Memorandum

To: Landon F. Strobel, Executive Secretary, DMA

Through: Director, Supply Division

From: Tungsten Branch DMA-1625-X Tungsten

Subject: Exploration Project Application of
The Ryte Company
6658 Whitley Terrace
Hollywood 28, California

The Ryte Company applied for an exploration project to cost $ 29,605.00, the work to be done on the four Shooting Star claims located on U. S. Highway 6 at a point 8½ miles easterly from Basalt, Esmeralda County, Nevada.

The Company has done no adequate preliminary sampling to demonstrate a good possibility of finding tungsten ore. They have not prepared a map to show the work planned, and have not given an intelligent description of the proposed project. The cost estimates given in answer to question 23, MF-103, are as follows:

(a)	4 miners at $12.00 per day 60 days	$2,880
(b)	1 supervisor at $20 per day 60 days	1,200
(c)	No repairs necessary to existing structures	
(d)	Additional trailer accommodation; also road construction	6,500
(e)	Lamps, steel bits, powder, miscellaneous	2,000
(f)	Core drilling equipment and operators	10,000
(g)	To be furnished by operator at rental of $60 per day: compressor, attendants, air jack operators (sic) for 15 days	900
	Rental TD9 and operator at $125 per day, 15 days	1,875
(h)	Miscellaneous items	750
(i)	Living facilities; water; groceries; cook for 60 days	3,500
		$ 29,605

Items (d) and (i) totalling $10,000, or one third of the project, cover only food and housing for 2 months, and are many times too large. Any road construction is probably included under (g).

The application was denied for these reasons.

Subject: Application for exploration by
The Ryte Company
6658 Whitley Terrace
Hollywood 28, California

In reply please refer to:
DMA 1424-I — Tungsten

The Ryte Co. applied for an exploration project to cost $30,555, the work to be done on the 6 Comstock Claims, 3½ miles easterly from Basalt, Esmeralda County, Nevada and 1½ miles from U. S. Highway 6.

The company has done no adequate preliminary sampling to demonstrate a good possibility of finding tungsten ore. They have not prepared a map to show the work planned, and have not given an intelligent discription of the proposed project. The costs given in answer to question 23, MF-103, are as follows:

(a)	4 miners @ $14 per day for 30 days	$ 1,680
(b)	1 supervisor at $20 per day for 30 days	600
(c)	No repairs necessary to existing structures	
(d)	Trailer quarter and 2 mile road construction	[illegible]
(e)	Lamps, bits, steel, heavy duty tools,	2,500
(f)	Core drilling equipment and operators	2,500
(g)	Rental of applicant's equipment	
	D 9 at $125 per day	
	Compressor and jacks at $60 per day	2,775
(h)	Welding equipment	3,000
(i)	Living facilities, water, groceries, etc.	2,500
		30,555

Items (d) and (i) totalling $11,500, more than one third of the project, cover only food and housing for 30 days, along with some road construction, the major part of which is probably covered by bulldozer rental (item g).

The application was denied for these reasons.

In reply, please refer to
DWA-1624-X and DWA-1625-X

Gentlemen:

We have carefully reviewed your applications for 2 tungsten exploration projects costing $29,605 on the Shooting Star claims (DWA-1625-X) and $30,555 on the Comstock claims (DWA-1624-X), Miller Mountain district, near Basalt, Esmeralda County, Nevada.

You have not presented a clear picture of the exploration proposed, with maps, and you have not stated the amount and location of proposed drilling. The list of estimated costs includes about $10,000 to provide housing and sustenance for 7 men over a period of 2 months, on the Shooting Star project, which is excessive. The preliminary sampling that you have done is not sufficient to justify a full-scale exploration enterprise.

We regret that we are unable to approve the projects as proposed.

Very truly yours,

Tom Lyon

INSTRUCTIONS

Read Mineral Order 5, Regulations Governing Government Aid in Defense Projects, before completing this application. Submit four signed copies of the application to Defense Minerals Administration, Department of the Interior, Washington 25, D. C., or to the nearest field executive officer thereof, with your name and address on each sheet of the application and all accompanying papers. If any question is inapplicable, or if you cannot answer it, so state on the form. Where the space provided for answer is insufficient, answer on a separate sheet, annex it to the application form, and refer to it in space for answer. If the application is approved, you will be presented with an exploration project contract on Form MF-200, for your signature.

THE APPLICANT

*1. Is applicant an individual, partnership, or corporation?
*2. If a partnership, state names and addresses of partners.
*3. If a corporation, state names and addresses of officers, directors, and five largest stockholders.
*4. Describe the mining and general business experience of (*a*) the applicant, and (*b*) the person or persons who will manage the project.
*5. Are you the owner or the lessee of the property?
6. If owner, state what claims, liens, or encumbrances, if any, are against the property.
7. If lessee, attach a copy of the lease and state if it is in good standing.

NOTE.—It will be necessary to procure and attach to the exploration project contract agreements of claimants, lienors, encumbrances and lessors subordinating their interests in the property to the interest of the Government under the contract.

8. Furnish current financial statement, showing assets and liabilities, and a profit and loss statement.
9. How much money is applicant prepared to invest in proposed project? Is it sufficient to pay your part of the cost of the project as detailed in question 23 of this application form, in accordance with the regulations on Government participation (Section 9 of Mineral Order 5)?

*If you have already answered these questions on MF-100, you are not required to answer the questions for this application.

16—64067-1

THE PROPERTY

10. (*a*) Give a description of the real property that will be in any way involved in the exploration project, including any existing mine or operating property.
    (*b*) Give the legal description of the exact parcel, plot, or area upon which the exploration is to be conducted.

    NOTE.—If both areas are the same, so state. The only obligation to repay the Government is from the net earnings from any commercial discovery made in the area specified in (*b*) above in which the exploration is to be conducted, and the expenditure of funds which may be charged as costs of the project must be limited to that area or to work necessary to perform the exploration in that area.

*11. State the present and former names of the property, if any.
*12. State, in detail, the location of the property with reference to towns, railroads, roads, shipping points, including distances and directions and kinds and conditions of roads.
*13. State source and quantity of water available for operations and its sufficiency at all seasons.
State amount of power to be used, rate per hour or other cost, and source.
*14. Describe any existing useable facilities, equipment, buildings, or structure now on the property that will be devoted to the exploration work.
15. State in detail how the ore could be shipped and how and where milled.
*16. History:
    (*a*) Give a statement, as complete as possible, of previous exploration, development, operation, and production of property, with reasons for any past suspensions of operations.
    (*b*) State briefly the known history and production of adjoining and neighboring properties.
    (*c*) Furnish any available (private) reports that may apply to this application, including results of mine examinations, recommended exploration and development, and metallurgical investigations.
*17. Production:
    (*a*) If mine is in production, furnish the following information: **Not in production**

	Tons per day	*Grade or analysis*	*Cost per ton*	*Net value per ton*
(1) Mining				
(2) Milling				
(3) Shipped or sold				

*18. Ore or mineral reserves: (If property is or has been operating.)
    (*a*) Describe the ore or mineral deposits briefly.
    (*b*) Submit available maps and assay data.
    (*c*) Give estimated tonnage and grade of each class of ore reserves.
19. State any conditions or circumstances regarding the property not sufficiently brought out by the foregoing questions.

THE EXPLORATION

20. For what mineral or minerals and for what types of deposits and ores will the exploration be conducted?
21. Describe briefly, but concisely, the proposed work and the estimated time required to complete it.

    NOTE.—The Government will not participate in a project that will require more than 2 years to complete.
22. Furnish statement of the geological basis of the project with particular emphasis on factors leading the operator to expect the finding of commercial ore bodies. This statement should be accompanied by supporting maps such as geological maps, maps of the proposed openings and assay maps, sample lists, and other pertinent data.

THE REQUIREMENTS AND COSTS

23. Tabulate in the form of an itemized statement with a sum for each item the estimated requirements and costs of the project so that the total will give the estimated cost of the project in which the Government will participate, as follows:
    (*a*) Labor, by numbers and classes (miners, muckers, millmen, etc.), with wages of each.
    (*b*) Supervisors, by numbers and positions, with salaries of each.
    (*c*) Cost of necessary repairs to existing facilities, structures, and buildings.
    (*d*) Cost of necessary installation or construction of additional facilities, structures, and buildings.
    (*e*) Cost of items of equipment, not now owned by the applicant which must be purchased for operations at a cost of $50 or more each.
    (*f*) Cost of rental for equipment which the operator proposes to rent.
    (*g*) Rental value of items of equipment which the operator now owns and which will be devoted to the work.
    (*h*) Cost of materials and supplies, including items of equipment costing less than $50 each.
    (*i*) Cost of power, water, utilities, and any other items not provided for above.
24. Furnish a time schedule of the project, stated in terms of months after project is approved, showing progress expected to be accomplished and the money expected to be spent.

CERTIFICATION

The undersigned company, and the official executing this certification on its behalf, hereby certify that the information contained in this form and accompanying papers is correct and complete to the best of their knowledge and belief.

THE RYTE COMPANY (Name of company) — By Robert A. Brown (Signature of authorized official)

May 24, 1951 (Date) — President (Title)

Title 18, U. S. Code (Crimes), Section 1001, makes it a criminal offense to make a willfully false statement or representation to any department or agency of the United States as to any matter within its jurisdiction.

*Same as footnote on page 1.

16—64067-1 U. S. GOVERNMENT PRINTING OFFICE

Form MF -103 THE RYTE COMPANY 6658 Whitney Terrace Hollywood 28 Cal

1-2-3-4-5 are all answered on MF 100

6- The Ryte Company is the Lessee-no claims, liens against the property.

7- Copy of the lease attached. It is in good standing.

8- Current financial statement attached

9- Seventy five hundred dollars ($7500.00). This amount covers the applicants part of the cost as detailed in question 23 of this form, in accordance with the regulations on Government participation. The applicant is prepared to meet his portion of cost of proposed project in cash, in use of equipment and in labor.

10- (A) The Shooting Star claims 1 - 2 - 3 - 4 - located 8½ miles Easterly of Basalt Highway Station along Highway #6; highway stations A439+15-A444+25 & A449+60 on the claims. All in Esmeralda County, Nevada.
(B) The legal description is the same as above and is the area upon which the exploration is to be conducted.

11-12-13-14 answered on MF 100

15- Excellent paved highway through this property. Ore to be shipped by truck to mill at Bishop, California-66 miles.

16- answered on MF 100 - also Nos 17 & 18

19- Purpose of exploration is to determine extent of ore bodies. If substantial deposits are defined, planned operations must be worked out.

20- The exploration will be conducted for scheelite ore. Massive deposits are indicated with open cut mining operations.

21- Exploration requires careful geological study of the area and core drilling. Sixty working days are estimated as maximum time required to complete project.

22- Massive ledge of ore has been exposed for horizontal distance of 240' with a 6' vertical face. Composite sample from exposed face assays 0.50% to 1.00% depending upon assayer. Attached find report from Ed. Eisenhauer showing value of 0.66%. Outcrop shows for 1500' in the direction (NE) of the Black Horse property, now producing and shipping from the same formation. Lamping shows sustained values in the 1500' outcrop as well as in the ledges above and below the exposed face. This ore body is a limestone-igneous rock replacement.

23- (a) 4 miners @ $12.00 per day 60 days $ 2880.00
(b) 1 supervisor @ $20 per day 60 days 1200.00
(c) none
(d) Additional Trailer accommodation; road construction 6500.00
(e) Lamps-steel bits-powder-mscl 2000.00

INSTRUCTIONS

Read Mineral Order 5, Regulations Governing Government Aid in Defense Projects, before completing this application. Submit four signed copies of the application to Defense Minerals Administration, Department of the Interior, Washington 25, D. C., or to the nearest field executive officer thereof, with your name and address on each sheet of the application and all accompanying papers. If any question is inapplicable, or if you cannot answer it, so state on the form. Where the space provided for answer is insufficient, answer on a separate sheet, annex it to the application form, and refer to it in space for answer. If the application is approved, you will be presented with an exploration project contract on Form MF-200, for your signature.

THE APPLICANT

*1. Is applicant an individual, partnership, or corporation?
*2. If a partnership, state names and addresses of partners.
*3. If a corporation, state names and addresses of officers, directors, and five largest stockholders.
*4. Describe the mining and general business experience of (*a*) the applicant, and (*b*) the person or persons who will manage the project.
*5. Are you the owner or the lessee of the property?
6. If owner, state what claims, liens, or encumbrances, if any, are against the property.
7. If lessee, attach a copy of the lease and state if it is in good standing.

NOTE.—It will be necessary to procure and attach to the exploration project contract agreements of claimants, lienors, encumbrances and lessors subordinating their interests in the property to the interest of the Government under the contract.

8. Furnish current financial statement, showing assets and liabilities, and a profit and loss statement.
9. How much money is applicant prepared to invest in proposed project? Is it sufficient to pay your part of the cost of the project as detailed in question 23 of this application form, in accordance with the regulations on Government participation (Section 9 of Mineral Order 5)?

*If you have already answered these questions on MF-100, you are not required to answer the questions for this application.

16—64067-1

THE PROPERTY

10. (*a*) Give a description of the real property that will be in any way involved in the exploration project, including any existing mine or operating property.
    (*b*) Give the legal description of the exact parcel, plot, or area upon which the exploration is to be conducted.

    NOTE.—If both areas are the same, so state. The only obligation to repay the Government is from the net earnings from any commercial discovery made in the area specified in (*b*) above in which the exploration is to be conducted, and the expenditure of funds which may be charged as costs of the project must be limited to that area or to work necessary to perform the exploration in that area.

*11. State the present and former names of the property, if any.
*12. State, in detail, the location of the property with reference to towns, railroads, roads, shipping points, including distances and directions and kinds and conditions of roads.
*13. State source and quantity of water available for operations and its sufficiency at all seasons. State amount of power to be used, rate per hour or other cost, and source.
*14. Describe any existing useable facilities, equipment, buildings, or structure now on the property that will be devoted to the exploration work.
15. State in detail how the ore could be shipped and how and where milled.
*16. History:
    (*a*) Give a statement, as complete as possible, of previous exploration, development, operation, and production of property, with reasons for any past suspensions of operations.
    (*b*) State briefly the known history and production of adjoining and neighboring properties.
    (*c*) Furnish any available (private) reports that may apply to this application, including results of mine examinations, recommended exploration and development, and metallurgical investigations.
*17. Production:
    (*a*) If mine is in production, furnish the following information: Not in production

	Tons per day	*Grade or analysis*	*Cost per ton*	*Net value per ton*
(1) Mining				
(2) Milling				
(3) Shipped or sold				

*18. Ore or mineral reserves: (If property is or has been operating.)
    (*a*) Describe the ore or mineral deposits briefly.
    (*b*) Submit available maps and assay data.
    (*c*) Give estimated tonnage and grade of each class of ore reserves.
19. State any conditions or circumstances regarding the property not sufficiently brought out by the foregoing questions.

THE EXPLORATION

20. For what mineral or minerals and for what types of deposits and ores will the exploration be conducted?
21. Describe briefly, but concisely, the proposed work and the estimated time required to complete it.

    NOTE.—The Government will not participate in a project that will require more than 2 years to complete.
22. Furnish statement of the geological basis of the project with particular emphasis on factors leading the operator to expect the finding of commercial ore bodies. This statement should be accompanied by supporting maps such as geological maps, maps of the proposed openings and assay maps, sample lists, and other pertinent data.

THE REQUIREMENTS AND COSTS

23. Tabulate in the form of an itemized statement with a sum for each item the estimated requirements and costs of the project so that the total will give the estimated cost of the project in which the Government will participate, as follows:
    (*a*) Labor, by numbers and classes (miners, muckers, millmen, etc.), with wages of each.
    (*b*) Supervisors, by numbers and positions, with salaries of each.
    (*c*) Cost of necessary repairs to existing facilities, structures, and buildings.
    (*d*) Cost of necessary installation or construction of additional facilities, structures, and buildings.
    (*e*) Cost of items of equipment, not now owned by the applicant which must be purchased for operations at a cost of $50 or more each.
    (*f*) Cost of rental for equipment which the operator proposes to rent.
    (*g*) Rental value of items of equipment which the operator now owns and which will be devoted to the work.
    (*h*) Cost of materials and supplies, including items of equipment costing less than $50 each.
    (*i*) Cost of power, water, utilities, and any other items not provided for above.
24. Furnish a time schedule of the project, stated in terms of months after project is approved, showing progress expected to be accomplished and the money expected to be spent.

CERTIFICATION

*Same as footnote on page 1.

16—64067-1 U. S. GOVERNMENT PRINTING OFFICE

Form MF -103 THE RYTE COMPANY 6658 Whitley Ter Hollywood 28 Calif

1-2-3-4-5 are all answered on MF 100

6- The Ryte Company is the Lessee-no claims, liens against the property.

7- Copy of the lease attached. It is in good standing.

8- Current financial statement attached

9- Seventy five hundred dollars ($7500.00). This amount covers the applicants part of the cost as detailed in question 23 of this form, in accordance with the regulations on Government participation. The applicant is prepared to meet his portion of cost of proposed project in cash, in use of equipment and in labor.

10- (A) The Shooting Star claims 1 - 2 - 3 - 4 - located 8½ miles Easterly of Basalt Highway Station along Highway 6; highway stations A439415-A444425 & A449460 on the claims. All in Esmeralda County, Nevada.
(B) The legal description is the same as above and is the area upon which the exploration is to be conducted.

11-12-13-14 answered on MF 100

15- Excellent paved highway through this property. Ore to be shipped by truck to mill at Bishop, California-66 miles.

16- answered on MF 100 - also Nos 17 & 18

19- Purpose of exploration is to determine extent of ore bodies. If substantial deposits are defined, planned operations must be worked out.

20- The exploration will be conducted for scheelite ore. Massive deposits are indicated with open cut mining operations.

21- Exploration requires careful geological study of the area and core drilling. Sixty working days are estimated as maximum time required to complete project.

22- Massive ledge of ore has been exposed for horizontal distance of 240' with a 6' vertical face. Composite sample from exposed face assays 0.50% to 1.00% depending upon assayer. Attached find report from M. Eisenhauer showing value of 0.66%. Outcrop shows for 1500' in the direction (NE) of the Black Horse property, now producing and shipping from the same formation. Lamping shows sustained values in the 1500' outcrop as well as in the ledges above and below the exposed face. This ore body is a limestone-igneous rock replacement.

23- (a) 4 miners @ $12.00 per day 60 days $ 2880.00
(b) 1 supervisor @ $20 per day 60 days 1200.00
(c) none
(d) Additional Trailer accommodation; road construction 6500.00
(e) Lamps-steel bits-powder-msel 2000.00
(f) Core drilling equipment & operators 10000.00
(g) rental TD9 & operator $125 per day-15 days 1875.00
(h) rental compressor, attendant-air jack operators $60.00 per day for 15 days 900.00
(h) Miscellaneous items 750.00
(i) Living facilities;water; groceries;cook 60 days 3500.00
$29605.00

(sketch attached illustrating items)

24- On approval of the project the applicants will proceed immediately to start the exploration program which should be completed with sixty days or less and with the sum set forth , $29,605.00

Dear Sir;

Enclosed herewith are four copies each of MF 100 and MF 103. We have tried to convey the requested information as concisely as possible. Please advise us if additional facts are desired.

Within a week, or after June 1, 1951 some one of the partnership will be on the property, a tungsten property located in Nevada, 66 miles northeast of Bishop, California, or 52 miles S W of Mina, Nevada. In the meantime this is our address.

Very truly,

Robert A. Brown

INSTRUCTIONS

Read Mineral Order 5, Regulations Governing Government Aid in Defense Projects, before completing this application. Submit four signed copies of the application to Defense Minerals Administration, Department of the Interior, Washington 25, D. C., or to the nearest field executive officer thereof, with your name and address on each sheet of the application and all accompanying papers. If any question is inapplicable, or if you cannot answer it, so state on the form. Where the space provided for answer is insufficient, answer on a separate sheet, annex it to the application form, and refer to it in space for answer. If the application is approved, you will be presented with an exploration project contract on Form MF-200, for your signature.

THE APPLICANT

*1. Is applicant an individual, partnership, or corporation?
*2. If a partnership, state names and addresses of partners.
*3. If a corporation, state names and addresses of officers, directors, and five largest stockholders.
*4. Describe the mining and general business experience of (*a*) the applicant, and (*b*) the person or persons who will manage the project.
*5. Are you the owner or the lessee of the property?
6. If owner, state what claims, liens, or encumbrances, if any, are against the property.
7. If lessee, attach a copy of the lease and state if it is in good standing.

NOTE.—It will be necessary to procure and attach to the exploration project contract agreements of claimants, lienors, encumbrances and lessors subordinating their interests in the property to the interest of the Government under the contract.

8. Furnish current financial statement, showing assets and liabilities, and a profit and loss statement.
9. How much money is applicant prepared to invest in proposed project? Is it sufficient to pay your part of the cost of the project as detailed in question 23 of this application form, in accordance with the regulations on Government participation (Section 9 of Mineral Order 5)?

*If you have already answered these questions on MF-100, you are not required to answer the questions for this application.

16—64067-1

THE PROPERTY

10. (*a*) Give a description of the real property that will be in any way involved in the exploration project, including any existing mine or operating property.
    (*b*) Give the legal description of the exact parcel, plot, or area upon which the exploration is to be conducted.

    NOTE.—If both areas are the same, so state. The only obligation to repay the Government is from the net earnings from any commercial discovery made in the area specified in (*b*) above in which the exploration is to be conducted, and the expenditure of funds which may be charged as costs of the project must be limited to that area or to work necessary to perform the exploration in that area.

*11. State the present and former names of the property, if any.
*12. State, in detail, the location of the property with reference to towns, railroads, roads, shipping points, including distances and directions and kinds and conditions of roads.
*13. State source and quantity of water available for operations and its sufficiency at all seasons.
State amount of power to be used, rate per hour or other cost, and source.
*14. Describe any existing useable facilities, equipment, buildings, or structure now on the property that will be devoted to the exploration work.
15. State in detail how the ore could be shipped and how and where milled.
*16. History:
    (*a*) Give a statement, as complete as possible, of previous exploration, development, operation, and production of property, with reasons for any past suspensions of operations.
    (*b*) State briefly the known history and production of adjoining and neighboring properties.
    (*c*) Furnish any available (private) reports that may apply to this application, including results of mine examinations, recommended exploration and development, and metallurgical investigations.
*17. Production:
    (*a*) If mine is in production, furnish the following information: **Not in production**

	Tons per day	*Grade or analysis*	*Cost per ton*	*Net value per ton*
(1) Mining				
(2) Milling				
(3) Shipped or sold				

*18. Ore or mineral reserves: (If property is or has been operating.)
    (*a*) Describe the ore or mineral deposits briefly.
    (*b*) Submit available maps and assay data.
    (*c*) Give estimated tonnage and grade of each class of ore reserves.
19. State any conditions or circumstances regarding the property not sufficiently brought out by the foregoing questions.

THE EXPLORATION

20. For what mineral or minerals and for what types of deposits and ores will the exploration be conducted?
21. Describe briefly, but concisely, the proposed work and the estimated time required to complete it.

    NOTE.—The Government will not participate in a project that will require more than 2 years to complete.
22. Furnish statement of the geological basis of the project with particular emphasis on factors leading the operator to expect the finding of commercial ore bodies. This statement should be accompanied by supporting maps such as geological maps, maps of the proposed openings and assay maps, sample lists, and other pertinent data.

THE REQUIREMENTS AND COSTS

23. Tabulate in the form of an itemized statement with a sum for each item the estimated requirements and costs of the project so that the total will give the estimated cost of the project in which the Government will participate, as follows:
    (*a*) Labor, by numbers and classes (miners, muckers, millmen, etc.), with wages of each.
    (*b*) Supervisors, by numbers and positions, with salaries of each.
    (*c*) Cost of necessary repairs to existing facilities, structures, and buildings.
    (*d*) Cost of necessary installation or construction of additional facilities, structures, and buildings.
    (*e*) Cost of items of equipment, not now owned by the applicant which must be purchased for operations at a cost of $50 or more each.
    (*f*) Cost of rental for equipment which the operator proposes to rent.
    (*g*) Rental value of items of equipment which the operator now owns and which will be devoted to the work.
    (*h*) Cost of materials and supplies, including items of equipment costing less than $50 each.
    (*i*) Cost of power, water, utilities, and any other items not provided for above.
24. Furnish a time schedule of the project, stated in terms of months after project is approved, showing progress expected to be accomplished and the money expected to be spent.

CERTIFICATION

MINA, NEVADA

BOND AND LEASE

On a Mine

KNOW ALL MEN BY THESE PRESENTS, That S. T. BROWN, EDWARD J VOGEL, JAMES L. SLOANE and J. S. RUNYAN of Esmeralda County, State of Nevada, hereinafter called Lessors held and firmly bound unto PERCY BRADLEY, GORDON MEAKER, A. J. GROVES and ROBERT A. BROWN, Los Angeles County, State of California, hereinafter called Lessees, in the penal sum of $ 10.00 dollars, lawful money, of the United States, for the payment of which sum well and truly made by the Lessees to the Lessors, their heirs, executors, administrators or assigns, the Lessors hereby binding themselves, their heirs, executors and administrators firmly by these presents,

WHEREAS, the above bounden Lessors, on the day of the date hereof, have agreed to sell to the said Lessees the described property, situated, lying and being in Miller Mountain Mining District, in the County of Esmeralda, and State of Nevada, to wit:

Claim Shooting Star #1 (one)
Claim Shooting Star #2 (two)
Claim Shooting Star #3 (three)
Claim Shooting Star #4 (four)

Section_____ Township_____ Range_____

This Lease and Bond shall be in full force and effect for a period of fifteen (15) years from time hereof. The rental price shall be ten (10%) percent of the gross production after milling and shipping cost have been deducted.

It is agreed that there shall be a monthly minimum payment of $500.00 (Five hundred dollars) payable thirty (30) days subsequent to start of full scale mining operations, which shall be on or before July 28 1951.

It is agreed on or before July 28 1951, the sum of $ 1000.00 One Thousand shall be paid Lessors. This sum shall be applied to latter portion of purchase price.

It is also agreed that Lessees shall have the right to purchase

said property for the sum of $400,000.00 (Four hundred thousand dollars) and that any rentals, royalties or monies that are paid at any time shall be applied towards the $400,000.00 purchase price. The said Lessors further agree to place the said Lessees, or their assigns, in full and peaceable possession of said property on the payment in full of said purchase money. Monthly payments shall be made by Lessees to the Lessors on the 15th of each and every month. The Lessors shall have the right at any time to inspect books solely for the purpose of checking the production, milling and shipping costs.

AND WHEREAS, the said Lessors have further agreed to make, execute and acknowledge within 30 days from the date hereof, unto the said Lessees a good and sufficient deed of all the foregoing property, showing a clear and perfect title (except as against the United States) free from all incumbrance, which certificate of title shall be placed within 30 days from the date hereof, with First National Bank of Nevada Tonopah Bank in escrow, to be delivered to the said Lessees or their assigns, on the payment in full of said purchase and, in the event said Lessees transfer or surrender this lease they are released from any and all liabilities hereunder.

THE LESSEES agree to mine, remove and sell all ores in a thorough and workmanlike manner, and to permit the Lessors to have access at their own risk to all parts of said property at all times and to allow no person not in privity with the parties hereto to take or hold possession of said property or any part thereof under any pretense whatever.

THE LESSEES agree during the continuance of this Bond and Lease to deposit in First National Bank of Nevada Tonopah Bank to the credit of said Lessors ten (10) percent of the gross smelter or mill returns of all ore taken from said property as and when received said sum so deposited to be a part of said purchase money.

On behalf of the Lessor the Lessees will post any non responsibility

Date May 24, 1951

INSTRUCTIONS

This form is to be filed with Defense Minerals Administration, Department of the Interior, Washington 25, D. C. It should be accompanied by appropriate application form when a specific type of Government assistance is requested, in the form of (1) loan, (2) purchase contract, (3) Government guarantee of a private loan, (4) ~~Necessity Certificate pursuant to the provisions of Section 124 of the Defense Production Act of 1950, as amended, and Section 6 of Internal Revenue Code (1950 ed.)~~ priorities or allocation of mining equipment, and maintenance, repair and operating supplies, and (5) other forms of Government assistance that might arise under the Act. Submit four (4) signed copies of the form and accompanying papers. Name and address should be stamped or typed on each sheet of this form and all accompanying papers. *When a question is inapplicable it should be so stated on the form.* Additional sheets may be attached in answering any questions or in supplying additional information. (IF YOU CANNOT ANSWER A QUESTION, SO STATE.) If a question is answered elsewhere indicate where answered. It is not necessary to answer it again.

GENERAL TECHNICAL DATA

Supply the following information on separate sheets, arranged, numbered, and lettered as indicated:

1. Materials produced:
   (*a*) What are the chief mine, mill, or smelter products?
   (*b*) What are the byproducts, if any?
2. Name(s) and type(s) of mine(s), mill(s), smelter(s), refinery(ies), pit(s), quarry (ies), drilling operation(s). Include old names of property, if any. Show extent of workings, including the following:
   (*a*) Linear feet of shafts.
   (*b*) Linear feet of drifts and crosscuts.
   (*c*) Linear feet of tunnels or adits.
   (*d*) Linear feet of other mine openings (explain briefly).

   Indicate whether mine is flooded or not. Describe any pumping problems. Give size or productive capacity.
3. For each operation listed above supply the following:
   (*a*) Distance and direction from nearest town and shipping point.
   (*b*) Mining district.
   (*c*) Township, Section, Range.
   (*d*) County, State.
4. (*a*) State whether or not property is now in operation, and if in operation, by whom operated.
   (*b*) Are you operating this property as:
   - ☐ Owner.
   - ☒ Lessee.
   - ☐ Contractor.
5. Number of years in production 1951 discovery

   If not in production or operation, estimated date when production will begin Early in June 1951
6. Experience of operators:
   Describe the mining and general business experience of (*a*) the applicant, and (*b*) the person or persons who manage the project.
7. History:
   (*a*) Give a statement, as complete as possible, of previous exploration, development, operation, and production of property, with reasons for suspension of operation.
   (*b*) State briefly the known history and production of adjoining and neighboring properties.
   (*c*) Furnish any available (private) reports that may apply to this application, including results of mine examinations, recommended exploration and development, and metallurgical investigations.

8. Names and addresses of Officers, Directors, or Partners, and in addition thereto, the five largest stockholders if applicant is a corporation.

Name and Address (a)	Official Title (If officer is also director indicate by "D") (b)	Total of Annual Salary, Commissions, Bonuses, Etc., Received From Applicant and Affiliates During Last Fiscal Year (c)	Estimated Net Worth Outside of Interest in Applicant (d)	Number of Shares Held in Applicant Corporation: Common (e)	Number of Shares Held in Applicant Corporation: Preferred (f)	Life Insurance Carried for Benefit of Applicant: Amount (g)	Life Insurance Carried for Benefit of Applicant: Net Cash Surrender Value After Loans (h)
Perry Bradley 9824 E. Val St Temple City, Cal	Treasurer D	none	$65,000			none	
Gordon W Meaker P O Box 137 Mina, Nevada	Vice Pres. D	none	6,500			none	
A. J. Groves Box 3 Klamath River, Calif.	Secretary D	none	20,000			none	
Robert A. Brown 6658 Whitley Terrace Hollywood 28 Calif	President D	none	$1,000			none	
	Total		x x x x x			x x x x x	x x x x x

If more lines are needed continue on separate sheet.

9. Capital Stock Issues:

For Corporate Applicants

Item	Authorized (a)	Outstanding (b)	Par Value (c)	Number of Shares Outstanding (d)	Dividend Rate Last Paid* (e)
Common stock	$	$	$		
Preferred stock	$	$	$		

*Indicate period covered.

10. Production:

Item	Kind of Product (a)	1948 Total (b)	1949 Total (c)	1950 Total (d)	Present Average Monthly (e)
1. Quantity of product mined or quarried (Short, long, metric tons; barrels; pounds; etc.) 200 short Tone	ore	none	none	none	none
2. Quantity of product processed (specify unit of measure and type of process)	none	"	"	"	"
3. Quantity and grade of product sold or shipped (specify units of measure)	"	"	"	"	"

11. Do you contemplate a change in the present average monthly rate of production? If so, state estimated maximum monthly production and basis of change.

12. Ore or Mineral Reserves:

(a) Describe the ore or mineral deposit briefly. Accompany the application by any available report on the geology and ore reserves.

THE RYTE COMPANY, 6658 Whitley Terrace, Hollywood 28, California

1-a)The Chief Product is Tungsten
(b) Some trace of molybdenum

2- The Shooting Star Tungsten Mine, a new discovery just opened. The operation is an open pit excavation of ore bearing rock. The face of the ore bearing rock has been exposed horizontally 240' with a 6' vertical face.
(a) No shaft
(b) No drifts or cross cuts
(c) No tunnel or adits
(d) Face of ore bearing ledge exposed 240' horizontally with a 6' vertical thickness.
There is no water, an arid district.

3-a)The nearest town is Bishop, California, 66 miles SW. An excellent highway #6 crosses the 4 claims of the Shooting Star and continues to Bishop. Highway #6 continues NE to Mina, Nevada, 52 miles.
(b) The Miller Mountain Mining District.
(c) Area not surveyed in sections. The 4 claims of the Shooting Star are 8½ miles Easterly of Basalt Highway Station along highway #6, which crosses each of the four claims. Highway stations A439-A444-A449 are on the claims.
(d) Esmeralda County, Nevada.

4-a)Preliminary exploration and testing has just been completed on this date, May 24, 1951. Operation will start within 10 days by this applicant, a partnership.
(b) We are operating the property as the Lessee.

5- This is a recent discovery, 1951.

6- The applicant is a partnership of four individuals who have the following background;
A. J. Groves-mine operator for 18 years in Oregon, California and Mexico. Hard rock and placer experience. Skilled operator of heavy equipment. Heavy construction contractor.
Gordon Meaker-Heavy construction experience during 5 years active army service. Four years mining experience California & Nevada. Hard rock
Perry Bradley- Shovel and drag line contractor. Various business enterprises.
Robert A. Brown-Accountant, real estate operator.
(b) The four partners will activly participate in the operation of the property.

7- (a) This is a new discovery with no prior history.
(b) The Black Horse Mine one half mile north easterly on the same formation has been producing and shipping tungsten ore about 6 months.
(c)Different assays of same sampling of ore of this property vary from 0.50 to 1.00% tungsten. Lamping shows the entire exposed face carries ore. The exposed face of the ledge is some 50'above the floor of the canyon. The exposed ore bearing ledge is on a lime formation. Above the face of the exposed ledge is another ore strata, 20' up, A third ore strata is exposed in the bed of the canyon. An intrusion of volcanic lava cuts these formations on the west. Overburden conceals their southern extension. The highway follows a fault line. The same ore bearing strata and lime formation show at top of elevation across the highway about 125' higher and in a north easterly direction. The deppsits are massive. Outcrop can be followed 1500' and lamping indicated

consistent values. The extent of the deposit and the values carried are to be determined. Core drilling appears the most feasable method of proving the deposit. Some 10,000 tone of ore are in sight.

11- We are installing a 365 CFM compressor for air jacks; moving in a new TD 9 with blade and loader; a light plant, trailers for living quarters and expect to start daily shipments of 100 tome or more early in June.

12-(a)/The mineral body is scheelite, occurs as a contact replacement between limestone and acidic igneous rock. Garnet is an associate. Ore body is massive and extensive, 10,000 tone of ore in sight. The extent of the deposit will have to be determined by core drilling and study. Indications point to a large ore reserve.
(b) Lamping the exposed ledge face at night indicated it is all shipping ore, above 0.30% tungsten. Assays of composite sampling of exposed face average 0.70% tungsten. Lamping the outcrops of the upper and lower ledges indicates ore equal to the middle ledge.
(2) Some sections of the exposed face carry high values, over 1.50% WO_3. The entire face averages shipping grade ore. On the basis of 240' horizontal and 6' vertical face & 2½ tons per cu yard, there is a conservative 10,000 tons of ore with little overburden.

13- The exposed ledge face is 250' from paved highway #6, reached by an easy access road. Shipping distance to Mina, Nevada is 52 miles, to Biship, California is 66 miles. Highway #6 runs from Biship to Mina, crossing the Shooting Star claims. Mina and Bishop are the supply towns. Residence will be on the property.

14- Water is 3½ miles, a natural spring with adequate capacity.

15- No power available. Will use Diesel and gas engines.

16- Three men employed in opening ledge. Miners.

17- No buildings; will construct ore shoot, bin, tool shed. Will move in trailers for housing; mounted water tank for hauling water.

18- Have given complete report.

(*b*) If deposit is other than placer:

(1) Submit assay plans and/or sections showing location and size of proved (measured) and probable (indicated) ore or mineral reserve.

(2) State the tonnage (indicate type of ton) and grade of each class of ore reserve, as above, and show how computed. Tabulated total ore reserve as follows:

TOTAL ORE OR MINERAL RESERVES

Ore or Mineral Reserve	Estimated Tons (a)	Metal or Mineral Content Per Ton (Grade) (b)	Gross Value Per Ton (c)	Recoverable Unit Value Per Ton (d)	Estimated Cost of Production Per Ton (e)
Measured (proved)	10,000	0.70% WO_3	$25.00	$22.00	$8.00
Indicated (probable) large					

(*c*) If placer:

(1) Give estimated total yardage and average marketable mineral content of each deposit.

(2) Submit map showing location of placer deposit and surrounding area, with all test holes or pits. Submit logs of each hole and test pit with depth and average value of each.

(3) Describe gravel, stating whether fine, medium or coarse; loose, tight, cemented, or frozen, and whether it contains stumps or boulders more than 1 foot in diameter; if so, how large, and in what proportion.

(4) Describe bedrock, giving type (granite, sandstone, shale, etc.) and state whether it is hard or soft, smooth, uneven or rough.

(5) Describe overburden, stating whether loose, tight, or cemented; fine or coarse textured; furnish estimate of average thickness and total amount.

(6) Tabulate the reserves using the form outlined above for ore or mineral reserves.

13. Access Roads:

Give road distances to shipping, supply and residence points, stating kind and condition of roads.

14. Water Supply:

State source and quantity of water available for operations and whether sufficient for all seasons of year.

15. Power:

State amount of power used, rate per hour, and source thereof.

16. Labor:

State number and classes (miners, muckers, millmen, etc.) of men employed during a recent representative payroll period.

17. Equipment and Facilities:

Describe present equipment on the property, including buildings. (State condition.) List major pieces of equipment now owned or controlled and in serviceable condition available for this operation.

18. Are there any particular conditions or circumstances affecting your operations that are not described above? If so, explain.

To: London F. Strobel, Executive Secretary, DMA

Through: Director, Supply Division

From: Tungsten Branch

DMA-1625-1
Tungsten

Subject: Exploration Project Application of
The Kyte Company
6658 Whitley Terrace
Hollywood 28, California

The Kyte Company applied for an exploration project to cost $ 29,605.00, the work to be done on the four Shooting Star Claims located on U. S. Highway 6 at a point 8½ miles easterly from Basalt, Esmeralda County, Nevada.

The Company has done no elements preliminary sampling to demonstrate a good possibility of finding tungsten ore. They have not prepared a map to show the work planned, and have not given an intelligent description of the proposed project. The cost estimates given in answer to question 23, MF-103, are as follows:

(a) 4 miners at $13.00 per day 60 days	3,890
(b) 1 supervisor at 220 per day 60 days	3,200
(c) No repairs necessary to existing structures	
(d) Additional trailer accommodation; also road construction	4,500
(e) Lamps, steel bits, powder, miscellaneous	3,000
(f) Core drilling equipment and operators	10,000
(g) To be furnished by operator at rental of 260 per day: compressor, attendants, air jack operators (sic) for 15 days	900
Rental TD9 and operator at 125 per day, 15 days	1,875
(h) Miscellaneous items	750
(i) Living facilities; water; groceries; cook for 60 days	3,520
	9,605

Items (d) and (i) totalling $10,000, or one third of the project, cover only food and housing for 2 months, and are many times too large. Any road construction is probably included under (g).

The application was denied for these reasons.

INSTRUCTIONS

Read Mineral Order 5, Regulations Governing Government Aid in Defense Projects, before completing this application. Submit four signed copies of the application to Defense Minerals Administration, Department of the Interior, Washington 25, D. C., or to the nearest field executive officer thereof, with your name and address on each sheet of the application and all accompanying papers. If any question is inapplicable, or if you cannot answer it, so state on the form. Where the space provided for answer is insufficient, answer on a separate sheet, annex it to the application form, and refer to it in space for answer. If the application is approved, you will be presented with an exploration project contract on Form MF-200, for your signature.

THE APPLICANT

*1. Is applicant an individual, partnership, or corporation?
*2. If a partnership, state names and addresses of partners.
*3. If a corporation, state names and addresses of officers, directors, and five largest stockholders.
*4. Describe the mining and general business experience of (*a*) the applicant, and (*b*) the person or persons who will manage the project.
*5. Are you the owner or the lessee of the property?
6. If owner, state what claims, liens, or encumbrances, if any, are against the property.
7. If lessee, attach a copy of the lease and state if it is in good standing.

NOTE.—It will be necessary to procure and attach to the exploration project contract agreements of claimants, lienors, encumbrances and lessors subordinating their interests in the property to the interest of the Government under the contract.

8. Furnish current financial statement, showing assets and liabilities, and a profit and loss statement.
9. How much money is applicant prepared to invest in proposed project? Is it sufficient to pay your part of the cost of the project as detailed in question 23 of this application form, in accordance with the regulations on Government participation (Section 9 of Mineral Order 5)?

*If you have already answered these questions on MF-100, you are not required to answer the questions for this application.

16—64067-1

THE PROPERTY

10. (*a*) Give a description of the real property that will be in any way involved in the exploration project, including any existing mine or operating property.
    (*b*) Give the legal description of the exact parcel, plot, or area upon which the exploration is to be conducted.

    NOTE.—If both areas are the same, so state. The only obligation to repay the Government is from the net earnings from any commercial discovery made in the area specified in (*b*) above in which the exploration is to be conducted, and the expenditure of funds which may be charged as costs of the project must be limited to that area or to work necessary to perform the exploration in that area.

*11. State the present and former names of the property, if any.

*12. State, in detail, the location of the property with reference to towns, railroads, roads, shipping points, including distances and directions and kinds and conditions of roads.

*13. State source and quantity of water available for operations and its sufficiency at all seasons.
State amount of power to be used, rate per hour or other cost, and source.

*14. Describe any existing useable facilities, equipment, buildings, or structure now on the property that will be devoted to the exploration work.

15. State in detail how the ore could be shipped and how and where milled.

*16. History:
    (*a*) Give a statement, as complete as possible, of previous exploration, development, operation, and production of property, with reasons for any past suspensions of operations.
    (*b*) State briefly the known history and production of adjoining and neighboring properties.
    (*c*) Furnish any available (private) reports that may apply to this application, including results of mine examinations, recommended exploration and development, and metallurgical investigations.

*17. Production:
    (*a*) If mine is in production, furnish the following information: Not in production

	Tons per day	*Grade or analysis*	*Cost per ton*	*Net value per ton*
(1) Mining				
(2) Milling				
(3) Shipped or sold				

*18. Ore or mineral reserves: (If property is or has been operating.)
    (*a*) Describe the ore or mineral deposits briefly.
    (*b*) Submit available maps and assay data.
    (*c*) Give estimated tonnage and grade of each class of ore reserves.

19. State any conditions or circumstances regarding the property not sufficiently brought out by the foregoing questions.

THE EXPLORATION

20. For what mineral or minerals and for what types of deposits and ores will the exploration be conducted?

21. Describe briefly, but concisely, the proposed work and the estimated time required to complete it.

    NOTE.—The Government will not participate in a project that will require more than 2 years to complete.

22. Furnish statement of the geological basis of the project with particular emphasis on factors leading the operator to expect the finding of commercial ore bodies. This statement should be accompanied by supporting maps such as geological maps, maps of the proposed openings and assay maps, sample lists, and other pertinent data.

THE REQUIREMENTS AND COSTS

23. Tabulate in the form of an itemized statement with a sum for each item the estimated requirements and costs of the project so that the total will give the estimated cost of the project in which the Government will participate, as follows:
    (*a*) Labor, by numbers and classes (miners, muckers, millmen, etc.), with wages of each.
    (*b*) Supervisors, by numbers and positions, with salaries of each.
    (*c*) Cost of necessary repairs to existing facilities, structures, and buildings.
    (*d*) Cost of necessary installation or construction of additional facilities, structures, and buildings.
    (*e*) Cost of items of equipment, not now owned by the applicant which must be purchased for operations at a cost of $50 or more each.
    (*f*) Cost of rental for equipment which the operator proposes to rent.
    (*g*) Rental value of items of equipment which the operator now owns and which will be devoted to the work.
    (*h*) Cost of materials and supplies, including items of equipment costing less than $50 each.
    (*i*) Cost of power, water, utilities, and any other items not provided for above.

24. Furnish a time schedule of the project, stated in terms of months after project is approved, showing progress expected to be accomplished and the money expected to be spent.

CERTIFICATION

The undersigned company, and the official executing this certification on its behalf, hereby certify that the information contained in this form and accompanying papers is correct and complete to the best of their knowledge and belief.

16—64067-1 U. S. GOVERNMENT PRINTING OFFICE

Form MF -103 THE RYTE COMPANY 6658 Whitley Terrace Hollywood 28 Calif

1-2-3-4-5 are all answered on MF 100

6- The Ryte Company is the Lessee-no claims, liens against the property.

7- Copy of the lease attached. It is in good standing.

8- Current financial statement attached

9- Seventy five hundred dollars ($7500.00). This amount covers the applicants part of the cost as detailed in question 23 of this form, in accordance with the regulations on Government participation. The applicant is prepared to meet his portion of cost of proposed project in cash, in use of equipment and in labor.

10- (A) The Shooting Star claims 1 - 2 - 3 - 4 - located 21 miles easterly of Basalt Highway station along Highway 6; Highway stations 4439+15-4444+25 & 4446+60 on the claims. All in Esmeralda County, Nevada.
(B) The legal description is the same as above and is the area upon which the exploration is to be conducted.

11-12-13-14 answered on MF 100

15- Excellent paved Highway through this property. Ore to be shipped by truck to mill at Bishop, California-65 miles.

16- answered on MF 100 - also Nos 17 & 18

19- Purpose of exploration is to determine extent of ore bodies. If substantial deposits are defined, planned operations must be worked out.

20- The exploration will be conducted for scheelite ore. Massive deposits are indicated with open cut mining operations.

21- Exploration requires careful geological study of the area and core drilling. Sixty working days are estimated as maximum time required to complete project.

22- Massive ledge of ore has been exposed for horizontal distance of 240' with a 6' vertical face. Composite sample from exposed face assays 0.50% to 1.00% depending upon assayer. Attached find report from Ed. Eisenhauer showing value of 0.66%. Outcrop shows for 1500' in the direction (NW) of the Black Horse property, now producing and shipping from the same formation. Sampling shows sustained values in the 1500' outcrop as well as in the ledges above and below the exposed face. This ore body is a limestone-igneous rock replacement.

07-	(a) 4 miners @ $12.00 per day 60 days	3240.00
	(b) 1 supervisor @ $20 per day 60 days	1200.00
	(c) none	
	(d) Additional trailer accommodation; good construction	6500.00
	(e) Lamps-steel bits-powder-steel	2000.00
	(f) Core drilling equipment & operators	10000.00
	(g) rental [illegible] & operator $105 per day-15 days	1575.00
	(g) rental compressor, attendant-air jack operators $60.00 per day for 15 days	900.00
	(h) Miscellaneous items	750.00
	(i) Living facilities;water; groceries;cook 60 days	3500.00
		29665.00

(sketch attached illustrating items)

08- On approval of the project the applicants will proceed immediately to start the exploration program which should be completed with sixty days or less and with the sum set forth , $29,665.00

9- Current Financial Statement

Assets

1-[illegible] Rough Loader with lyd rock bucket & blade	[illegible]
