Attention: Mr. Steve Wilson

Dear Sir:

In accordance with your telephone conversation please be advised that the 181 pounds of concentrates deducted from Lot No. 5 was derived from ore mined from the Bostelle Lode Claim which is owned by Mrs. N. N. Lord and is not a part of the D.M.E.A. Loan.

If this is not sufficient for the information you require please advise and we shall be happy to furnish any additional information possible.

Very truly yours,

STARDUST MINES INC.

Re: Royalty Payments - DMEA Docket 3056
(Tungsten), Contract Idm-E621
Timco Incorporated, Last Chance
Claims, Tooele County, Utah

Dear Mr. Gardner:

Settlement sheets for Lots Nos. 5 and 7 for combined ore shipments from the Last Chance No. 1 claim and from the Star Dust Mine have been received in this office.

We have calculated the royalty due on that portion of the shipments which was produced from the Last Chance claims to be $14.44 as shown on the attached calculation sheet.

Please send your check in the amount of $14.44 to the Executive Officer, DMEA Field Team, Region III, Room 224 New Customhouse, Denver 2, Colorado. Checks should be made payable to the Defense Minerals Exploration Administration.

For any other shipments that you may make from this property please furnish this office with four copies of settlement sheets and your royalty payment check. Royalty payments are to be calculated as per Section 10 of the enclosed copy of DMEA Order 1 Amended.

Yours very truly,

W. M. TRAVER

Received
DEC 28 1964

December 30, 1964

Memorandum

To: W. H. King, Executive Officer, DMEA Field Team, Region IV

From: Chief, Minerals Development Branch, Mining Division, Region IV

Subject: Docket No. DMEA-2898 (Tungsten), Contract Idm-1568, F. F. Hintze, Tooele County, Utah

Docket No. DMEA-3066 (Tungsten), Contract Idm-2631, Timco, Inc., Tooele County, Utah

Attached are four photostatic copies each of two settlement sheets pertaining to sale of tungsten concentrates by Star Dust Mines, Inc. The purchaser is C. W. Jones, Bishop, California. Also attached are copies of tabulations of the company's version of royalties due DMEA and a letter explaining ownership of 151 pounds of concentrate included in Lot No. 5. The scheelite ores were mined from properties owned by Star Dust, but subordinated to the Government under DMEA Contracts Idm-1568 and Idm-2631.

Ores from the two properties encumbered under the DMEA contracts were concentrated in a small mill owned by Star Dust Mines, Inc. The mill is located 22 miles by road from the properties. Ores were milled separately, but the concentrates were combined in two lots, Nos. 5 and 7, for disposal. The attached tabulation is believed a proper basis for determination of the royalties due the Defense Minerals Exploration Administration from sale of the concentrates under Star Dust Mines, Inc. Lot Nos. 5 and 7.

The lots shown in the table are in no way related to a shipment made from the E.N.B. claim to the custom mill at Cherry Creek, Nevada. This shipment was made prior to termination of Contract Idm-1568 between the Government and F. F. Hintze, lessee of the E.N.B. claim from Star Dust Mines, Inc. Copies of a settlement sheet for this shipment were mailed to your office June 22, 1954. No royalty has been paid to date. Final payment has not been made to the operator under the contract, and it is believed advisable to deduct the royalty due from the amount before final settlement is made.

Sales of concentrates, as noted on the attached settlement sheets, were made after termination of the two Contracts Idm-2268 and Idm-2321. The small lot of ore (17 tons) shipped by F. F. Hintze, prior to termination of the contract, to the Star Rust mill, was included in the ores recently milled and sold as concentrate in the attached settlement sheets. The 17-ton lot was noted in previous correspondence concerning Contract Idm-2268.

The sum of $40.36 shown as "Zn blendout #4" on the settlement for Lot No. 5, is reimbursement to Star Rust Mines, Inc., for reinstatement of a previous deduction on Lot No. 4 from another property. This amount is not related to DMEA royalty.

No data are available concerning the tonnage of crude ores milled which resulted in the concentrates sold as Lot Nos. 6 and 7. The mill owned by Star Rust Mines, Inc., has no weighing facilities.

Stephen R. Wilson

Enclosures

Contract	Lot No.	Crude ore, tons	Concentrate, pounds	WO_3, percent	Total units WO_3	Payment per unit	Total payment	Sampling and assaying	Net payment
R-[illegible] (E.E.E. Claim)	5	—	1,041 1/	44.41	23.1154	$56.74	$1,311.57	$20.06	$1,291.51
"	7	—	2,521 2/	44.565	56.3063	57.156	3,222.09	31.44	3,191.35
R-631 (Shipped by Latham from Last Chance No. 1 Claim)	5	—	179.5	30.09	3.449	56.74	195.70	9.50	186.20
"	7	—	111	35.30	1.9641	57.156	112.35	9.60	102.75

1/ The settlement sheet lists 1,152 pounds of concentrate. F. L. Maxwell, Secretary of Star Dust Mines, Inc., stated that 151 pounds of concentrate, assumed of the same grade, was taken from another property, not subject to EMRA royalty.

2/ The total pounds of concentrate shown on the settlement sheet includes 111 pounds shown as Latham portion (Last Chance No. 1 Claim, Timco, Inc., Lic-2621). This small lot was assayed separately (35.3 percent WO_3) and the total pounds of concentrate was paid for on the basis of 44.17 percent WO_3. The settlement sheet does not so state, but the assay value of the 2,521 pounds of concentrate from the E.E.E. Claim should be 44.565 percent WO_3, considering the average assay value of the total of 2,521 plus 111 pounds, the latter assaying only 35.30 percent WO_3.

RECEIVED
MAR 28 1955

January 7, 1955

Memorandum,

To: Executive Officer, DMEA Field Team, Region IV

From: Stephen R. Wilson

Subject: Docket No. DMEA-3598 (Tungsten), Contract Idm-1548, F. F. Kintzo, Tooele County, Utah

Docket No. DMEA-3066 (Tungsten), Contract Idm-2511, Timco, Inc., Tooele County, Utah

Reference is made to a memorandum from this office dated December 30, 1954, concerning the subject dockets.

T. H. Brading and I discussed the royalty audit question January 5, 1955. Brading is familiar with the two settlement sheets attached to the above-mentioned memorandum, and also with the settlement sheet mailed to your office June 23, 1954. This latter settlement sheet covers a shipment made from the E.H.E. claim to Cherry Creek, Nevada, for milling, and subsequent sale of concentrate to C. W. Jones, Bishop, California.

Settlement sheets Nos. 5 and 7 represent sale of concentrate from ores mined on properties encumbered in the two subject contracts. The ores were milled in a small gravity plant located 22 miles by road southwest of Gold Hill, Utah. I have inspected the mill and the underground workings on the properties at intervals.

It is believed that the three above-mentioned settlement sheets represent sale of all concentrates subject to royalty to date. No ores or concentrates remain at the mill, and it is known that the mill has not been in operation and no ore shipments have been made from the properties during recent weeks.

The reliability of the information submitted by the Star Dust Mines, Inc., has been checked in every feasible manner. It is believed that all available data concerning the concentrate sales have been supplied by the Star Dust Mines, Inc., and no further checking by Brading will be necessary.
