Re: Docket No. DMEA-3898 (lead-zinc)
Fairway Uranium Corporation
Hoodoo Mine
Custer County, Idaho

Dear Mr. Selfridge:

Reference is made to this application for exploration assistance.

On September 2 and October 3, 1955, we wrote to the applicant with regard to additional information needed to process the application. As we have not received the requested information, we assume that the applicant is no longer interested in obtaining Government assistance in an exploration program at this property. We are, therefore, transferring the application to the inactive files.

Sincerely yours,

Docket

Re: Docket No. DMEA-3033 (lead-zinc)
Hoodoo Mine
Custer County, Idaho

Dear Mr. Larson:

Today we received from Juan F. Huerta, mining engineer and geologist of your company, six copies of a Consent to Lien agreement, one copy of an Option, one copy of a Mining Lease, and one copy of a Progress Report and Map.

There has apparently been some misunderstanding as to the information we need as explained to you by Howard B. Nicholson, geologist, Geological Survey, about your application.

Before we can continue processing your application, it will be necessary for you to furnish us with a complete description of the work you propose to do and geologic maps showing precisely where this work is to be done. Your proposal should be accompanied by a cost analysis. There should be four copies of the proposal, maps, and cost analysis. It would be appreciated if you would furnish us at the same time with three additional copies of your option and the mining lease.

By Field Team, Region I, N. District.

Docket

Re: Docket No. DMEA-3898 (lead-zinc)
Fairway Uranium Corporation
Hoodoo Mine
Custer County, Idaho

Dear Mr. Selfridge:

On July 21, 1955, Howard B. Nickelson, geologist, Geological Survey, discussed the referenced application with O. C. Larson, President, and S. N. Whittle, Superintendent, of the company.

Messrs. Larson and Whittle were vague as to their intentions, but it seems they wish to explore the property by a long crosscut and by drifting. Mr. Nickelson asked them to submit a map showing the pertinent geologic features and the exploration they propose to do, as well as a cost estimate. We should receive this information soon; but if we have not heard from Mr. Larson in a week, we will remind him of his promise.

Re: Docket No. DMEA-3898 (Lead-Zinc)
Fairway Uranium Corporation
Hoodoo Mine
Custer County, Idaho

Dear Mr. Weissenborn:

With reference to the cited application, we are enclosing copies of memorandums of Mr. O. M. Bishop, USBM, dated August 16, and Mr. Thor H. Kiilsgaard, USGS, dated August 5. You will note that both suggest that the Applicant revise his work program so as to be more in line with the work proposed in the terminated contract.

Since we assume from the correspondence that the field examination has already been made, we shall await your recommendations.

Sincerely yours,

George C. Selfridge

Re: DMEA-3898
Fairway Uranium Corp.
Hoodoo Mine
Lead-Zinc-Silver
Custer County, Idaho

Memorandum

To: W. R. Griswold, DMEA

From: O. M. Bishop, Branch of Base Metals

Subject: Review of application

The application as prepared is inadequate consisting in an important part of references to a DMEA report for the work proposed and costs.

From the Final Report on Amended Contract E-223 dated July 1955, I assume the work proposed is the 350 feet of crosscutting and 500 feet of drifting provided for in the amendment of June 3, 1953 which was not begun during the life of the contract. The application needs revision to make the matter wholly clear. Data on costs are also needed. The applicant appears rather lax in his effort to make a case. If his proposal, when described, is found to be that previously reviewed and incorporated in the amended contract, I will recommend it; but the application in its present form is unacceptable and is recommended for denial.

Griswold

Memorandum

To: W. R. Griswold, Defense Minerals Exploration Administration

From: Thor H. Kiilsgaard, U. S. Geological Survey

Subject: Review of application, Fairway Uranium Corp., Custer County, Idaho, DMEA Docket 3898.

The applicant has obtained control of the Hoodoo mine, which was formerly explored under DMEA Contract Idm-E223, but which was terminated before completion of the project. In the application it is proposed to do 60 feet of drifting and 1,600 feet of core drilling. There is no map showing where this proposed work is to be done.

In the prior contract surface drilling explored a sphalerite deposit with rather encouraging results. On the basis of this drilling, and to further explore the deposit, the contract was amended to allow 350 feet of crosscutting and 500 feet of drifting. The proposed crosscut was to portal in the gulch of Hoodoo Creek, then to extend westerly until the vein was intersected, and then drift on the vein to the southwest at an elevation 65 feet below the lowest drill core intersection. This site was selected as the only logical one that could explore the deposit below the drilled area with a minimum of crosscutting.

I do not know where the applicant proposes to do the 60 feet of drifting, but if it is to be in the deposit previously explored by DMEA drilling I would suggest the application either be revised or denied. Sixty feet of drifting will accomplish no purpose in further exploration of the sphalerite deposit, a fact that can be readily confirmed by a glance at the longitudinal section enclosed with the Field Team final report of the terminated project. The deposit has already been adequately explored immediately beneath the outcrop and what is needed now is deeper exploration. This can best be done by completing the underground work allowed in the previous contract. Diamond drilling of lower areas from the surface can be done but, owing to topography, this will be difficult. Drilling, however, will not give the sample information that is badly needed to evaluate the potential of the deposit.

I recommend that the Field Team be instructed to suggest to the applicant that he revise his application to conform more or less with the work proposed in the terminated contract. If the applicant should decline such a modification and instead should insist on doing the work he has proposed, I would suggest the application be denied as such a limited project will only waste the applicant's money and the Government's as well.

Thor H. Kiilsgaard

Dear Sir:

This will acknowledge receipt of your letter dated July 11, 1955, addressed to Mr. O. C. Larson, President of Fairway Uranium Corporation, 2320 South Main Street, Salt Lake City, Utah, concerning the application for exploration assistance on the Hoodoo Mine at Custer County, Idaho.

Please be advised that our Superintendent, S. N. Whittle, will be on the mine property at all times and will expect Mr. Howard Nickelson on July 21, 1955, as per your letter.

I, O. C. Larson, will also be on the mine property on the 21st day of July, 1955, to meet with Mr. Nickelson.

Sincerely yours,

O. C. LARSON

Re: Application for exploration assistance (zinc-silver-lead)
Hoodoo Mine
Custer County, Idaho

Dear Mr. Larson:

This will acknowledge receipt of your application for exploration assistance on the Hoodoo property.

Howard Nickelson, DMEA geologist for your area, is planning to be in the Slate Creek area and could meet you or your representative at the mine on July 21 to discuss the exploration program. Please inform this office immediately whether or not this arrangement is convenient.

In order to process the application, the Government will need the following documents:

1. A valid copy of the lease agreement and a valid copy of the option showing the signatures of the parties involved; we can make the required number of copies.

2. Six signed copies of a consent to lien; forms are enclosed.

It might be more convenient for you to have these papers ready and Mr. Nickelson can pick them up at the time of the examination.

Sincerely yours,

A. E. Weissenborn

Re: Transmittal of Application for Aid
Fairway Uranium Corporation (zinc-silver-lead-gold)
Hoodoo Mine
Custer County, Idaho

Dear Mr. Selfridge:

Enclosed are the original and two copies of an application received from the above-captioned company for exploration at the Hoodoo mine. The Hoodoo mine was explored for lead and zinc under DMEA Contract No. Idm-E223 (Docket No. DMEA-1959), but the applicant has not described his proposed project. The property will be examined during the week of July 17 when a Field Team examiner is in that vicinity.

Only one carbon copy of each of the lease agreement and the option to purchase was received from the applicant. A valid copy of each of these documents will be obtained and copies sent on to Washington as soon as they are received in this office.

Sincerely yours,

INSTRUCTIONS

1. *Name of applicant.*—(*a*) State here your full legal name, in the form in which you will wish to contract, and your mailing address: Fairway Uranium Corporation
2320 South Main Street
Salt Lake City, Utah
See Copy Attached

(*b*) If other than an individual, add to your name above whether a corporation, partnership, etc., and the name of the State in which incorporated or otherwise organized.

(*c*) If a corporation, add to above statement, titles, names and addresses of officers.

(*d*) If a partnership, add to the above statement the names and addresses of all partners.

2. *General.*—Read DMEA Order 1, "Government Aid in Defense Exploration Projects," before completing this application. Submit this application and all accompanying papers in quadruplicate (four copies), with your name and address on each sheet of the application and on all accompanying papers. Where sufficient space is not provided on the form for all required information, state it on an accompanying paper, with a reference in each case to the instruction to which it refers by number. Comply with all applicable instructions; or, if not applicable, so state. File the application with Defense Minerals Exploration Administration, Department of the Interior, Washington 25, D. C., or with the nearest field executive officer thereof.

3. *Applicant's property rights.*—(*a*) State the legal description of the land upon which you wish to explore, including all land which you possess or control that may be benefited by the exploration, and excluding any land or interest in land which is not to be included in the exploration project contract

(*b*) State any mine name by which the property is known.

(*c*) State your interest in the land, whether owner, lessee, purchaser under contract, or otherwise

(*d*) If you are not the owner, submit with this application a copy of the lease, contract, or other document under which you control the property.

(*e*) If you own the land, describe any liens or encumbrances on it

(*f*) If the land consists of unpatented claims, add to the description above, the book and page numbers for each recorded location notice.

4. *Physical description.*—(*a*) Describe in detail any mining or exploration operations which have been or now are being conducted upon the land, including existing mine workings and production facilities. State your interest, if any, in such operations. Also describe accessibility of mine workings for examination purposes.

(*b*) State past and current production, and ore reserves, if any, giving quantities and grades.

(*c*) Describe the geologic features of the property, including mineralization, type of deposit (vein, bedded, etc.), and your reasons for wishing to explore. Illustrate with maps or sketches. Send with your application (but not necessarily as a part of it) any geologic or engineering report, assay maps, or other technologic information you may have, indicating on each whether you require its return to you.

(*d*) State the facts with respect to the accessibility of the project: Access roads, distances to shipping, supply and residence points.

(*e*) State the availability of manpower, materials, supplies, equipment, water, and power.

5. *The exploration project.*—(*a*) State the mineral or minerals for which you wish to explore .....

.....

(*b*) Describe fully the proposed work, including a map or sketch of the property showing a plan (and cross sections if needed) of any present mine workings, and the location of the proposed exploration work as related to such features as contacts, veins, ore-bearing beds, etc.

(*c*) The work will start within ..... days and be completed within ..... months from the date of an exploration project contract.

(*d*) State the operating experience and background of the applicant with relation to the ability to carry out such exploration project, and also that of the person or persons who will supervise the operations.

6. *Estimate of costs.*—Furnish a detailed estimate of the costs of the proposed work (you will have to use a separate sheet), under the following headings. Add the totals under all headings to give the estimated total cost of the project:

(*a*) *Independent contracts.*—(Note.—If the applicant does not intend to let any of the work to contractors, write "none" after this item. To the extent that the work is to be contracted, do not repeat the cost of the contract-work in subsequent items.) State the cost of any proposed independent contracts for the performance of all or any part of the work, expressed in terms of units of work (such as per foot of drilling, per foot of drifting, per hour of bulldozer operations, per cubic yard of material moved, etc.).

(*b*) *Labor, supervision, consultants.*—Include an itemized schedule of numbers, classes and rates of wages, salaries or fees for necessary labor, supervision and engineering and geological consultants.

(*c*) *Operating materials and supplies.*—Furnish an itemized list, including items of equipment costing less than $50 each, and power, water and fuel.

(*d*) *Operating equipment.*—Furnish an itemized list of any operating equipment to be rented, purchased, or which is owned and will be furnished by the Operator, with the estimated rental, purchase price, or suggested use-allowance based on present value, as the case may be.

(*e*) *Rehabilitation and repairs.*—Furnish a detailed list showing the cost of any necessary initial rehabilitation or repairs of existing buildings, installations, fixtures, and movable operating equipment, now owned by the Operator and which will be devoted to the exploration project.

(*f*) *New buildings, improvements, installations.*—Furnish a detailed list showing the cost of any necessary buildings, fixed improvements, or installations to be purchased, installed or constructed for the benefit of the exploration project.

(*g*) *Miscellaneous.*—Furnish a detailed list showing the cost of repairs to and maintenance of operating equipment (not including initial rehabilitation or repairs of the Operator's equipment), analytical work, accounting, workmen's compensation and employers' liability insurance, and payroll taxes.

(*h*) *Contingencies.*—Give an estimate of any necessary allowances for contingencies not included in the costs stated above.

NOTE.—No items of general overhead, corporate management, interest, taxes (other than payroll and sales taxes), or any other indirect costs, or work performed or costs incurred before the date of the contract, should be included in the estimate of costs.

7. (*a*) Are you prepared to furnish your share of the cost of the proposed project in accordance with the regulations on Government participation (Sec. 7, DMEA No. 1)?

(*b*) How do you propose to furnish your share of the costs?

☑ Money ☑ Use of equipment owned by you ☐ Other

Explain in detail on acompanying paper.

CERTIFICATION

The undersigned, whether as an individual, corporate officer, partner, or otherwise, both in his own behalf and acting for the applicant, certifies that the information set forth in this form and accompanying papers is correct and complete, to the best of his knowledge and belief.

Dated July 5, 1955

UNITED STATES DEPARTMENT OF THE INTERIOR

DEFENSE MINERALS EXPLORATION ADMINISTRATION

RECEIVED
JUL 14 1955

APPLICATION FOR AID IN AN
EXPLORATION PROJECT, PURSUANT TO
DMEA ORDER 1, UNDER THE DEFENSE
PRODUCTION ACT OF 1950, AS AMENDED

1. (a) Fairway Uranium Corporation
Oscar C. Larson, President
2320 South Main Street
Salt Lake City, Utah

(b) The Fairway Uranium Corporation was Incorporated in the State of Nevada.

(c) O. C. Larson, President and Director
Fred J. Perry, Secretary
Kenneth Taylor, Vice-president and Director
Ray S. Lester, Treasurer

2. None.

3. (a) Hoodoo #1 to #12 inclusive. Hoodoo Mill Site. Township 10 North, Range 15 East, Section 24, Boulder Mining District, Custer County, Idaho.

(b) Hoodoo #1 to #12 inclusive, Hoodoo Mill Site.

(c) Lessee with option to purchase.

(d) Four copies of the Lease, Four copies of the option, are attatched. No. 1 copy [illegible]

(e) Land is under lease.

(f) See the description on the lease agreement.

4. (a) 60' drift, 1600' of core drilling. The mine is easily accessable by road.

(b) None.

(c) See the United States Government Survey Report. Bureau of Mines, Spokane, Washinton.

(d) Roads are completed to the operations. Shipping point is 60 miles.

(e) There is water on the premesis, and power close by can be extended. Materials and supplies are at the shipping point 60 miles away.

5. (a) Zinc, Sil~~ica~~ver, Lead and Gold.

(b) F 1665 DMEA Booklet 1959.

(c) The work will start within 30 days and be completed within 6 months from the date of an exploration project contract.

(d) Applicant has 25 years mining experience, Superintendent has several years experience as a miner.

6. See USGS Booklet F 1665.

(a) No contracts contemplated.

(b) $500.00 per month for supervision. $500.00 per month for Geological work, and mining wages on the prevailing scale.

(c) 20 boxes of Powder
1000 fuses
500 caps
gasoline, oil, tools, drill bits, etc.
3/4 ton Cheverolet Pick-up.
4 X 4 Cargo truck.
18' Trailer house.
K4 Bulldozer.
3 ton Flat rack Cheverolet Truck.

RECEIVED
JUL 14 1955

(d) An Einco loader $2,200.00 and a compression unit $7,500.00, and ~~the cost of the ~~ cars and ~~rig~~ RA.7 $750.00.

(e) Repair of the roads and the buildings estimated at $1,000.00.

(f) $10,000.00 as an initial payment on the Mill building and mill equipment.

(g) See the original application.

(h) $500.00 for insurance, liabilities, and taxes as accrued.

7. (a) Yes

(b) 1. Money

2. Use of equipment owned by us, and purchase for cash the necessary equipment and Labor.
