. S. Engineering Department
TITLE OF POSITION:	Construction Supervisor
SALARY:	$3,800.00 per annum
DUTIES:	General Engineer review and design; location and construction features of Airports; Detention Camps; troop shelters; warehouses; water-front construction (Hydraulic Fills) highways and heavy ordnance emplacement. Supervised the construction and performance tests until acceptance was made of completed work.
PERIOD OF EMPLOYMENT:	May 1938 to August 1941
NAME OF EMPLOYER:	Ohio State Highway Department
TITLE OF POSITION:	Project Engineer

SALARY: $2,400.00 per annum

DUTIES: Supervised the construction of sideroad drainage, box culverts and bridges; paving and landscaping operations in connection with highway construction. In charge of field laboratories that ran routine tests on soils, bitumen and concrete.

STATEMENT OF QUALIFICATIONS

PRICE, W. T., JR.
3300 S. W. 27th Ave.
Miami 33, Florida

W. T. Price, Jr. is President of Price Dredging Corp. and President of Price Minerals, a new corporation. Price Dredging has been affiliated with heavy construction in South Florida for the past twenty-five years, specializing in construction of underground utilities; power and pump stations, earth and rock movement and paving operations.

At the present time Price Dredging Corporation and Blythe Brothers of Charlotte, N. C. are completing their contract in the City of Miami, Florida, Sanitary Sewer Program and have started construction on their contract with U. S. Government for rehabilitating a sizeable portion of Homestead Air Base in Florida.
