Remarks: Helen.....You may think this is sorta "passing the buck" (which it probably is), but in making the final clean out of the DMEA (OME) files I found the two folders, probably not worth the postage required to send to you, but here they are. These were way before my time in this Region, but something just might come up about them sometime, and as they would have been for the state of Missouri guess they should be in your files.

My best regards to evryone there.

Cora
