Paymaster Mine Trust, DMA Docket 2063

Dear Mr. Paulson:

Reference is made to our letter dated September 18, 1951 regarding the above applications for exploration projects. As no reply has been received we assume you are no longer interested in these exploration projects.

Unless we hear from you to the contrary within thirty (30) days we shall close your dockets.

Yours very truly,

P. T. Allmann, for
J. H. East, Jr.
Executive Officer

Re: Moffet Metals Trust, DMA Docket 2057
Tungsten Activities Trust, DMA Docket 2059
Aymaster Mine Trust, DMA Docket 2063

Dear Mr. Paulson:

All the questions on Form MF-103 must be answered before we can process your application for an exploration loan.

Question 21, Form MF-103, for the Tungsten Activities Trust has not been answered. The proposed work should be described, and the time required to complete the work should be estimated. For example, the statement of the proposed work should include the number of feet of drifting, crosscutting, sinking, or diamond drilling contemplated. Maps should accompany the application so that the location of the proposed work should be defined.

Question 23 should be answered in detail. The daily or hourly wage of the miners should be itemized. The building to be repaired should be identified with a statement of the cost of materials and labor. Each piece of equipment to be purchased or rented should be itemized as to class and size with the estimated cost or rental. The supplies should be itemized with the estimated cost of each class of material.

The same applies to the applications for the Aymaster Mine Trust and the Moffet Metals Trust.

Kindly submit the above information to this office so that we may process your applications.

Yours very truly,

F. T. Allemann, for
J. H. Bast, Jr., Executive Officer
DMA Field Team, Region IV

INSTRUCTIONS

Read Mineral Order 5, Regulations Governing Government Aid in Defense Projects, before completing this application. Submit four signed copies of the application to Defense Minerals Administration, Department of the Interior, Washington 25, D. C., or to the nearest field executive officer thereof, with your name and address on each sheet of the application and all accompanying papers. If any question is inapplicable, or if you cannot answer it, so state on the form. Where the space provided for answer is insufficient, answer on a separate sheet, annex it to the application form, and refer to it in space for answer. If the application is approved, you will be presented with an exploration project contract on Form MF-200, for your signature.

THE APPLICANT

*1. Is applicant an individual, partnership, or corporation? Pure Trust
*2. If a partnership, state names and addresses of partners.
*3. If a corporation, state names and addresses of officers, directors, and five largest stockholders.
*4. Describe the mining and general business experience of (*a*) the applicant, and (*b*) the person or persons who will manage the project.
*5. Are you the owner or the lessee of the property? No Lessee
6. If owner, state what claims, liens, or encumbrances, if any, are against the property.
7. If lessee, attach a copy of the lease and state if it is in good standing.

NOTE.—It will be necessary to procure and attach to the exploration project contract agreements of claimants, lienors, encumbrances and lessors subordinating their interests in the property to the interest of the Government under the contract.

8. Furnish current financial statement, showing assets and liabilities, and a profit and loss statement.
9. How much money is applicant prepared to invest in proposed project? Is it sufficient to pay your part of the cost of the project as detailed in question 23 of this application form, in accordance with the regulations on Government participation (Section 9 of Mineral Order 5)?

*If you have already answered these questions on MF-100, you are not required to answer the questions for this application.

16—64067-1

THE PROPERTY

10. (*a*) Give a description of the real property that will be in any way involved in the exploration project, including any existing mine or operating property.
    (*b*) Give the legal description of the exact parcel, plot, or area upon which the exploration is to be conducted.

    NOTE.—If both areas are the same, so state. The only obligation to repay the Government is from the net earnings from any commercial discovery made in the area specified in (*b*) above in which the exploration is to be conducted, and the expenditure of funds which may be charged as costs of the project must be limited to that area or to work necessary to perform the exploration in that area.

*11. State the present and former names of the property, if any.
*12. State, in detail, the location of the property with reference to towns, railroads, mines, shipping points, including distances and directions and kinds and conditions of roads. Tiprad Top Mine
*13. State source and quantity of water available for operations and its sufficiency at all seasons. State amount of power to be used, rate per hour or other cost, and source. Adequate for all
*14. Describe any existing useable facilities, equipment, buildings, or structure now on the property that will be devoted to the exploration work.
15. State in detail how the ore could be shipped and how and where milled. Boulder or Nederland by truck.
*16. History:
    (*a*) Give a statement, as complete as possible, of previous exploration, development, operation, and production of property, with reasons for any past suspensions of operations.
    (*b*) State briefly the known history and production of adjoining and neighboring properties.
    (*c*) Furnish any available (private) reports that may apply to this application, including results of mine examinations, recommended exploration and development, and metallurgical investigations.
*17. Production:
    (*a*) If mine is in production, furnish the following information:

	Tons per day	*Grade or analysis*	*Cost per ton*	*Net value per ton*
(1) Mining				
(2) Milling				
(3) Shipped or sold				

*18. Ore or mineral reserves: (If property is or has been operating.)
    (*a*) Describe the ore or mineral deposits briefly.
    (*b*) Submit available maps and assay data.
    (*c*) Give estimated tonnage and grade of each class of ore reserves.
19. State any conditions or circumstances regarding the property not sufficiently brought out by the foregoing questions.

THE EXPLORATION

20. For what mineral or minerals and for what types of deposits and ores will the exploration be conducted?
21. Describe briefly, but concisely, the proposed work and the estimated time required to complete it.

    NOTE.—The Government will not participate in a project that will require more than 2 years to complete.
22. Furnish statement of the geological basis of the project with particular emphasis on factors leading the operator to expect the finding of commercial ore bodies. This statement should be accompanied by supporting maps such as geological maps, maps of the proposed openings and assay maps, sample lists, and other pertinent data.

THE REQUIREMENTS AND COSTS

23. Tabulate in the form of an itemized statement with a sum for each item the estimated requirements and costs of the project so that the total will give the estimated cost of the project in which the Government will participate, as follows:
    (*a*) Labor, by numbers and classes (miners, muckers, millmen, etc.), with wages of each.
    (*b*) Supervisors, by numbers and positions, with salaries of each.
    (*c*) Cost of necessary repairs to existing facilities, structures, and buildings.
    (*d*) Cost of necessary installation or construction of additional facilities, structures, and buildings.
    (*e*) Cost of items of equipment, not now owned by the applicant which must be purchased for operations at a cost of $50 or more each.
    (*f*) Cost of rental for equipment which the operator proposes to rent.
    (*g*) Rental value of items of equipment which the operator now owns and which will be devoted to the work.
    (*h*) Cost of materials and supplies, including items of equipment costing less than $50 each.
    (*i*) Cost of power, water, utilities, and any other items not provided for above.
24. Furnish a time schedule of the project, stated in terms of months after project is approved, showing progress expected to be accomplished and the money expected to be spent.

Publ. Co., Attn: Robinson's Legal Blanks, 1-16 Stout St., Denver, Colo.

THIS INDENTURE, Made this Second day of April in the year of our Lord one thousand nine hundred and Fifty-one between J. B. Jackson, 1543 Emerson St., Denver, Colorado, and W. P. Laesch, 810 East Colfax Avenue, Denver, Colorado, Parties of the first part, and D. W. Schmitt, 427 Cooper Building, Denver, Colo., Party

of the second part, WITNESSETH, that the said parties of the first part, for and in consideration of the rents, covenants and agreements hereinafter expressed to be paid, kept and performed by the said party of the second part, have leased, let and demised, and by these presents do lease, let and demise unto the said party of the second part, the following described premises, situate, lying and being in Sugarloaf Mining District, in the County of Boulder and State of Colorado, to-wit:

Un-Patented Mining Claim known as the
TIP TOP

First Parties reserving unto themselves only sufficient surface rights on which to construct or cause to be constructed a cabin, not for commercial use, the same to in now way interfere with mining operations.

TO HAVE AND TO HOLD THE SAME, for the purpose of mining, for the term of five years, subject to a renewal for a like period, from the date hereof, unless sooner terminated under any of the provisions herein contained, with no power to assign this lease or any interest thereunder, or to sublet the whole or any part of said premises except upon the written consent of the parties of the first part; however, permission is hereby specifically granted to Second Party to assign this lease to a legally created operating organization.

And the said party of the second part, for and in consideration of the leasing of said premises, covenants and agrees with said parties of the first part to commence work on said premises on or before the 15th. day of April, 1951, and thereafter to work the same continuously, in a thorough and workmanlike manner, employing at least two men underground,

and working at least..... fifty.....shifts each calendar month; to keep the same securely timbered, drained and clear of loose rock and rubbish; to keep accurate accounts, and to render quarterly statements to the said parties of the first part, their agent or attorney, showing the amount and character of work done, and to pay to said parties of the first part, their agent or attorney, as rental for said premises royalty upon all ore taken and sold therefrom as follows, to-wit: **Fifteen percent (15%) as provided hereunder**

And it is expressly understood and agreed by and between the parties hereto, that the said parties of the first part reserves the property and right of property in and to all ores extracted from said premises during the term hereof, and that all settlements for royalty shall be made upon the assay value of the mineral in the ore that may be taken from said premises less the actual cost of railroad transportation and treatment; and the sampling works, mill, smelter, or ore buyer purchasing any such ore shall retain the amount of the royalty herein stated and shall pay the same to the parties of the first part at each settlement for ore purchased.

Parties of the First Part hereby waive any royalty from ore mined, extracted, removed and marketed during and exclusively from the operation of sinking the winze to a maximum depth of one hundred (100) feet below the tunnel level. This provision shall not apply to ore extracted in drifting or stoping at any level.

Second Party agrees that the above royalty schedule shall also apply and extend to any U. S. Government subsidy or bonus.
