Re: Docket No. OME-6012 (Thorium, rare earths, rutile, columbium)
Wells, Ellis, and Woodman
Ruby Red Claims
Lemhi County, Idaho

Dear Mr. Wells:

Reference is made to our letter of May 7, 1959, requesting additional information needed to process the subject application.

We have not received the requested information; therefore, in accordance with the above-mentioned letter, we are considering your application as having been withdrawn and are placing it in our inactive file.

Sincerely yours,

(signed) FRANK E. JOHNSON

Re: Docket No. OME-6012 (Thorium, rare earths, rutile, columbium)
Wells, Ellis, and Woodman
Ruby Red Claims
Lemhi County, Idaho

Dear Mr. Wells:

Your application for exploration assistance has been reviewed by the Division of Rare and Miscellaneous Metals. As submitted, the application lacks essential information required by this Agency to complete its processing.

The additional information required is outlined below:

1. Under Docket No. DMEA-4951, your application for assistance to explore the Ruby Red claims was considered by the Defense Minerals Exploration Administration. You were informed in a letter, dated July 1[illegible], 1958, by the Administrator, that based upon the information available to the Washington office your request could not be approved.

Therefore, unless you have performed additional work on the subject claims since March, 1958, and can present data indicating that the claims are more favorable for ore deposition than our data indicate, we would have to deny this application. If new information is submitted it should include a map, or maps, showing the location of the veins and where samples were procured. Also, a narrative should be submitted. It should include a description of each vein, e.g., length, width, strike, dip, width of vein material the samples represent, and the assay results.

2. Enclosed is a copy of the Regulations for Obtaining Federal Assistance in Financing Explorations for Mineral Reserves (30 CFR Chap. III), and a copy of application, OME Form MME 40, for your guidance.

We note that while you signed the OME application certifying that you would not undertake the proposed exploration under current conditions and circumstances at your

sole expense, your application did not contain all the information required in the OME application form, Items 1 (a) and 1(c).

With reference to Item 1 (e), we believe that the possible allowance on the equipment and labor mentioned in your application would cover only a part of the Operator's share of the cost. Also, with regard to payments for work performed under the contract - the Government does not advance its share of the costs under a contract. The operator pays for the work and then submits the cost vouchers to the Government for review and approval. The Government then reimburses the operator for the share of the cost. Thereafter, the operator should have sufficient funds to cover all costs for the first two months, since it usually takes the Government two or three weeks after the vouchers are received to approve the costs and reimburse the operator. Therefore, normally, reimbursement is received by the operator at monthly intervals. With this in mind, your answer to Item 1 (e) should clearly state how you propose to furnish your share of the exploration costs.

In addition to the above information you should also submit financial statements showing assets, liabilities, and net worth for yourself and your partners.

Please submit four copies of the above-requested information. We will hold the subject application in abeyance pending your reply. If you do not wish to proceed with your application, we will appreciate being so informed.

Sincerely yours,

F. L. Knouse, Acting Chief
Division of Rare and
Miscellaneous Metals

MAY 7 1959

Re: Docket No. OME-6012 (Thorium, rare earths, rutile, columbium)
Wells, Ellis, and Woodman
Ruby Red Claims
Lemhi County, Idaho

Dear Mr. Wells:

Reference is made to Mr. Knouse's letter of March 13, 1959, and your reply dated March 17, 1959.

In your letter you mention that you would write again. To date we have not received the information we requested relating to the results of the possible additional work performed on the subject claims since March, 1958. We also require the evidence requested in the OME Application, MME Form 40, under Item 1, Financial Eligibility, subitem (a).

With reference to the financial statements showing assets, liabilities, and net worth for yourself and your partners which were requested in Mr. Knouse's letter, this requirement has recently been modified. We now require only the partnership's latest balance sheet and profit and loss statement.

We wish to cooperate with you in allowing ample time to furnish such information, but, if we do not receive your acknowledgment of this letter within 30 days from this date, we will assume that you are no longer interested in proceeding with your application, and we will consider it as having been withdrawn.

For your information, enclosed is a copy of MME Form 40.

Sincerely yours,

(signed) FRANK E. JOHNSON

ESTIMATED COST OF PROJECT: $62,968.00 - $63,418.00

PROPERTY NAME: Ruby Red

LOCATION — COUNTY: Lemhi — STATE: Idaho.

GENERAL INSTRUCTIONS

Before filling out this application, please read the *OME Regulations for Obtaining Federal Assistance in Financing Explorations for Mineral Reserves* (30 CFR Chap. III). To assure prompt action, your application must provide all applicable material and information specified on the back of this application form. Avoid unnecessary correspondence and delays by submitting complete and accurate information. *Please submit four copies of this application and all accompanying papers* except as otherwise noted. Place your name and address on each sheet. Each item of information, maps, and reports required as a part of this application is described on the back of this form. Identify each attached statement by the item number to which it applies. If an item does not apply to your application, show the item number on your statement and after it write "not applicable." Maps or sketches should be used to supplement narrative descriptions of the property location and boundaries in item 2, existing mine workings and geology in item 3, and the proposed exploration work in item 5. When this information is not too complex, all of it may be shown on one map or sketch. All documents and other attachments submitted as a part of this application, except those in item 3(g) which you mark to be returned, become the property of the Government and will not be returned to the applicant. Send true copies, *not originals*, of leases, contracts, and other documents which are an essential part of your business records. *File this application with the Office of Minerals Exploration, Department of the Interior, Washington 25, D. C., or with the nearest OME Field Office.*

CERTIFICATION

The undersigned, whether as an individual, corporate officer, partner, or otherwise, both in his own behalf and acting for the applicant, certifies that the information set forth in this form and accompanying papers is correct and complete, to the best of his knowledge and belief, and that he would not ordinarily undertake the proposed exploration under current conditions and circumstances at his sole expense.

Feb. 18, 1959

TITLE

A wilfully false statement or certification to any Department or Agency of the United States Government is a criminal offense. U. S. Code, Title 18, Sec. 1001.

INFORMATION REQUIRED WITH THIS APPLICATION

1. Financial Eligibility:

(a) Submit evidence of efforts made within 90 days preceding the filing of this application to obtain credit from your bank of account and at least one other banking institution or other private source of credit. Such evidence shall include true copies of correspondence which show: (1) date of loan request, (2) amount and terms requested, (3) proposed use of loan funds, and (4) the replies from credit sources. If the loan was offered under terms which you consider unreasonable, state why you consider them so.

(b) List names and addresses of affiliated, parent, or controlling companies or organizations and state extent and nature of their interest.

(c) State how you propose to furnish your share of the exploration [redacted] cost.

2. Applicant's Rights in Land:

(a) State your interest in the land and mineral rights, whether owner, lessee, purchaser under contract, or other. If you are not the owner, submit one true copy of the lease, contract, or other document (with address of owner) under which you control the property. Describe all liens, mortgages, or other encumbrances on the land and state book and page number and official place where recorded.

(b) State the legal description (section, township, and range; metes and bounds; patent number of claims) of the land upon which you wish to explore and all adjacent land which you own or control. Describe any part of the land or workings which should not be subject to Government royalty and liens. If the land consists of unpatented claims, state book and page number for each recorded location notice, including amended locations, and official place where recorded. State all the names by which you know the property.

(c) For all land or mineral rights encumbered or not owned, submit five copies of Lien and Subordination Agreements on MME Form 52. If the agreements cannot be obtained, state reasons and provide copies of letters of refusal.

3. Physical Description:

(a) Describe in detail and illustrate with maps or sketches all mining or exploration operations which you know have been or are being conducted upon the land. Include existing mine workings and all production facilities.

(b) State your interest, if any, in operations described in (a).

(c) State, if you know, the past and current production, supporting your statement with copies of settlement sheets, mine records, or published data if available.

(d) Describe known ore reserves, giving quantities and grades and sampling methods used. Support your statement with copies of assay certificates and assay maps if available.

(e) Describe by narrative and maps or sketches the geologic features of the property, including ore minerals, geologic formations if known, and type of deposit (vein, bedded, etc.).

(f) State your reasons for expecting to find ore, and if you have sampled the area you propose to explore, show where the samples were taken, describe sampling methods used, and provide copies of assay certificates.

(g) Send with your application at least *two* copies of all geologic or engineering reports, assay maps, or technologic information which you have, indicating whether you require their return.

4. Accessibility of Property:

(a) To aid the OME representative who may examine the property, state name and address of person who will meet him; give directions for reaching the property; and describe accessibility of property and of any mine workings.

(b) Name the shipping and supply points and state the distances to the property.

5. Exploration Work:

(a) Describe fully the proposed exploration work giving individual footages and sizes of openings *for each item of work.* Use narrative, maps, plans, and sections as necessary. Show location of the proposed work as related to geologic features such as veins, ore-bearing beds, contacts of rock formations, etc. Show also the relation of the proposed work to any existing mine workings and to *land boundaries* or to the closest identifiable corner.

(b) If an access road must be built, show the proposed location on the property map and state the length, type and construction methods proposed.

(c) If an OME contract is executed, state how soon thereafter work would be started and finished. State your anticipated average daily or monthly rate of progress for each type of work.

6. Experience:

State your operating experience and background to conduct this exploration work and also that of the person who will supervise the work.

7. Estimate of Costs:

Furnish detailed estimates of the necessary costs *for each item of the work proposed in 5(a)* under the headings listed below with a total for each heading and the estimated total cost of the work. Costs for any work to be performed by an independent contractor should be listed separately under category (a) below. Costs for any work that is not to be performed by an independent contractor should be listed under categories (b) through (g).

(a) Independent contracts. State the total cost of any proposed independent contract for all or any part of the work, and the number of units and the unit cost for each type of work, such as per foot of drilling, per foot of drifting, per hour of bulldozer operations, or per cubic yard of material moved. Cost estimates should be supported by bids from three contractors if possible. (*Note*—If none of the work is to be contracted, write "none" after this item.)

(b) Personal services. The cost of supervision, engineering and geological services, outside consultants, and labor should be itemized by numbers and classes of employees; rates of wages, salaries or fees; and periods of employment. State whether these services are available.

(c) Operating materials and supplies. List items of material and supplies giving quantity and cost of each. Include under this heading power, water, and fuel, and units of equipment and tools costing less than $50 each.

(d) Operating equipment. List items of equipment and tools costing $50 or more per unit. Give specifications and indicate how each item is to be acquired—i.e., rented, purchased or provided by the applicant. If rented or purchased, state the estimated rental or purchase price. If furnished by the applicant, state condition and present fair market value.

(e) Initial rehabilitation and repairs. Describe the type and the cost of *initial* rehabilitation or repair of existing buildings, fixtures, installations (exclusive of mine workings), and movable operating equipment now owned by the applicant which will be used in the exploration work.

(f) New buildings, fixtures, installations. Describe each building, fixed improvement, and installation to be purchased, constructed, or installed for the exploration work, stating specifications and cost including labor, materials, and supervision.

(g) Miscellaneous. Describe the type and estimate the cost of repairs and maintenance of the operating equipment listed in 7(d). Do not repeat initial repairs listed in 7(e). Show also the costs of analytical work, accounting, workmen's compensation and employees' liability insurance, payroll taxes, and other required costs that do not fall within the previous categories. [*Note*—The Government will not contribute to costs incurred before the date of the contract, or to costs of or incident to: (1) acquiring, using, or possessing land and any existing improvements, facilities, buildings, installations, and appurtenances, or the depreciation and depletion thereof; (2) general overhead, corporate management, interest and taxes (other than payroll and sales taxes); (3) insurance (other than employees' liability insurance); and (4) damages to persons or property (other than authorized repair to or replacement of equipment or other property used in the work).]
