Iron and Ferro-Alloys Division, DMEA

2936

Denial of application for exploration assistance in an unstated amount.
Docket No. DMEA 2936 - Nickel, Tin, Chromium, Vanadium, and Uranium
John W. Anderberg
Delusion Claims
Ada County, Idaho

The denial of the subject application by this Division is based on the following information:

1. The application was poorly prepared and does not contain information essential to an evaluation of the merits of the reported occurrences. Normally the application would be returned to the applicant for more information, but the Field Team advises us that in this case such action is unwarranted.

2. Assay sheets accompanying the application do not indicate that the referenced metals are present in more abundance than may be expected as constituents of many types of rocks.

3. Several samples submitted by the applicant to the Bureau of Mines for identification failed to contain any minerals of economic value.

4. The Field Team suggested that the subject application be denied.

5. The Commodity Divisions of the Geological Survey and the Bureau of Mines concur with denial of the subject application.

re: Docket No. [illegible]
[illegible]
John A. Anderberg
Relation Claims
[illegible], Idaho

Dear Mr. Anderberg:

Your application for aid for an exploration project and other data available to us in Washington concerning the mineralization on the relation claims have been reviewed.

Projects approved by the Defense Minerals Exploration Administration must, in its judgment, show definite promise of yielding materials of acceptable grade in quantities that will significantly improve the mineral supply position for the National Defense Program.

Regrettably, on all our information indicates to us that the probability of disclosing minable ore reserves of the referenced metals by your proposed program is not sufficiently promising to justify Government participation. We regret to advise you, under those circumstances, that your application for exploration assistance is denied.

We wish to thank you for your interest in the Defense Minerals Program and for bringing your property to our attention.

Sincerely yours,

C. O. Mittendorf

Subject: DMEA-2936
Re: Exploration Assistance

My dear Mr. Anderberg:

The receipt of your application dated March 9, 1953 for exploration assistance under the Defense Production Act of 1950, as amended, is hereby acknowledged.

Your application has been assigned Docket Number DMEA-2936 and referred to the Iron and Ferro-Alloys Division.

Kindly refer to DMEA-2936 in any future correspondence relating to your application.

Sincerely yours,

ROBERT E. ADAMS

Washington 25, D. C.

DEPARTMENT OF THE INTERIOR
Defense Minerals Administration
RECEIVED
MAR 23 1953

Dear Mr. Selfridge:

Enclosed are three copies of a DMEA application submitted by John W. Anderberg of Boise, Idaho. One copy of the application has been retained at this office.

The application is very poorly prepared and in its present state should not receive further consideration. Under normal conditions we would return this application to the applicant for more information; however, perusal of the application and other correspondence from the applicant suggests that no further consideration of the subject property is warranted. Several samples from the applicant's property, sent to the U. S. Bureau of Mines for identification, have failed to contain any minerals of economic value. Furthermore, none of the assays accompanying the application show any metallic content of interest.

It is suggested that the application be denied on the grounds of the extremely remote possibility of discovering commercial amounts of the minerals for which the applicant wishes to explore.

No further field action will be taken on this application unless requested by Washington officials.

Sincerely yours,

Thor H. Kiilsgaard

INSTRUCTIONS

1. *Name of applicant.*—(*a*) State here your full legal name, in the form in which you will wish to contract, and your mailing address: John W Anderberg
1520 No. 7th
Boise
Idaho.

(*b*) If other than an individual, add to your name above whether a corporation, partnership, etc., and the name of the State in which incorporated or otherwise organized.

(*c*) If a corporation, add to above statement, titles, names and addresses of officers.

(*d*) If a partnership, add to the above statement the names and addresses of all partners.

2. *General.*—Read DMEA Order 1, "Government Aid in Defense Exploration Projects," before completing this application. Submit this application and all accompanying papers in quadruplicate (four copies), with your name and address on each sheet of the application and on all accompanying papers. Where sufficient space is not provided on the form for all required information, state it on an accompanying paper, with a reference in each case to the instruction to which it refers by number. Comply with all applicable instructions; or, if not applicable, so state. File the application with Defense Minerals Exploration Administration, Department of the Interior, Washington 25, D. C., or with the nearest field executive officer thereof.

3. *Applicant's property rights.*—(*a*) State the legal description of the land upon which you wish to explore, including all land which you possess or control that may be benefited by the exploration, and excluding any land or interest in land which is not to be included in the exploration project contract ALL of Lot 6 - Except State Highway
Sec. 3 Township 2 No - Range 3 - East. B. M.
Placer Location
Delusion 1-2-

(*b*) State any mine name by which the property is known.

(*c*) State your interest in the land, whether owner, lessee, purchaser under contract, or otherwise

(*d*) If you are not the owner, submit with this application a copy of the lease, contract, or other document under which you control the property.

(*e*) If you own the land, describe any liens or encumbrances on it

(*f*) If the land consists of unpatented claims, add to the description above, the book and page numbers for each recorded location notice.
4 - Complied with Proof of Labor for 2 yrs. 50 Ft From State Hy.

4. *Physical description.*—(*a*) Describe in detail any mining or exploration operations which have been or now are being conducted upon the land, including existing mine workings and production facilities. State your interest, if any, in such operations. Also describe accessibility of mine workings for examination purposes.

(*b*) State past and current production, and ore reserves, if any, giving quantities and grades.

(*c*) Describe the geologic features of the property, including mineralization, type of deposit (vein, bedded, etc.), and your reasons for wishing to explore. Illustrate with maps or sketches. Send with your application (but not necessarily as a part of it) any geologic or engineering report, assay maps, or other technologic information you may have, indicating on each whether you require its return to you.

(*d*) State the facts with respect to the accessibility of the project: Access roads, distances to shipping, supply and residence points. State Highway - 5 - Miles from Boise.

(*e*) State the availability of manpower, materials, supplies, equipment, water, and power. Boise.

c. Basalt Formation Pneumatolytis Origin
Gold - Silver Nickel - Uranium

16—66551-1

5. *The exploration project.*—(*a*) State the mineral or minerals for which you wish to explore NICKEL TIN CHROMIUM VANADIUM

(*b*) Describe fully the proposed work, including a map or sketch of the property showing a plan (and cross sections if needed) of any present mine workings, and the location of the proposed exploration work as related to such features as contacts, veins, ore-bearing beds, etc.

(*c*) The work will start within ..... days and be completed within ..... months from the date of an exploration project contract.

(*d*) State the operating experience and background of the applicant with relation to the ability to carry out such exploration project, and also that of the person or persons who will supervise the operations.

6. *Estimate of costs.*—Furnish a detailed estimate of the costs of the proposed work (you will have to use a separate sheet), under the following headings. Add the totals under all headings to give the estimated total cost of the project:

(*a*) *Independent contracts.*—(Note.—If the applicant does not intend to let any of the work to contractors, write "none" after this item. To the extent that the work is to be contracted, do not repeat the cost of the contract-work in subsequent items.) State the cost of any proposed independent contracts for the performance of all or any part of the work, expressed in terms of units of work (such as per foot of drilling, per foot of drifting, per hour of bulldozer operations, per cubic yard of material moved, etc.).

(*b*) *Labor, supervision, consultants.*—Include an itemized schedule of numbers, classes and rates of wages, salaries or fees for necessary labor, supervision and engineering and geological consultants.

(*c*) *Operating materials and supplies.*—Furnish an itemized list, including items of equipment costing less than $50 each, and power, water and fuel.

(*d*) *Operating equipment.*—Furnish an itemized list of any operating equipment to be rented, purchased, or which is owned and will be furnished by the Operator, with the estimated rental, purchase price, or suggested use-allowance based on present value, as the case may be.

(*e*) *Rehabilitation and repairs.*—Furnish a detailed list showing the cost of any necessary initial rehabilitation or repairs of existing buildings, installations, fixtures, and movable operating equipment, now owned by the Operator and which will be devoted to the exploration project.

(*f*) *New buildings, improvements, installations.*—Furnish a detailed list showing the cost of any necessary buildings, fixed improvements, or installations to be purchased, installed or constructed for the benefit of the exploration project.

(*g*) *Miscellaneous.*—Furnish a detailed list showing the cost of repairs to and maintenance of operating equipment (not including initial rehabilitation or repairs of the Operator's equipment), analytical work, accounting, workmen's compensation and employers' liability insurance, and payroll taxes.

(*h*) *Contingencies.*—Give an estimate of any necessary allowances for contingencies not included in the costs stated above.

NOTE.—No items of general overhead, corporate management, interest, taxes (other than payroll and sales taxes), or any other indirect costs, or work performed or costs incurred before the date of the contract, should be included in the estimate of costs.

7. (*a*) Are you prepared to furnish your share of the cost of the proposed project in accordance with the regulations on Government participation (Sec. 7, DMEA No. 1)?

(*b*) How do you propose to furnish your share of the costs?

☐ Money ☑ Use of equipment owned by you ☐ Other

Explain in detail on acompanying paper.

CERTIFICATION

The undersigned, whether as an individual, corporate officer, partner, or otherwise, both in his own behalf and acting for the applicant, certifies that the information set forth in this form and accompanying papers is correct and complete, to the best of his knowledge and belief.

March 9, 1953
Boise, Idaho

Dear Sir:

I have done all the work myself by pick and shovel - I have many test holes dug, also three large holes - one 20 ft. x 16 ft - one - 4 - 12 - one 3-6 ft. I have sent out many samples for assays also 5 spectrographic analysis. I have total value 9.90 ton for silver - 19.60 gold to ton. I am enclosing spectrographic analysis.

I have made chemical analysis on this ore myself and find nickel - some cobalt, some beryllium, and tin and uranium so I feel if I could get down further and in further, I will find the high grade ore.

I have spent several hundred dollars for assays and chemicals so have only 100.00 to work with and a truck.

Thanking you, I remain

/s/ John W. Anderberg

I worked 10 yrs in chemical lab. at American Smelting & Ref. Co. at Salt Lake.

A. H. HOLLAND, PRES.-TREAS. EDMUND E. PHILLIPS, VICE-PRES.—GEN. MGR. M. E. HOLLAND, SECRETARY

RADIOACTIVE SAMPLE REPORT

Sample Reference No. UP-274-1 Date: Nov. 24, 1952

Sample Submitted by: John W. Anderburg
1520 No. 7th West
Boise, Idaho

Name and Location of Property:

Nature of Sample: Quartz, feldspars and hematite.

.005

Analysis of Sample: Radiometric analysis indicated 0.005% U_3O_8 equivalent.

Remarks: The white metal is lead with a quartz, feldspar fusion. No fluorescence was detected.

June 7, 1952.

Mr. John W. Anderberg
1520 North 7th Street
Boise, Idaho.

Dear Mr. Anderberg:

Re: SE Number 354982.

You sent us a sample of rock marked "Delusion", and you asked us to get a chemical determination for Uranium Oxide.

When the sample was received it indicated radioactivity with the geiger counter. We crushed and ground it and made the chemical determination and found none, as reported herewith.

We then checked the ground material with the geiger counter and there was no radioactivity indicated. This condition is sometimes encountered. The presumption is that the rock contains radium emanations, which are determined by the geiger counter and which are driven out of the rock by grinding. If any mineral were present in the rock, grinding would not affect the geiger counter determination.

It may be presumed that the rock is in the near vicinity of radioactive minerals.

We enclose our price list. You will note the charge is $10.00 for the work we have done. Shall we keep the $0.50 and credit it to your account for future work or do you wish it returned?

Thanking you for this work, we are,

Very truly yours,

SPOKANE, WASH.

Do not return.
The deposit is from hot water springs.
An intrusion of slate, consisting of serpentine belt - pyroxene, decomposed felspar + alteration of the mica, beryl, opal, zirconion, vanadium, gold silver nickel tin chromium and trace of cobalt. Indications heavy vanadium green sands - uranium deposit.
