August 22, 1956

Memorandum

To: Operating Committee, DMEA, Washington, D. C.

From: Field Team, DMEA, Region V, Knoxville, Tennessee

Subject: Application from J. C. Bowman, Penland, N. C. (Mica) Zinniman Mine, Mitchell County, North Carolina

Enclosed are three copies of the subject application, received here today, with one copy of the lease and six signed copies of the Consent to Lien. The fourth copy of the application is being kept for our use.

Under contract Idm-E444 (Docket No. DMEA-2646), Robert Baker began and then abandoned work at the Zinniman mine. This applicant proposes to complete that unfinished work. We are in favor of completing that work and recommend approval of a contract. Because 3½ years have elapsed since abandonment of the original contract, and because of our present field examiners only Mr. Shirley has seen this mine, we will request the examiners to visit and inspect this mine at the earliest convenient date in September, so that we can report to you on its present condition.

The Field Team Final Report on DMEA-2646 states that, "This deposit remains a good possibility for the production of strategic mica."

Mr Robert A. Laurence,
Executive Officer
DMEA, Field Rem Region V.
Room 13, U.S. Post Office Bldg,
Knoxville 2, Tenn.

Dear Mr Laurence;

Re; DMEA 2646 - Idm E44p MICA
Zinnimon Mine
Mitchell County, N.C.

Attached application.
Hope same is in order.
Experienced some delay - account some property had been sub-divided, but records are now clear and ample room for development is on tracts covered by leasehold and lien.
The shaft timbering is intact, but some debris is in present bottom with water.
Hope you will have Field Engineers examine and advise me before any start is made.

Very truly yours.

J C Bowman

Metal or Mineral Mica
Date Received 8-24-56
Estimated Cost not given
Participation (Government %)

INSTRUCTIONS

1. *Name of applicant.*—(*a*) State here your full legal name, in the form in which you will wish to contract, and your mailing address: J. C. Bowman Penland, N. C.

(*b*) If other than an individual, add to your name above whether a corporation, partnership, etc., and the name of the State in which incorporated or otherwise organized.

(*c*) If a corporation, add to above statement, titles, names and addresses of officers.

(*d*) If a partnership, add to the above statement the names and addresses of all partners.

2. *General.*—Read DMEA Order 1, "Government Aid in Defense Exploration Projects," before completing this application. Submit this application and all accompanying papers in quadruplicate (four copies), with your name and address on each sheet of the application and on all accompanying papers. Where sufficient space is not provided on the form for all required information, state it on an accompanying paper, with a reference in each case to the instruction to which it refers by number. Comply with all applicable instructions; or, if not applicable, so state. File the application with Defense Minerals Exploration Administration, Department of the Interior, Washington 25, D. C., or with the nearest field executive officer thereof.

3. *Applicant's property rights.*—(*a*) State the legal description of the land upon which you wish to explore, including all land which you possess or control that may be benefited by the exploration, and excluding any land or interest in land which is not to be included in the exploration project contract Attached

(*b*) State any mine name by which the property is known. Zinniman Mine

(*c*) State your interest in the land, whether owner, lessee, purchaser under contract, or otherwise Lessee

(*d*) If you are not the owner, submit with this application a copy of the lease, contract, or other document under which you control the property. attached

(*e*) If you own the land, describe any liens or encumbrances on it

(*f*) If the land consists of unpatented claims, add to the description above, the book and page numbers for each recorded location notice.

RECEIVED
AUG 22 1956
U. S. Geologic Division
Knoxville, Tenn.

4. *Physical description.*—(*a*) Describe in detail any mining or exploration operations which have been or now are being conducted upon the land, including existing mine workings and production facilities. State your interest, if any, in such operations. Also describe accessibility of mine workings for examination purposes. attached

(*b*) State past and current production, and ore reserves, if any, giving quantities and grades. unknown

(*c*) Describe the geologic features of the property, including mineralization, type of deposit (vein, bedded, etc.), and your reasons for wishing to explore. Illustrate with maps or sketches. Send with your application (but not necessarily as a part of it) any geologic or engineering report, assay maps, or other technologic information you may have, indicating on each whether you require its return to you. attached

(*d*) State the facts with respect to the accessibility of the project: Access roads, distances to shipping, supply and residence points. attached

(*e*) State the availability of manpower, materials, supplies, equipment, water, and power. attached

AUG 24 1956

5. *The exploration project.*—(a) [illegible]te the mineral or minerals for which y[illegible] wi[illegible] explore RUM MICA

(b) Describe fully the proposed work, including a map or sketch of the property showing a plan (and cross sections if needed) of any present mine workings, and the location of the proposed exploration work as related to such features as contacts, veins, ore-bearing beds, etc. attached

(c) The work will start within 30-45 days and be completed within 24 months from the date of an exploration project contract.

(d) State the operating experience and background of the applicant with relation to the ability to carry out such exploration project, and also that of the person or persons who will supervise the operations. attached

6. *Estimate of costs.*—Furnish a detailed estimate of the costs of the proposed work (you will have to use a separate sheet), under the following headings. Add the totals under all headings to give the estimated total cost of the project: attached

(a) *Independent contracts.*—(Note.—If the applicant does not intend to let any of the work to contractors, write "none" after this item. To the extent that the work is to be contracted, do not repeat the cost of the contract-work in subsequent items.) State the cost of any proposed independent contracts for the performance of all or any part of the work, expressed in terms of units of work (such as per foot of drilling, per foot of drifting, per hour of bulldozer operations, per cubic yard of material moved, etc.). attached

(b) *Labor, supervision, consultants.*—Include an itemized schedule of numbers, classes and rates of wages, salaries or fees for necessary labor, supervision and engineering and geological consultants. attached

(c) *Operating materials and supplies.*—Furnish an itemized list, including items of equipment costing less than $50 each, and power, water and fuel. attached

(d) *Operating equipment.*—Furnish an itemized list of any operating equipment to be rented, purchased, or which is owned and will be furnished by the Operator, with the estimated rental, purchase price, or suggested use-allowance based on present value, as the case may be. attached

(e) *Rehabilitation and repairs.*—Furnish a detailed list showing the cost of any necessary initial rehabilitation or repairs of existing buildings, installations, fixtures, and movable operating equipment, now owned by the Operator and which will be devoted to the exploration project. attached

(f) *New buildings, improvements, installations.*—Furnish a detailed list showing the cost of any necessary buildings, fixed improvements, or installations to be purchased, installed or constructed for the benefit of the exploration project. attached

(g) *Miscellaneous.*—Furnish a detailed list showing the cost of repairs to and maintenance of operating equipment (not including initial rehabilitation or repairs of the Operator's equipment), analytical work, accounting, workmen's compensation and employers' liability insurance, and payroll taxes. attached

(h) *Contingencies.*—Give an estimate of any necessary allowances for contingencies not included in the costs stated above.

NOTE.—No items of general overhead, corporate management, interest, taxes (other than payroll and sales taxes), or any other indirect costs, or work performed or costs incurred before the date of the contract, should be included in the estimate of costs. attached

7. (a) Are you prepared to furnish your share of the cost of the proposed project in accordance with the regulations on Government participation (Sec. 7, DMEA No. 1)? yes.

(b) How do you propose to furnish your share of the costs?

☐ Money ☐ Use of equipment owned by you ☑ Other attached

Explain in detail on acompanying paper.

CERTIFICATION

The undersigned, whether as an individual, corporate officer, partner, or otherwise, both in his own behalf and acting for the applicant, certifies that the information set forth in this form and accompanying papers is correct and complete, to the best of his knowledge and belief.

Dated August 18, 1956

3 (a) 1 & 2

DESCRIPTION of plat and parcel of land situate in Snow Creek Township, Mitchell County, North Carolina.-

STARTING at a point West of Highway 26 going North, approximately four and one-half ($4\frac{1}{2}$) miles West of Spruce Pine, North North Carolina. Metes and bounds as per Sketch attached. The conveyance of this property to the Lessor under Deed of Conveyance registered at office of Register of Deeds, Court House, Bakersville, Mitchell County, North Carolina.

4 (a)

PHYSICAL DESCRIPTION

No exact date available of discovery of, and early development of this prospect,(Mine); nor can one give a near approximation of quantity or value of mica produced by early miners. (b) The dike exposed produced a good quality of flat mica, and the DMEA Program's engineers and geologists approved the site for further development.

4 (c) Man power available, local supply houses stock practically all essential mining materials and supplies. Present are water, shop facilities, electric power. (Power near property, see sketch)

5 - The Exploration (Continuance of Mining Development.

(a) MICA

(b) To perform as originally planned by DMEA; unless revised.

(c) The work will start within 30 days and be completed within 20 months.

(d) Applicant, while native of region, is experienced in tunnel driving, quarrying, timbering, explosives, etc.

6 (a) Should contracting certain phases of development work be advisable and desired by DMEA, it shall be done.

(b) Labor, Supervision, Consultants

Legal minumum wages (common labor) $1.00 per hour; semi-skilled $1.25; skilled and technical to $2.42 per hour. No consultants other than DMEA Engineers and Geologists required. Labor Cost Estimate; Balance of original amount on First Contract.

MF-103

6 (e) Operating Tools, Materials and Supplies :

Sledge Hammer, Shovels, Bars (crow), Saws	$55.00
6 sets (rounds) Drill Steel rental Monthly	31.40
Power for (Electric Pump, Hoist " est.	165.00

6 (d) Operating Equipment (Rental) Rates:

Compressor	(Gasoline driven)	Monthly	175.00

MINING LEASE

RECEIVED
SEP - 5 1956

State of North Carolina MITCHELL County:

This indenture made this 1ST day of SEPTEMBER, 1956, between M.C. Pitman (single) Charles Stamey & wife Pearl Stamey of Mitchell County and State of North Carolina as party of the first part, and known as lessor~~s~~, and J.C. BOWMAN of MITCHELL County and State of North Carolina, party of the second part and known as lessee.

WITNESSETH, That the part~~ies~~y of the first part in consideration of One Dollar in hand received and hereby acknowledged by the lessor~~s~~, and in consideration of the agreements hereinafter contained, on the part of the party of the second part to be performed, hereby bargains, leases and grants to the party of the second part, and his heirs and assigns, for the period of five years from the date of this agreement, the following described real property, for mining purposes, in the County and State first above written to wit:

Tract of land - 14 Acres - owned by Charles & Pearl Stamey
Tract of land - 3 Acres - owned by M.C. Pitman
Situate Mitchell County, North Carolina.

Sketches and legal description Annexed.

TO HAVE AND TO HOLD the said lands to him, for mining purposes, the said lessee and his heirs and assigns for the aforesaid period of five years in compliance with the condition of this instrument, for the purpose and with the right to dig, quarry, search, explore for, obtain, and remove any kind of minerals, metals or fossils, and particularly mica, and to conduct the same to any extent the said party of the second part, the lessee, may desire. And it is hereby agreed between the parties to this agreement that the party of the second part is to have the use of any unoccupied buildings on said lands for mining purposes, and that he shall have the right to erect such buildings as he needs to carry on such mining operatins during the period of this lease, and that the party of the second part shall keep the same in as good condition as when received, unavoidable accidents excepted. And it is also agreed by the party of the second part that no unnecessary damage is to be done to the lands herein leased during the period of this lease and the continuance of said lease, but the said party of the second part shall have the right to take from said lands leased to the party of the second part any wood or timber the party of the second part may need to carry on said mining operations or which may be needed to carry on the addition to existing buildings or to erect new buildings or sheds on said lands. (Timber of high or special market value is excepted and shall not be used by the lessee.) And it is hereby agreed that the party of the second part, the lessee, is to have right-of-way of ingress and egress to said mines or land upon which exploration is being conducted.

AND IT IS FURTHER AGREED That the party of the second part, the lessee hereby agrees to pay to the said part~~y~~ of the first part, or his or their heirs or assigns, a rental royalty of $\frac{1}{8}$ (one-eighth) on the minerals taken and sold from said mines which shall be for the use of the said lands for the aforesaid period of five years. The said amounts shall be payable on the computation of selling bills on the tenth day of each month covering sales made during the previous month. Any minerals other than those set forth above which may be taken and sold shall be paid for and at the usual royalty rate of the minerals taken.

AND IT IS FURTHER AGREED That the lessee, the party of the second part, his heirs or assigns, shall have the option to renew this lease and to extend the period of its running for an additional five years from the date of its present termination. The option shall be exercised by giving formal written notice to the party of the first part or by the continuation of any mining operations then being conducted. The lessor~~s~~ reserve the right to use the land, or convey the same not conflicting with this lease, but under any conveyance the terms of this lease must be recognized by the grantee, purchaser, or assigns thereof. And it is agreed that the lessee may assign this mining lease or any part thereof and that he may sublease.

Delete ~~AND IT IS FURTHER AGREED That the lessee, the party of the second part, his heirs or assigns, is hereby given an option to purchase all the right, title and interest, legal and equitable to and in the real estate described and set forth in this lease for a total purchase price of _____, said purchase price to be paid in full within three years from the date of this instrument and it is agreed that all rental royalties paid to the party of the first part shall apply toward and be a part of the total purchase price above set forth, and that at such time that the total purchase price is paid in the form of royalties or a lump sum payment or a combination of both, the party of the first part will execute a special warranty deed to the party of the second part and that a tender of the remaining purchase price at any time within the next three years shall entitle the party of the second part to specific performance of this option contract.~~ Delete

BUT IT IS EXPRESSLY AGREED That unless mineral or fossil material of practical value for mining purposes shall be found within a period of two years from the date of this instrument, the lease may be terminated by the lessee at any time thereafter on thirty days notice to the lessor~~s~~. The lessee agrees that during the period of this lease or the continuance of this lease work in said mines or exploration for new mines within the area leased shall not cease longer than ninety days at any one time, unavoidable accidents excepted.

WITNESS our hands and seals the day and year first above written.

WASHINGTON 25, D. C.

August 29, 1956

Memorandum

To: Nonmetallic Minerals Division
Defense Minerals Exploration Administration

From: W. F. Dietrich, Chief
Branch of Ceramic and Fertilizer Materials

Subject: DMEA-4435 (mica)

Applicant: J. C. Bowman

Name and Location of Property: Zinniman Mine, Mitchell County, N. C.

Date Application Rec'd. by Br. of Ceramic & Fertilizer Materials: 8/24/56

Comments:

1. This application covers same mine as DMEA 2646 which was abandoned and the present applicant should be informed of the Government lien against this property, if any.

2. This deposit remains a good possibility for the production of strategic mica.

Recommendation:

It is recommended that the field team visit this mine when in that vicinity to determine condition of the shaft and work out an exploration program.

Re: Docket No. DMEA-4435-Mica
J. C. Bowman
Zinniman Mine
Mitchell County, North Carolina

Dear Mr. Bowman:

Reference is made to your application for Government assistance to explore the subject property.

We received your application on August 24, 1956, and referred it to the field for examination on September 12, 1956. The Field Engineers have been unable to make an examination because the workings have been inaccessible.

As the workings have not been made accessible, and as we believe you have had ample time and opportunity to pump out the shaft for examination, we are considering your application as having been withdrawn and are, therefore, placing it in our inactive files.

We regret the necessity of taking such action; however, it is taken without prejudice to your proposed project. If at some future time you make the shaft accessible and desire to reopen this case, you may do so by filing a new application and referring to the subject DMEA docket number.

Sincerely yours,

C. O. Mittendorf (for)

Re: Docket No. DMEA-4435-Mica
J. C. Bowman
Zinniman Mine
Mitchell County, North Carolina

Dear Mr. Laurence:

Reference is made to your memorandum of August 20, 1957, concerning the subject application.

We note there has been no action taken by the Applicant to comply with the Field Team's several requests to make the mine accessible for examination and that you doubt that an examination can ever be made. Since this has been going on for over a year, we believe that withdrawal of the application is the appropriate action.

Accordingly, we have prepared and enclose a letter, signed by the Administrator, advising the Applicant that we consider the application as having been withdrawn. If you are in agreement with this action, please forward the letter to the Applicant, retaining your copies and returning the remaining copies to this office.

Sincerely yours,

Memorandum

To: Operating Committee, DMEA - Washington

From: Executive Officer, DMEA - Region V - Knoxville, Tenn

Subject: DMEA-4435 (mica) J. C. Bowman, Sr. Tampa, Florida.
Zinniman Mine, Mitchell County, N. C.

Enclosed are 2 copies of a letter from the Applicant, requesting additional time in which to prepare this mine for examination.

We are beginning to doubt whether we will ever get to make this examination and, if a contract is eventually executed, whether the Applicant would be able to carry out the required work. However, we will wait and see whether the Applicant's son does get the mine opened and if so, we will examine the shaft to determine how much rehabilitation is necessary to restore it to the condition it was in when a former Operator (DMEA-2646) abandoned it.

Re: DMEA 4435 (Mica)

Dear Mr Laurence —

Yours of 31st ult. received. Delay in replying due to ten days absence from field office and awaiting news from my son J.C. B Jr. who has just been notified of his leave privilege and should reach Spruce Pine area by 19th inst. I have instructed him to use sump pump to clear shaft of water - he will notify you when this is accomplished, and I will sincerely appreciate any direct and early inspection from or by your TEAM.

Thank you, Mr. Laurence, for your kind expressions in regard to my health. I am happy to report that I have continued to improve despite numerous "set-backs" and am rapidly regaining strength and vigor, which will now be sufficient to take active charge of prospect, if your Team approves. Permit me to say, that in any case, I never quit until forced to do so. May I ask that I be given a "~~breack~~ "break" if you can possibly do so.

Thank you, and best wishes.

J. C. Bowman Sr.

Re: DMEA-4435 (Mica)
Zimmman Mine
Mitchell County, North Carolina

Dear Mr. Bowman:

I have delayed answering or commenting on your letter of June 12 and Mr. Painter's letter of June 9, thinking that there might be some progress on the unwatering of the Zimmman mine. We would like to clear this matter up in the near future, one way or the other, if possible.

Referring to your note that you cannot have a power line run in and a heavy pump installed without assurance that we will approve a contract, I am of course unable to secure such approval. However, such a permanent installation is not needed just for an examination. The sump pump should be adequate for the purpose. I certainly would not suggest installation of permanent equipment just for an examination.

Please let me know what progress is being made toward making this mine accessible for an examination, so that we may schedule the examination at an early date.

I hope that your health is continuing to improve and that you will soon be able to return to North Carolina.

Sincerely yours,

Robert A. Lawrence

Subject: Substance of telephone conversation with Mr. R. A. Laurence
July 30, 1957

Re: Docket No. DMEA-4435-Mica
J. C. Bowman
Zinniman Mine
Mitchell County, North Carolina

I asked Mr. Laurence if the applicant is ever going to get that prospect pumped out. He said he wondered.

We know what the target is but in the two or three years the shaft may be deteriorated, Mr. Laurence said and added we thought the man would get well when the winter was over and could come back to North Carolina but he writes back thanking me for my consideration. On the other hand Mr. Laurence continued, if he cannot get it pumped out to examine will he act the same way in doing the contract work.

I suggested that Mr. Laurence give him one more letter.

Memorandum

To: Operating Committee, DMEA - Washington

From: DMEA Field Team, Region V - Knoxville, Tennessee

Sibject: DMEA-4435-Mica. J. C. Bowman, Spruce Pine, N.C.
Zinniman Mine, Mitchell County, N.C.

Enclosed are three copies of a letter from the Applicant concerning the delays involved in making this mine accessible for examination.

It is our understanding that some of the earlier work has partially caved, and that some of the timber is in bad shape. For this reason, the Field Examiners want to re-examine the mine before recommending additional work, even though the uncompleted part of the original contract appears to still present a good exploration target.

Zinniman Mine,
Mitchell County, N. C.

Dear Mr. Laurence:

Acknowledge receipt of your most recent letter in the above regard.

Attached is copy of excerpts from letter of Mr. A. C. Painter, of Spruce Pine, N. C. which will explain in the main, the delay experienced in getting the Zinniman shaft pumped free of water to enable your engineers and geologists to make examination; the remainder is, of course, as you have no doubt surmised, [redacted] the writer's long fight for recovery.

Efforts are still being made to get someone in the Spruce Pine Area to do the job immediately; if unable to do so, my son, a geologist attached to the U. S. Engineer Corps will do so as soon as a leave-of-absence can be arranged. In the meantime, (I am very grateful to report) I am recovering strongly since my last hospitalization; I hope that I shall be enabled to take over.

Thank you for your understanding and your efforts in my regard. Will keep you informed regarding progress.

Very truly yours,

J. C. Bowman

Spruce Pine, N. C. June 9, 1957

Mr J. C. Bowman
1201 Orient Road,
Tampa 5, Florida.

Dear John:

Sorry to have been so long in replying to your last letter, but Steve hasn't been able to make much progress- has talked to several parties about cost of pumping water from the Zinniman mine, they say it can be done for about $125.00, but no one willing to take it, as they have no compressor, and it is hard to rent a compressor when they know what it is to be used for; they all say it is too hard on compressor to run a sump pump for that length of time.

There is no hose for your pump unless you have some up here somewhere, but Steve (Sparks) says he thinks he could get some hose to do the work if he only could get some one to do it, but that seems to be out of the question. Steve doesn't have much time that he can devote to this proposition, and hopes that you have improved in health so that you can come up and take over.

Have had cool weather for a week, etc.

A. C. Tainter

RECEIVED
JUN 12 1957
Knoxville Tenn.

Note -

Mr. Laurence: The amount quoted ($125.00) is really low, unless compressor and pump equipment has to be imported to do the job. I have a sump pump and hose there in the Area but the compressor is too small. Unless I know that the deal would be approved by your office, I would not dare have the power line cut in and heavy centrif. pump etc. installed which would entail an expense of many hundreds of dollars more.

Zinniman Mine
Mitchell County, North Carolina

Dear Mr. Bowman:

Reference is made to your application for Government assistance to explore the subject property.

Our examining engineers have been unable to make an examination of your property because of the flooded condition of the mine workings. It will be appreciated if you will make arrangements to have the mine unwatered and in condition for a field examination at the earliest opportunity. Please notify the Field Team at Knoxville, Tennessee, when this is accomplished.

Prompt attention to this matter will enable us to continue with the processing of your application.

Sincerely yours,

Zimmman Mine
Mitchell County, N.C.

Dear Mr. Laurence:

Acknowledge receipt your letter 12th inst. Had not been by office for ten days or so.

Regret that your Field Rep did not have opportunity see Mr. Sparks. (Mr. Sparks is experienced in mining and is native of county. Mr. Tanner is office accountant.)

I am communicating with Mr. Sparks regarding pumping water from shaft. Will advise you as soon as possible.

I can gratefully state: am improving daily.

Thank you. Faithfully yours,

J. C. Bowman Sr.

Re: DMEA-4435 (mica)
Zinniman Mine, Mitchell
County, N.C.

Dear Mr. Bowman:

Our field men visited Mr. A. C. Tainter in Spruce Pine March 7 and discussed the possibilities of visiting the Zinniman mine. Unless the mine workings are dewatered for study by our field men, little can be accomplished by an examination at this time. I expect Mr. Tainter has written you regarding the discussion with him. I will wait for further word from you about dewatering the mine before making arrangements for an examination of the property. If you will arrange with Mr. Tainter or Mr. Sparks to pump out the shaft, we will then complete the examination.

BUREAU OF MINES
WASHINGTON 25, D. C.

August 29, 1956

Memorandum

To: Nonmetallic Minerals Division
Defense Minerals Exploration Administration

From: W. F. Dietrich, Chief
Branch of Ceramic and Fertilizer Materials

Subject: DMEA-4435 (mica)

Applicant: J. C. Bowman

Name and Location of Property: Zinnman Mine, Mitchell County, N. C.

Date Application Rec'd. by Br. of Ceramic & Fertilizer Materials: 8/24/56

Comments:

1. This application covers same mine as DMEA 2646 which was abandoned and the present applicant should be informed of the Government lien against this property, if any.

2. This deposit remains a good possibility for the production of strategic mica.

Recommendation:

It is recommended that the field team visit this mine when in that vicinity to determine condition of the shaft and work out an exploration program.

Signed
W. F. Dietrich

Re: Docket No. DMEA-4435-mica
J. C. Bowman
Zinniman Mine
Mitchell County, North Carolina

Dear Mr. Bowman:

Reference is made to your application for Government assistance to explore the subject property.

Please be advised that we are unable to begin the processing of your application because your lease and the Consent to Lien are not acceptable. Enclosed are our copy of the lease, the old Consent to Lien and seven partially prepared copies of a new Consent to Lien.

The two years lease is of too short duration since you indicate that you will require up to twenty months to complete the proposed exploration work. The minimum acceptable period is five years with a five year renewal option. The legal land description in the lease cannot be plotted to enclose the acreage indicated. We must have a corrected description that includes the fourteen acre tract owned by Charles and Pearl Stamey and the three acres owned by M. C. Pitman.

Please have the enclosed Consent to Lien signed by M. C. Pitman, Charles and Pearl Stamey. Fill in the date of the lease where indicated and on the lines under paragraph 4, indicate whether there is a lien or mortgage on either tract. If there is none, insert the word "none". The lines must not be left blank.

Processing of your application will be held in abeyance pending the receipt of the above requested properly executed documents.

Sincerely yours,

Lawrence G. Houk, Chief
Nonmetallic Minerals Division

August 27, 1956

RECEIVED
AUG 28 1956

Re: DMEA 4435 (Mica)
J. C. Bowman
Zinniman Mine
Mitchell Co., N. C.

Memorandum

To: L. G. Houk, Defense Minerals Exploration Administration

From: N. E. Nelson, U. S. Geological Survey

Subject: Review of application.

The applicant requests assistance in completing the exploration project originated by Robert Baker under Contract Idm-E444.

Under that contract a shaft was deepened from 46 to 93 feet. The final report says, " . . . pegmatite containing some mica occurs in the shaft from about the 53- to the 93-foot level." Also, "This deposit remains a good possibility for the production of strategic mica."

The cost of the project was: $3,170.00
Government share $2,853.00

The estimate of the cost of the completed project was $7,370.00. Should the same estimate hold for the revised project the total Government outlay would be $6,003.00 of which $2,853.00 would not be secured.

The comment of the examiners on the mica content between 53 and 93 feet is not as flattering as might be expected considering the statement concerning the possibilities. No doubt another look as proposed by the Field Team should be had.

Referral of the application to the Field Team is recommended.

August 22, 1956

Memorandum

To: Operating Committee, DMEA, Washington, D. C.

From: Field Team, DMEA, Region V, Knoxville, Tennessee

Subject: Application from J. C. Bowman, Penland, N. C. (Mica) Zinniman Mine, Mitchell County, North Carolina

Enclosed are three copies of the subject application, received here today, with one copy of the lease and six signed copies of the Consent to Lien. The fourth copy of the application is being kept for our use.

Under contract Idm-E444 (Docket No. DMEA-2646), Robert Baker began and then abandoned work at the Zinniman mine. This applicant proposes to complete that unfinished work. We are in favor of completing that work and recommend approval of a contract. Because 3½ years have elapsed since abandonment of the original contract, and because of our present field examiners only Mr. Shirley has seen this mine, we will request the examiners to visit and inspect this mine at the earliest convenient date in September, so that we can report to you on its present condition.

The Field Team Final Report on DMEA-2646 states that, "This deposit remains a good possibility for the production of strategic mica."

Dear Mr. Laurence:

Re: DMEA-2646, Idm-Ehhh - Mica
Zinnman Mine
Mitchell County, N. C.

Attached application.
Hope same is in order.
Experienced some delay - account some property had been sub-divided, but records are now clear and ample room for development is on tracts covered by leasehold and lien.

The shaft timbering is intact, but some debris is in present bottom with water. Hope you will have Field Engineers examine and advise me before any start is made.

Very truly yours,

/s/ J. C. Bowman

Metal or Mineral Mica
Date Received 8-24-56
Estimated Cost not given
Participation (Government %)

INSTRUCTIONS

1. *Name of applicant.*—(*a*) State here your full legal name, in the form in which you will wish to contract, and your mailing address: J. C. Bowman
Penland, N.C.

(*b*) If other than an individual, add to your name above whether a corporation, partnership, etc., and the name of the State in which incorporated or otherwise organized.

(*c*) If a corporation, add to above statement, titles, names and addresses of officers.

(*d*) If a partnership, add to the above statement the names and addresses of all partners.

2. *General.*—Read DMEA Order 1, "Government Aid in Defense Exploration Projects," before completing this application. Submit this application and all accompanying papers in quadruplicate (four copies), with your name and address on each sheet of the application and on all accompanying papers. Where sufficient space is not provided on the form for all required information, state it on an accompanying paper, with a reference in each case to the instruction to which it refers by number. Comply with all applicable instructions; or, if not applicable, so state. File the application with Defense Minerals Exploration Administration, Department of the Interior, Washington 25, D. C., or with the nearest field executive officer thereof.

3. *Applicant's property rights.*—(*a*) State the legal description of the land upon which you wish to explore, including all land which you possess or control that may be benefited by the exploration, and excluding any land or interest in land which is not to be included in the exploration project contract Attached

(*b*) State any mine name by which the property is known. Zinniman Mine

(*c*) State your interest in the land, whether owner, lessee, purchaser under contract, or otherwise Lessee

(*d*) If you are not the owner, submit with this application a copy of the lease, contract, or other document under which you control the property. attached

(*e*) If you own the land, describe any liens or encumbrances on it

(*f*) If the land consists of unpatented claims, add to the description above, the book and page numbers for each recorded location notice.

RECEIVED
AUG 22 1956
Knoxville, Tenn.

4. *Physical description.*—(*a*) Describe in detail any mining or exploration operations which have been or now are being conducted upon the land, including existing mine workings and production facilities. State your interest, if any, in such operations. Also describe accessibility of mine workings for examination purposes. attached

(*b*) State past and current production, and ore reserves, if any, giving quantities and grades. unknown

(*c*) Describe the geologic features of the property, including mineralization, type of deposit (vein, bedded, etc.), and your reasons for wishing to explore. Illustrate with maps or sketches. Send with your application (but not necessarily as a part of it) any geologic or engineering report, assay maps, or other technologic information you may have, indicating on each whether you require its return to you. attached

(*d*) State the facts with respect to the accessibility of the project: Access roads, distances to shipping, supply and residence points. attached

(*e*) State the availability of manpower, materials, supplies, equipment, water, and power. attached

16—66551-1

5. *The exploration project.*—(*a*) State the mineral or minerals for which you wish to explore RUM MICA

(*b*) Describe fully the proposed work, including a map or sketch of the property showing a plan (and cross sections if needed) of any present mine workings, and the location of the proposed exploration work as related to such features as contacts, veins, ore-bearing beds, etc. attached

(*c*) The work will start within 30-45 days and be completed within 24 months from the date of an exploration project contract.

(*d*) State the operating experience and background of the applicant with relation to the ability to carry out such exploration project, and also that of the person or persons who will supervise the operations. attached

6. *Estimate of costs.*—Furnish a detailed estimate of the costs of the proposed work (you will have to use a separate sheet), under the following headings. Add the totals under all headings to give the estimated total cost of the project: attached

(*a*) *Independent contracts.*—(Note.—If the applicant does not intend to let any of the work to contractors, write "none" after this item. To the extent that the work is to be contracted, do not repeat the cost of the contract-work in subsequent items.) State the cost of any proposed independent contracts for the performance of all or any part of the work, expressed in terms of units of work (such as per foot of drilling, per foot of drifting, per hour of bulldozer operations, per cubic yard of material moved, etc.). attached

(*b*) *Labor, supervision, consultants.*—Include an itemized schedule of numbers, classes and rates of wages, salaries or fees for necessary labor, supervision and engineering and geological consultants. attached

(*c*) *Operating materials and supplies.*—Furnish an itemized list, including items of equipment costing less than $50 each, and power, water and fuel. attached

(*d*) *Operating equipment.*—Furnish an itemized list of any operating equipment to be rented, purchased, or which is owned and will be furnished by the Operator, with the estimated rental, purchase price, or suggested use-allowance based on present value, as the case may be. attached

(*e*) *Rehabilitation and repairs.*—Furnish a detailed list showing the cost of any necessary initial rehabilitation or repairs of existing buildings, installations, fixtures, and movable operating equipment, now owned by the Operator and which will be devoted to the exploration project. attached

(*f*) *New buildings, improvements, installations.*—Furnish a detailed list showing the cost of any necessary buildings, fixed improvements, or installations to be purchased, installed or constructed for the benefit of the exploration project. attached

(*g*) *Miscellaneous.*—Furnish a detailed list showing the cost of repairs to and maintenance of operating equipment (not including initial rehabilitation or repairs of the Operator's equipment), analytical work, accounting, workmen's compensation and employers' liability insurance, and payroll taxes. attached

(*h*) *Contingencies.*—Give an estimate of any necessary allowances for contingencies not included in the costs stated above.

NOTE.—No items of general overhead, corporate management, interest, taxes (other than payroll and sales taxes), or any other indirect costs, or work performed or costs incurred before the date of the contract, should be included in the estimate of costs. attached

7. (*a*) Are you prepared to furnish your share of the cost of the proposed project in accordance with the regulations on Government participation (Sec. 7, DMEA No. 1)? yes

(*b*) How do you propose to furnish your share of the costs?

☐ Money ☐ Use of equipment owned by you ☑ Other attached

Explain in detail on acompanying paper.

CERTIFICATION

The undersigned, whether as an individual, corporate officer, partner, or otherwise, both in his own behalf and acting for the applicant, certifies that the information set forth in this form and accompanying papers is correct and complete, to the best of his knowledge and belief.

Dated August 18, 1956
