OFFICIAL DOCKET FILE

Contract No. _____ Docket No. 6628

Application
- [ ] Denied
- [x] Withdrawn

Contract
- [ ] Terminated - Not Certified
- [ ] Terminated - Certified
- [ ] Cancelled
- [ ] Royalty Agreement

The records contained in this file are marked (x) and arranged in this order:

Folder No. 1:

Left Side

- [ ] Royalty Audits
- [ ] Certification of Discovery
- [ ] Closing Letter
- [ ] Cost Audits
- [ ] Termination Notice or Agreement
- [ ] Recision Notice
- [ ] Assignment of Contract
- [ ] Contract Amendments
- [ ] Contract with all exhibits and annexes
- [ ] Owner's Consent to Lien and Subordination Agreement
- [x] Application and Attachments

Right Side

- [ ] Project Summary (final)
- [ ] Work Completed Analysis (final)

All other material filed in chronological order including the following reports if checked:

- [ ] Field Team Semiannual Report for Certified Project
- [ ] Final Field Team Report (Tab)
- [ ] Operator's Final Report (Tab)
- [ ] Interim Field Team Reports
- [ ] Operator's monthly reports and all attachments
- [ ] On-site Exam. Report (Tab)
- [ ] Settlement Sheets
- [ ] Drill Logs

Additional Folders:

Left Side

Folders No. _____: Reports

- [ ] Analysis of Semiannual Inspection Reports
- [ ] Project Summary (Interim) by MME Engineers

Right Side

- [ ] Field Team Semiannual Report for Certified Project
- [ ] Field Team Interim Reports
- [ ] Operator's Monthly Reports with Transmittal, Narrative and Maps

Folders No. _____: Maps (Use pocket folder or envelope)

Folders No. _____: Settlement Sheets

Folders No. _____: Drill Logs

Folders No. _____: Royalty Material

MINERALS CODE

Memorandum

April 24, 1967

To: Chief, Office of Minerals Exploration
Washington, D. C.

From: Field Officer
Region II

Subject: New Application (Silver)
Eugene C. King, Jr.
Red Dirt Claims
San Bernardino County, Calif.

Enclosed is an application for financial assistance received in this office on April 21, 1967.

The application is for silver exploration although the attached assays indicate a higher value in gold than for silver. The applicant did not furnish a map showing the property, geology, location, and extent of the proposed exploration, or the relation of exploration to property boundaries. A program of bulldozing and drilling is proposed but no details are given as to areas involved or number of holes and targets, etc. No bids for bulldozing or drilling are included. Copies of letters to the two banks, requesting loans, are lacking.

H. K. Stager

Enclosure

LOCATION COUNTY: SAN BERNARDINO

STATE: CALIF.

GENERAL INSTRUCTIONS

Before filling out this application, please read the *OME Regulations for Obtaining Federal Assistance in Financing Explorations for Mineral Reserves* (30 CFR Chap. III). To assure prompt action, your application must provide all applicable material and information specified on the back of this application form. Avoid unnecessary correspondence and delays by submitting complete and accurate information. *Please submit two copies of this application and all accompanying papers* except as otherwise noted. Place your name and address on each sheet. Each item of information, maps, and reports required as a part of this application is described on the back of this form. Identify each attached statement by the item number to which it applies. If an item does not apply to your application, show the item number on your statement and after it write "not applicable." Maps or sketches should be used to supplement narrative descriptions of the property location and boundaries in item 2, existing mine workings and geology in item 3, and the proposed exploration work in item 5. When this information is not too complex, all of it may be shown on one map or sketch. All documents and other attachments submitted as a part of this application, except those in item 3(g) which you mark to be returned, become the property of the Government and will not be returned to the applicant. Send true copies, *not originals*, of leases, contracts, and other documents which are an essential part of your business records. *File this application with the Office of Minerals Exploration, Department of the Interior, Washington 25, D. C., or with the nearest OME Field Office.*

CERTIFICATION

The undersigned, whether as an individual, corporate officer, partner, or otherwise, both in his own behalf and acting for the applicant, certifies that the information set forth in this form and accompanying papers is correct and complete, to the best of his knowledge and belief, and that he would not ordinarily undertake the proposed exploration under current conditions and circumstances at his sole expense.

TITLE

A wilfully false statement or certification to any Department or Agency of the United States Government is a criminal offense. U. S. Code, Title 18, Sec. 1001.

INFORMATION REQUIRED WITH THIS APPLICATION

1. Financial Eligibility:

(a) Submit evidence of efforts made within 90 days preceding the filing of this application to obtain credit from your bank of account and at least one other banking institution or other private source of credit. Such evidence shall include true copies of correspondence which show: (1) date of loan request, (2) amount and terms requested, (3) proposed use of loan funds, and (4) the replies from credit sources. If the loan was offered under terms which you consider unreasonable, state why you consider them so.

(b) List names and addresses of affiliated, parent, or controlling companies or organizations and state extent and nature of their interest.

(c) State how you propose to furnish your share of the cost of the exploration work.

2. Applicant's Rights in Land:

(a) State your interest in the land and mineral rights, whether owner, lessee, purchaser under contract, or other. If you are not the owner, submit one true copy of the lease, contract, or other document (with address of owner) under which you control the property. Describe all liens, mortgages, or other encumbrances on the land and state book and page number and official place where recorded.

(b) State the legal description (section, township, and range; metes and bounds; patent number of claims) of the land upon which you wish to explore and all adjacent land which you own or control. Describe any part of the land or workings which should not be subject to Government royalty and liens. If the land consists of unpatented claims, state book and page number for each recorded location notice, including amended locations, and official place where recorded. State all the names by which you know the property.

(c) For all land or mineral rights encumbered or not owned, submit five copies of Lien and Subordination Agreements on MME Form 52. If the agreements cannot be obtained, state reasons and provide copies of letters of refusal.

3. Physical Description:

(a) Describe in detail and illustrate with maps or sketches all mining or exploration operations which you know have been or are being conducted upon the land. Include existing mine workings and all production facilities.

(b) State your interest, if any, in operations described in (a).

(c) State, if you know, the past and current production, supporting your statement with copies of settlement sheets, mine records, or published data if available.

(d) Describe known ore reserves, giving quantities and grades and sampling methods used. Support your statement with copies of assay certificates and assay maps if available.

(e) Describe by narrative and maps or sketches the geologic features of the property, including ore minerals, geologic formations if known, and type of deposit (vein, bedded, etc.).

(f) State your reasons for expecting to find ore, and if you have sampled the area you propose to explore, show where the samples were taken, describe sampling methods used, and provide copies of assay certificates.

(g) Send with your application at least *two* copies of all geologic or engineering reports, assay maps, or technologic information which you have, indicating whether you require their return.

4. Accessibility of Property:

(a) To aid the OME representative who may examine the property, state name and address of person who will meet him; give directions for reaching the property; and describe accessibility of property and of any mine workings.

(b) Name the shipping and supply points and state the distances to the property.

5. Exploration Work:

(a) Describe fully the proposed exploration work giving individual footages and sizes of openings *for each item of work.* Use narrative, maps, plans, and sections as necessary. Show location of the proposed work as related to geologic features such as veins, ore-bearing beds, contacts of rock formations, etc. Show also the relation of the proposed work to any existing mine workings and to *land boundaries* or to the closest identifiable corner.

(b) If an access road must be built, show the proposed location on the property map and state the length, type and construction methods proposed.

(c) If an OME contract is executed, state how soon thereafter work would be started and finished. State your anticipated average daily or monthly rate of progress for each type of work.

6. Experience:

State your operating experience and background to conduct this exploration work and also that of the person who will supervise the work.

7. Estimate of Costs:

Furnish detailed estimates of the necessary costs *for each item of the work proposed in 5(a)* under the headings listed below with a total for each heading and the estimated total cost of the work. Costs for any work to be performed by an independent contractor should be listed separately under category (a) below. Costs for any work that is not to be performed by an independent contractor should be listed under categories (b) through (g).

(a) Independent contracts. State the total cost of any proposed independent contract for all or any part of the work, and the number of units and the unit cost for each type of work, such as per foot of drilling, per foot of drifting, per hour of bulldozer operations, or per cubic yard of material moved. Cost estimates should be supported by bids from three contractors if possible. (*Note*—If none of the work is to be contracted, write "none" after this item.)

(b) Personal services. The cost of supervision, engineering and geological services, outside consultants, and labor should be itemized by numbers and classes of employees; rates of wages, salaries or fees; and periods of employment. State whether these services are available.

(c) Operating materials and supplies. List items of material and supplies giving quantity and cost of each. Include under this heading power, water, and fuel, and units of equipment and tools costing less than $50 each.

(d) Operating equipment. List items of equipment and tools costing $50 or more per unit. Give specifications and indicate how each item is to be acquired—i.e., rented, purchased or provided by the applicant. If rented or purchased, state the estimated rental or purchase price. If furnished by the applicant, state condition and present fair market value.

(e) Initial rehabilitation and repairs. Describe the type and the cost of *initial* rehabilitation or repair of existing buildings, fixtures, installations (exclusive of mine workings), and movable operating equipment now owned by the applicant which will be used in the exploration work.

(f) New buildings, fixtures, installations. Describe each building, fixed improvement, and installation to be purchased, constructed, or installed for the exploration work, stating specifications and cost including labor, materials, and supervision.

(g) Miscellaneous. Describe the type and estimate the cost of repairs and maintenance of the operating equipment listed in 7(d). Do not repeat initial repairs listed in 7(e). Show also the costs of analytical work, accounting, workmen's compensation and employees' liability insurance, payroll taxes, and other required costs that do not fall within the previous categories. [*Note*—The Government will not contribute to costs incurred before the date of the contract, or to costs of or incident to: (1) acquiring, using, or possessing land and any existing improvements, facilities, buildings, installations, and appurtenances, or the depreciation and depletion thereof; (2) general overhead, corporate management, interest and taxes (other than payroll and sales taxes); (3) insurance (other than employees' liability insurance); and (4) damages to persons or property (other than authorized repair to or replacement of equipment or other property used in the work).]

1. (a) enclosed loan refusals.
(B) none
(C) Supervision of dozer work and using my own drill.

2. (a) owner
(B) RED DIRT CLAIMS #1-#2-#3-#4-#5
Located in township 7N.-R8E San Bernardino County California.
Recorded June 29-66 - Book 458 Page 53
Located about 5 miles south of Ludlow California.
(C) not applicable.

3. (a) The enclosed assays were surface assays across the vein. Vein is about thirty feet wide on the surface. This is a new discovery

E. C. KING, JR. -:- P. O. BOX 513 -:- TELEPHONE 794-2392 PURVIS, MISSISSIPPI

(B) owner.

(C) not applicable.

(D) Assays taken across vein always run 8 to 16 ozs silver.

(E) Vein deposit.
Enclosed spectrograph show minerals present
Side walls are Rhyolite

(F) my reason to expect ore are the consistant 8 to 16 oz silver assays on the surface - which is badly weathered.
Some old miners in the general area got into good ore at about thirty feet - away from the weathering.
The surface gold is spotted due to weathering. Lots of chlorine was once in this country - which leached out values for secondary enrichments.

(g) not applicable

E. C. KING, JR. -:- P. O. BOX 513 -:- TELEPHONE 794 - 2392 PURVIS, MISSISSIPPI

4. (a) myself - EUGENE C KING JR
BOX 513
PURVIS MISSISSIPPI.

(or)
MR. E. F. LOGAN
LUDLOW CALIFORNIA

The property is located about 5 miles south of Ludlow California - on left side of old Bagdad mine road - very easy to reach or locate. Dark red outcroping.

(b) Ludlow California is shipping point - about 5 miles from deposit.

5. (a) The vein outcrop is soft + weathered at least to ten feet (as far as I have been) I think a dozer could strip down to 20 or so feet - This may expose ore - if not - get to hard rock for my drill. This would better locate vein dip etc.

TELEPHONE 794 - 2392
E. C. KING, JR. -:- P. O. BOX 513 -:- PURVIS, MISSISSIPPI

(b) Good road leads to property
(C) I would start within 45 days of contract - first dozing then drilling
I think work would be finished in Six months of starting date.

6. I have supervised several dozer operations and have have considerable drilling experience - Some in the Sudlow area.

E. C. KING, JR. -:- P. O. BOX 513 -:- TELEPHONE 794 - 2392 PURVIS, MISSISSIPPI

7. Bulldozer trenching

Rental - 150 hrs - $20 h.	$3,000.00
Supervision of sampling etc.	350.00
assaying + surveying	350.00
	$3700.00

The operator will furnish drill etc.

Truck rental for water-hauling	$500.00
Drill bits + rods	450.00
Water hauling + tank	100.00
Drill helper - wages	350.00
Repairs on drill etc	150.00
Supervising + drilling	600.00
Total cost	$5850.00

I believe the dozer work could open up one alone.

Thank you

Mr. Paul Fillo
U.S. Dept of Interior
San Francisco Calif:

Dear Mr. Fillo:

For a personal touch in regard to this vein deposit—
I believe this vein to be a feeder vein - or same vein that made such good pault ore around the Bagdad mines stopes— which the Bagdad is only a couple of miles south from my location. Most all veins of this type have made mines of sorts in the general area. Very similar to the ore from Calico. Due to the high chloride content

E. C. KING, JR. -:- P. O. BOX 513 -:- TELEPHONE 794 - 2392 PURVIS, MISSISSIPPI

The values have been leached down to around the twenty or thirty foot zone.
This fact has been true in this area.
I think the dozer work may open up one - if not at least I can get to hard rock for a few holes of say fifty feet or so.
If this does not meet your approval then I'll adjust to your requirements

Thank you
E. C. King Jr

Dear Mr. King:

On April 28, 1967, we requested additional information which is necessary for the processing of your application.

If you need additional time to prepare this information, please let us know. If we do not receive a reply from you within thirty days from the date of this letter, we must assume that you are no longer interested in proceeding with your application and we shall consider it as having been withdrawn.

Sincerely yours,

Re: OME-6628 (Silver)
Eugene C. King, Jr.
Red Dirt Claims
San Bernardino County, California

Dear Mr. King:

We have reviewed your application for financial assistance to explore the Red Dirt Claims and we offer the following comments:

You have not submitted enough information to complete the application. All of the information requested for the seven items listed on the back of the application form must be submitted before we can complete our review.

From the information already received, we note that one assay certificate shows a higher content in gold than in silver, and another shows that silver predominates. If the values in the deposit are due mainly to the gold content, the property is eligible for 50 percent Government participation. If gold and silver values are about equal, it is eligible for 62½ percent assistance. If silver is the principal constituent, 75 percent assistance is possible. Additional samples and assays will be necessary to establish the relative ratio of gold to silver.

You should furnish a map showing the claim boundaries, geology, location, length, and identification of samples taken and subsequently assayed.

No details are given regarding the exploration targets, the location and extent of bulldozer work proposed, or the location, number, bearing, inclination and depth of drill holes proposed. Cost estimates for bulldozing and drilling should be supported by bids from three contractors if possible.

We note that you propose to furnish your share of the cost of the exploration work by supervising the bulldozer work and crediting the use of your own drill to the project. We find that allowances for the use of an operator's equipment on an OME project and for services that he might contribute are usually not sufficient to cover the operator's share of the exploration costs. The allowance for use of

23263

equipment owned by the operator is calculated in an OME contract by allowing depreciation to the extent of 1/60th of its fair market value or its book value, whichever is less, for each month the equipment is used on the contract.

In addition, the Government pays its share of the cost at the end of each month after a voucher for the costs incurred has been submitted and approved. It usually takes two or three weeks to process such a voucher. An applicant, therefore, should have sufficient funds readily available to pay for all the costs of the project for the first two or three months.

We will be glad to continue processing your application upon receipt of the requested information.

Sincerely yours,

FRANK E. JOHNSON
