Bakersville, North Carolina

Re: Docket No. DMEA-4407-Mica
Charlie Grindstaff
Charlie Prospect
Mitchell County, North Carolina

Dear Mr. Grindstaff:

Your application for aid for an exploration project and other reports available to us in Washington relating to the subject property have been reviewed.

Projects approved by the Defense Minerals Exploration Administration must, in its judgment, show definite promise of yielding materials of acceptable grade in quantities that will significantly improve the mineral supply position for the National Defense Program.

Careful study of all our information indicates to us that the probability of disclosing significant reserves of mica is not sufficiently promising to justify Government participation. We regret to advise you, under these circumstances, that your application for exploration assistance is denied.

We wish to thank you for your interest in the Defense Minerals Program and for bringing your property to our attention.

Sincerely yours,

G. O. Mittendorf

Administrator

Memorandum

To: Mr. C. O. Mittendorf, Administrator

From: Lawrence G. Houk, Chief, Nonmetallic Minerals Division

Subject: Evaluation of Application and Field Examination Report
Docket No. DMEA-4407-Mica
Charlie Grindstaff
Charlie Prospect
Mitchell County, North Carolina

Denial of application is recommended.

Mica: No strategic grade observed. A few pieces in place are off color, small bent, and contained quartz and biotite inclusions.

Pegmatite: Shallow pit in unweathered, hard biotite gneiss rock exposed a fine-grained plagioclase-orthoclase quartz pegmatite, 5 feet thick, barren of strategic mica.

Workings: Two shallow pits.

Past production: None.

Applicant's proposal: 40 hours of bulldozing, 70 feet of shaft and 100 feet of drift, for which he requested a total of $7,400.00.

Recommendations: Because of the absence of strategic mica and the poor mineralogical environment for the possibility of discovering significant reserves, the Field Team recommends denial. The Nonmetallic Minerals Division and the commodity members of the Geological Survey and the Bureau of Mines concur.

Memorandum

To: Nonmetallic Minerals Division
Defense Minerals Exploration Administration

From: W. F. Dietrich, Chief, Branch of Ceramic and Fertilizer Materials

Subject: DMEA-4407 (mica)

Applicant: Charlie Grindstaff

Name and Location of Property: Charlie Prospect, Mitchell County, N. C.

Date of Field Team Report: 11/8/56

Date Rec'd. by Br. of Ceramic & Fertilizer Materials: 11/15/56

Field Team Recommendation: Recommend denial.

Comments:

1. This is a new prospect and no data available in this office on this property.

2. A shallow pit exposes a fine-grained pegmatite containing a few small off-color inclusions of nonstrategic mica.

3. Geological factors show that this deposit is unlikely to produce any sizable quantities of strategic mica.

Recommendation:

I concur with the recommendation of the field team.

$7,400.00 - Mica

Memorandum

To: L. G. Houk, Defense Minerals Exploration Administration

From: N. E. Nelson, U. S. Geological Survey

Subject: Review of Field Team report.

The applicant requested assistance in exploring a 5-foot pegmatite exposed in one shallow pit.

At the one exposure only small, bent crystals with quartz and biotite inclusions were observed, and the examiners concluded that the strategic mica potential of the pegmatite is small.

The same conclusion was reached at a second exposure of pegmatite with the same mineralogy. The examiners and Field Team recommend denial of the application, a recommendation with which I concur.

FIELD EXAMINATION REPORT

ON

DMEA-4407, CHARLIE PROSPECT Mica
Mitchell County, N.C.

Applicant: Charlie Grindstaff, Route # 3, Bakersville, N.C.

Summary and Recommendations

An outcrop of fine-grained pegmatite exists at a new prospect. Muscovite occurring in the pegmatite is off color, small, bent, and stained. It is recommended that the application be denied.

Introduction

Location:

The Charlie Prospect is about 500 feet west and upslope from the May Mine (DMEA-4232) and 4.75 airline miles N 43° E from Micaville, Yancey County, North Carolina. (Micaville, N.C. Quad., TVA.209-NW, 1/24,000).

Examination:

The mine was examined October 16,1956 in the company of Mr. John Phillips, Mr. Charlie Grindstaff, and Mr. Robert McClay, Geologist, USGS. It was re-examined October 30, by L. E. Shirley, USBM, and A. R. Taylor, USGS. One hour was spent on the property.

No facilities, equipment, or access road exists at the site.

Geology

A shallow (0 to 1') pit in unweathered rock exposes a fine-grained plagioclase-orthoclase quartz pegmatite, 5 feet thick(plus) containing fine ctystals of muscovite. No contacts were observed, but the strike extent is inferred to be more than 30 feet because of the presence of large 3 ft. pegmatite boulders in the soil. The country rock observed in nearby outcrops consists of hard biotite gneiss. The few pieces of muscovite in place are off-color, small (1/2" to 1"), bent, and contain both quartz and biotite inclusions. No strategic muscovite was observed.

A pit and dump about 100 ft north and 20 ft lower (in elevation) exposes a pegmatite with the same mineralogy and small grain size as that at the Charlie Prospect.

No exploration is recommended at either prospect.

August 10, 1956

Memorandum

To: Nonmetallic Minerals Division
Defense Minerals Exploration Administration

From: W. F. Dietrich, Chief
Branch of Ceramic and Fertilizer Materials

Subject: DMEA-4407 (mica)

Applicant: Charlie Grindstaff

Name and Location of Property: Charlie Prospect, Mitchell County, N.C.

Date Application Rec'd. by Br. of Ceramic & Fertilizer Materials: 8/6/56

Comments:

1. Applicant states that ruby mica was found in prospecting some 50 years ago but no data available in this office on this property.

2. Exposed pegmatite indicates possibilities of occurrence of strategic mica.

Recommendation:

It is recommended that the field team visit this mine when in that vicinity to ascertain if an exploration project is justified. If so, the field team and applicant should agree on a definite plan of exploration on a unit-cost basis.

INSTRUCTIONS

1. *Name of applicant.*—(*a*) State here your full legal name, in the form in which you will wish to contract, and your mailing address: Charlie Grindstaff
Bakersville, Route 3
North Carolina

(*b*) If other than an individual, add to your name above whether a corporation, partnership, etc., and the name of the State in which incorporated or otherwise organized.

(*c*) If a corporation, add to above statement, titles, names and addresses of officers.

(*d*) If a partnership, add to the above statement the names and addresses of all partners.

2. *General.*—Read DMEA Order 1, "Government Aid in Defense Exploration Projects," before completing this application. Submit this application and all accompanying papers in quadruplicate (four copies), with your name and address on each sheet of the application and on all accompanying papers. Where sufficient space is not provided on the form for all required information, state it on an accompanying paper, with a reference in each case to the instruction to which it refers by number. Comply with all applicable instructions; or, if not applicable, so state. File the application with Defense Minerals Exploration Administration, Department of the Interior, Washington 25, D. C., or with the nearest field executive officer thereof.

3. *Applicant's property rights.*—(*a*) State the legal description of the land upon which you wish to explore, including all land which you possess or control that may be benefited by the exploration, and excluding any land or interest in land which is not to be included in the exploration project contract Legal description given on attached lease.

(*b*) State any mine name by which the property is known. Charlie Prospect.

(*c*) State your interest in the land, whether owner, lessee, purchaser under contract, or otherwise Lessee

(*d*) If you are not the owner, submit with this application a copy of the lease, contract, or other document under which you control the property. Lease attached.

(*e*) If you own the land, describe any liens or encumbrances on it Not land owner.

(*f*) If the land consists of unpatented claims, add to the description above, the book and page numbers for each recorded location notice. None

4. *Physical description.*—(*a*) Describe in detail any mining or exploration operations which have been or now are being conducted upon the land, including existing mine workings and production facilities. State your interest, if any, in such operations. Also describe accessibility of mine workings for examination purposes. See sheet.

(*b*) State past and current production, and ore reserves, if any, giving quantities and grades.

(*c*) Describe the geologic features of the property, including mineralization, type of deposit (vein, bedded, etc.), and your reasons for wishing to explore. Illustrate with maps or sketches. Send with your application (but not necessarily as a part of it) any geologic or engineering report, assay maps, or other technologic information you may have, indicating on each whether you require its return to you.

(*d*) State the facts with respect to the accessibility of the project: Access roads, distances to shipping, supply and residence points.

(*e*) State the availability of manpower, materials, supplies, equipment, water, and power.

5. *The exploration project.*—(*a*) State the mineral or minerals for which you wish to explore Mica

(*b*) Describe fully the proposed work, including a map or sketch of the property showing a plan (and cross sections if needed) of any present mine workings, and the location of the proposed exploration work as related to such features as contacts, veins, ore-bearing beds, etc. See sheet.

(*c*) The work will start within 30 days and be completed within ..... months from the date of an exploration project contract.

(*d*) State the operating experience and background of the applicant with relation to the ability to carry out such exploration project, and also that of the person or persons who will supervise the operations. See sheet.

6. *Estimate of costs.*—Furnish a detailed estimate of the costs of the proposed work (you will have to use a separate sheet), under the following headings. Add the totals under all headings to give the estimated total cost of the project: See sheet.

(*a*) *Independent contracts.*—(Note.—If the applicant does not intend to let any of the work to contractors, write "none" after this item. To the extent that the work is to be contracted, do not repeat the cost of the contract-work in subsequent items.) State the cost of any proposed independent contracts for the performance of all or any part of the work, expressed in terms of units of work (such as per foot of drilling, per foot of drifting, per hour of bulldozer operations, per cubic yard of material moved, etc.).

(*b*) *Labor, supervision, consultants.*—Include an itemized schedule of numbers, classes and rates of wages, salaries or fees for necessary labor, supervision and engineering and geological consultants.

(*c*) *Operating materials and supplies.*—Furnish an itemized list, including items of equipment costing less than $50 each, and power, water and fuel.

(*d*) *Operating equipment.*—Furnish an itemized list of any operating equipment to be rented, purchased, or which is owned and will be furnished by the Operator, with the estimated rental, purchase price, or suggested use-allowance based on present value, as the case may be.

(*e*) *Rehabilitation and repairs.*—Furnish a detailed list showing the cost of any necessary initial rehabilitation or repairs of existing buildings, installations, fixtures, and movable operating equipment, now owned by the Operator and which will be devoted to the exploration project.

(*f*) *New buildings, improvements, installations.*—Furnish a detailed list showing the cost of any necessary buildings, fixed improvements, or installations to be purchased, installed or constructed for the benefit of the exploration project.

(*g*) *Miscellaneous.*—Furnish a detailed list showing the cost of repairs to and maintenance of operating equipment (not including initial rehabilitation or repairs of the Operator's equipment), analytical work, accounting, workmen's compensation and employers' liability insurance, and payroll taxes.

(*h*) *Contingencies.*—Give an estimate of any necessary allowances for contingencies not included in the costs stated above.

NOTE.—No items of general overhead, corporate management, interest, taxes (other than payroll and sales taxes), or any other indirect costs, or work performed or costs incurred before the date of the contract, should be included in the estimate of costs.

7. (*a*) Are you prepared to furnish your share of the cost of the proposed project in accordance with the regulations on Government participation (Sec. 7, DMEA No. 1)? Yes.

(*b*) How do you propose to furnish your share of the costs?

[x] Money [ ] Use of equipment owned by you [ ] Other

Explain in detail on acompanying paper.

CERTIFICATION

The undersigned, whether as an individual, corporate officer, partner, or otherwise, both in his own behalf and acting for the applicant, certifies that the information set forth in this form and accompanying papers is correct and complete, to the best of his knowledge and belief.

U. S. GOVERNMENT PRINTING OFFICE 16—66551-1

RECEIVED
AUG - 3 1956

MF-103 (Continuation Sheet)

4. (a) This property was hand prospected some fifty years ago. Applicant had no interest in previous work.

(b) Reports are that ruby mica of good quality was found. No records of amounts.

(c) Several feet of exposed pegmatite indicates that exploration work would uncover strategic mica.

(d) Project is now accessible except for short distance. Some bulldozing road work must be done.

(e) Manpower, equipment and supplies are available. Power is about 300 yards away.

5. (b) We propose to bulldoze road access, bulldoze away overburden in order to best locate shaft; lower a 5'x7' shaft to a depth of 70 feet; then drift with vein a distance of 100 feet.

6. Estimate of costs:

40 Hrs. Bulldozing @ $10.00 per hour	$ 400.00
70' Shaft @ $50.00 per foot	3500.00
100' Drift @ $35.00 per foot	3500.00
Total estimated cost of project	$7400.00

MINING LEASE

RECEIVED
AUG - 3 1956

State of North Carolina Mitchell County:

This indenture made this 31 day of July, 1956, ~~1952~~,

between R. B. Phillips

of Mitchell County and State of North Carolina as party of the first part, and known as lessor, and Charlie Grindstaff

of Mitchell County and State of North Carolina, party of the second part and known as lessee.

WITNESSETH, That the party of the first part in consideration of One Dollar in hand received and hereby acknowledged by the lessor, and in consideration of the agreements hereinafter contained, on the part of the party of the second part to be performed, hereby bargains, leases and grants to the party of the second part, and his heirs and assigns, for the period of five years from the date of this agreement, the following described real property, for mining purposes, in the County and State first above written to wit:

Beginning on a stake at the center of the Charlie Prospect which is located about 275' Southeast of a large White Oak Tree, this being the corner in the boundary line between R. B. Phillips and John C. McBee, Sr. as recorded in Book No. 114, Page 28, Register of Deeds Office, Bakersville, N.C.; and running 250' North; thence 250' West; thence 500' South; thence 500' East; thence 500' North; thence 250' West to a point of closing. This property located on the headwaters of Snow Creek in Mitchell County.

TO HAVE AND TO HOLD the said lands to him, for mining purposes, the said lessee and his heirs and assigns for the aforesaid period of five years in compliance with the condition of this instrument, for the purpose and with the right to dig, quarry, search, explore for, obtain, and remove any kind of minerals, metals or fossils, and particularly mica, and to conduct the same to any extent the said party of the second part, the lessee, may desire. And it is hereby agreed between the parties to this agreement that the party of the second part is to have the use of any unoccupied buildings on said lands for mining purposes, and that he shall have the right to erect such buildings as he needs to carry on such mining operatins during the period of this lease, and that the party of the second part shall keep the same in as good condition as when received, unavoidable accidents excepted. And it is also agreed by the party of the second part that no unnecessary damage is to be done to the lands herein leased during the period of this lease and the continuance of said lease, but the said party of the second part shall have the right to take from said lands leased to the party of the second part any wood or timber the party of the second part may need to carry on said mining operations or which may be needed to carry on the addition to existing buildings or to erect new buildings or sheds on said lands. (Timber of high or special market value is excepted and shall not be used by the lessee.) And it is hereby agreed that the party of the second part, the lessee, is to have right-of-way of ingress and egress to said mines or land upon which exploration is being conducted.

AND IT IS FURTHER AGREED That the party of the second part, the lessee hereby agrees to pay to the said part of the first part, or his or their heirs or assigns, a rental royalty of 1/8 (One-eighth) Gross Sales

on the minerals taken and sold from said mines which shall be for the use of the said lands for the aforesaid period of five years. The said amounts shall be payable on the computation of selling bills on the tenth day of each month covering sales made during the previous month. Any minerals other than those set forth above which may be taken and sold shall be paid for and at the usual royalty rate of the minerals taken.

AND IT IS FURTHER AGREED That the lessee, the party of the second part, his heirs or assigns, shall have the option to renew this lease and to extend the period of its running for an additional five years from the date of its present termination. The option shall be exercised by giving formal written notice to the party of the first part or by the continuation of any mining operations then being conducted. The lessor reserve the right to use the land, or convey the same not conflicting with this lease, but under any conveyance the terms of this lease must be recognized by the grantee, purchaser, or assigns thereof. And it is agreed that the lessee may assign this mining lease or any part thereof and that he may sublease.

AND IT IS FURTHER AGREED That the lessee, the party of the second part, his heirs or assigns, is hereby given an option to purchase all the right, title and interest, legal and equitable to and in the real estate described and set forth in this lease for a total purchase price of _____, said purchase price to be paid in full within three years from the date of this instrument and it is agreed that all rental royalties paid to the party of the first part shall apply toward and be a part of the total purchase price above set forth, and that at such time that the total purchase price is paid in the form of royalties or a lump sum payment or a combination of both, the party of the first part will execute a special warranty deed to the party of the second part and that a tender of the remaining purchase price at any time within the next three years shall entitle the party of the second part to specific performance of this option contract.

BUT IT IS EXPRESSLY AGREED That unless mineral or fossil material of practical value for mining purposes shall be found within a period of two years from the date of this instrument, the lease may be terminated by the lessee at any time thereafter on thirty days notice to the lessor. The lessee agrees that during the period of this lease or the continuance of this lease work in said mines or exploration for new mines within the area leased shall not cease longer than ninety days at any one time, unavoidable accidents excepted.

WITNESS our hands and seals the day and year first above written.
