Mr.Robert A.Laurence
Room 13,
Post Office Bldg.,
Knoxville 2, Tenn.

Dear Mr.Laurence:

In reply to your letter of May 13,1957,I enclose herewith four copies of form MF-103 which, I trust, will meet with your requirements.

My property contains approximately seven acres and as I understand it no loan will be made on less than ten acres and this difference will be taken care of by the adjoining land to the south of my property with the consent of its owner Mr.Everett Phillips.

The Northwestern Bank of Bakersville,N.C.hold a mortgage on my property of $5,300.00 on a valuation of $20,000.00.

I have had a bulldozer do five hours work and have uncovered a mica vein at a depth of approximately twenty feet.

I have no map of the property that I could send you but I would be glad to show the only one I have,also the entire property to any representative you would send.

Thanking you for your letter and for your consideration, I am

Very truly yours,

GILBERT H.DOWNEY

G. H. Downey

GENERAL INSTRUCTIONS

Before filling out this application, please read DMEA Order–I, Amended, "Government Aid in Defense Exploration Projects." To assure prompt action, your application must provide all applicable material and information specified on the back of this application form. Avoid unnecessary correspondence and delays by submitting complete and accurate information. *Please submit four copies of this application and all accompanying papers* except as otherwise noted. Place your name and address on each sheet. Each item of information, maps, and reports required as a part of this application is described on the back of this form. Identify each attached statement by the item number to which it applies. If an item does not apply to your application, show the item number on your statement and after it write "not applicable." Maps or sketches should be used to supplement narrative descriptions of the property location and boundaries in item 1, existing mine workings and geology in item 2, and the proposed exploration project in item 4. When this information is not too complex, all of it may be shown on one map or sketch. All documents and other attachments submitted as a part of this application, except those in item 2(g) which you mark to be returned, become the property of the Government and will not be returned to the applicant. Send true copies, *not originals*, of leases, contracts, and other documents which are an essential part of your business records. *File this application with the Defense Minerals Exploration Administration, Department of the Interior, Washington 25, D. C., or with the nearest DMEA Field Office.*

CERTIFICATION

The undersigned, whether as an individual, corporate officer, partner, or otherwise, both in his own behalf and acting for the applicant, certifies that the information set forth in this form and accompanying papers is correct and complete, to the best of his knowledge and belief.

July 10, 1957
Dated

Gilbert Haven Downey
BY *(Signature)*

Owner
Title

A wilfully false statement or certification to any Department or Agency of the United States Government is a criminal offense. U. S. Code, Title 18, Sec. 1001.

INFORMATION REQUIRED WITH THIS APPLICATION

1. *Applicant's Property Rights:*

(a) State the legal description (section, township, and range; metes and bounds; patent number of claims) of the land upon which you wish to explore and all land adjacent to the proposed project area which you own or control. Describe any part of the project land or workings which should not be subject to Government lien for royalty payments. If the land consists of unpatented claims, state the book and page number for each recorded location notice, including amended locations, and the place where recorded (courthouse, recorder's office, county, and state).

(b) State all the names by which you know the property.

(c) State your interest in the land, whether owner, lessee, purchaser under contract, or otherwise. If you are not the owner, submit with this application one exact copy of the lease, contract, or other document (with address of owner) under which you control the property.

(d) Describe all liens, mortgages, or other encumbrances on the property.

2. *Physical Description:*

(a) Describe in detail and illustrate with maps or sketches all mining or exploration operations which you know have been or are being conducted upon the lands, including existing mine workings. Describe all production facilities.

(b) State your interest, if any, in operations stated in 2*(a)*.

(c) State, as far as you know, the past and current production, supporting your statement with copies of settlement sheets, mine records, or published data if available.

(d) Describe known ore reserves on the property giving quantities and grades and sampling methods used, supporting your statement with copies of assay certificates and assay maps if available.

(e) Describe by narrative and maps or sketches the geologic features of the property, including ore minerals, geologic formations if known, and type of deposit (vein, bedded, etc.).

(f) State your reasons for expecting to find ore, and if you have sampled the area you propose to explore, show where the samples were taken, describe sampling methods used, and provide copies of assay certificates.

(g) Send with your application at least *two* copies of all geologic or engineering reports, assay maps, or technologic information which you may have, indicating on each whether you require its return to you.

3. *Accessibility of Project:*

(a) To aid DMEA representatives who may be required to examine the property, state the name and address of the person who will meet the DMEA representative; give directions for reaching the property, and describe accessibility of the property including the mine workings.

(b) Name the shipping and supply points and places where employees reside and state the distances between them and the property.

4. *The Exploration Project:*

(a) Describe fully the proposed exploration project giving individual footages and sizes of openings *for each item of work*. Use narrative, maps, plans, and longitudinal and cross sections as necessary. Show the location of the proposed work as related to geologic features such as veins, ore-bearing beds, contacts of rock formations, etc. Show also the relation of the proposed work to any existing mine workings and to *property boundaries* or to the closest identifiable corner.

(b) If an access road to the project must be built, show the location on the property map and state the length, type, and construction methods proposed.

(c) In the event that an exploration contract with DMEA is executed, how soon will the work start and how many months will be required to complete it? State your anticipated average daily or monthly rate of progress for each type of work.

5. *Experience:*

State your operating experience and background with relation to your ability to carry out this exploration project, and also that of the person or persons who will supervise the operations.

6. *Estimate of Costs:*

Furnish detailed estimates of the costs *for each item of the work proposed in 4(a)* under the headings listed below with a total for each heading and the estimated total cost of the project. Costs for any work to be performed by an independent contractor should be shown separately under category *(a)* below. Costs for any work that is not to be performed by an independent contractor should be given in detail under categories *(b)* through *(g)*.

(a) Independent contracts. State the cost of any proposed independent contract for the performance of all or any part of the work, expressed in units of work, such as per foot of drilling, per foot of drifting, per hour of bulldozer operations, per cubic yard of material moved. Cost estimates should be supported by bids from three contractors if possible. *(Note* – If none of the work is to be contracted, write "none" after this item.)

(b) Personal services. For necessary supervision, engineering and geological services, and labor, include an itemized schedule of numbers, classes, rates of wages, salaries or fees, and periods of employment. State whether these technicians and employees are available.

(c) Operating materials and supplies. List items of material and supplies with their cost. Include under this heading power, water, and fuel, and units of equipment and tools costing less than $50 each.

(d) Operating equipment. List items of operating equipment to be used giving specifications and indicating how each item is to be acquired – i.e., rented, purchased, or provided by the applicant. If it is rented or purchased, state the estimated rental or purchase price. If it is to be furnished by the applicant, give its present fair market value.

(e) Initial rehabilitation and repairs. Describe the type and the cost of necessary *initial* rehabilitation or repair of existing buildings, fixtures, installations (exclusive of mine workings), and movable operating equipment now owned by the applicant, which will be used on the exploration project.

(f) New buildings, fixtures, installations. Describe each building, fixed improvement, and installation to be purchased, constructed, or installed for the exploration project stating specifications and cost including labor, materials and supervision.

(g) Miscellaneous. For the operating equipment listed in 6*(d)*, describe the type and estimate the cost of repairs and maintenance expected during project operations. Do not repeat initial repairs listed in 6*(e)*. Show also the costs of analytical work, accounting, workmen's compensation and employees' liability insurance, payroll taxes, and other required costs that do not fall within the previous categories.

Note – No items of general overhead, corporate management, interest, taxes (other than payroll and sales taxes), or any other indirect costs, or work performed or costs incurred before the date of the contract, should be included in the estimate of costs.

7. *(a)* State whether you are prepared to furnish your share of the cost of the proposed project in accordance with the regulations on Government participation stated in Sec. 7 of DMEA Order–I, Amended.

(b) Explain to what extent you propose to furnish your share of the costs by providing money, by use of equipment owned by you, or otherwise.

Re: Docket No. DMEA-4789-Mica
Gilbert Haven Downey
Ledger Prospect
Mitchell County, North Carolina

Dear Mr. Downey:

Reference is made to your letter of September 23, 1958, asking that a Government geologist examine your property before re-applying for a loan on the Ledger Prospect.

The DMEA program expired on June 30, 1958, and information on the new Office of Minerals Exploration program is given in the enclosed information release and the copy of the proposed regulations as published in the Federal Register September 17.

Interested persons are invited to comment on these regulations during the thirty days following publication, and the Secretary of the Interior may make changes which he considers are warranted by the comments received.

The final regulations become effective after October 17, and after that date application blanks and additional information will be forwarded to you.

Sincerely yours,

C. O. Stratendorf (for)

ACTING Director

Re: Docket No. DMEA-4789- Mica
Gilbert Haven Downey
Ledger Prospect.
Mitchell County. N. Car.

Dear Sir:-

Before going to the task of having a survey made in order to fill an application for a Government loan to develop the mines I have on my property, I would like to know if it would be within reason to inquire if you could have the geologist who inspects mines for you - call on me and see if either one of two veins would be of interest to you for a loan.

My property is within six miles of your Depot at Spruce Pine and is on the road to several of the mines now being worked on Government money.

I would appreciate hearing from you on this subject.

Yours truly
G H Downey

Re: Docket No.dmea-4789-Mica
Gilbert Haven Downey
Ledger Prospect
Mitchell County,N.C.

Dear Mr.Mittendorf:

Your acknowledgement of my letter of Sept.18,1957 is greatly appreciated and before closing the subject of my mica property I would like to give you the following information.

During the first world war I operated the Clarrissa Mica mines which are located about six miles from my home and all of my production was used in defense work. At the close of that war I received a personal letter from the War Industries Board,office of B.M.Baruch,Chairman, thanking me for my services in helping win the war. That letter is dated 12-30-1918.

Since that time I have been in the employ of the Asheville Mica Co.and retired on Nov.3,1953 when I purchased seven acres of land in Ledger and while bulldozing for a vegetable garden I uncovered a vein of mica and removed about 1500 lbs.of blocks which,upon showing to those in power at the Spruce Pine Depot,I was advised that the slight cloud in the mica made it unsuitable for purchase. Both Spruce Pine Depot and the Asheville Mica Co.have tested this mica for dielectric strength and found it to pass the necessary requirements for stockpiling.

All of the samples I have submitted for test have been taken from a soft vein close to the surface and the deeper I have gone the clearer the mica gets and it should clear up when hard vein is reached. The vein runs in the usual N.E.-S.W.direction and dips about 15 degrees from the vertical and this vein could not leave my land if it was worked for the next fifty years.

I do not wish to burden you further with my problem and again thank you for your letter.

Dear Mr. Downey:

This will acknowledge receipt of your letter of September 18, 1957, concerning your application for Government assistance to explore the subject property for strategic mica.

We are sorry to learn that you feel you are unable to comply with our requests in letters of July 25 and August 27, 1957. Pursuant to your request, we are considering your application as having been withdrawn and are placing it in our inactive files.

If at some future time you desire to reopen this case, you may do so by filing a new application, referring to the subject application by DMEA No. 4789, and furnishing the information previously requested, together with any other information that you think might be helpful.

Sincerely yours,

C. O. Mittendorf (for)

Re. Docket DMM 1
-9789-MICA

Dear Mr. Houk:-

Thank you for your letters of 7-25-57 and 8-27-57 - regarding additional data on my request for assistance in operating a mica deposit which I have on my property.

I am an old (72 yrs) retired mica miner and have been in the employ of the Bakersville Mica Co. for thirty years until retirement in 1953.

To get all of the data you require - means more work than I can attempt, therefore I will have to ask you to disregard my request for assistance in sinking a shaft approximately thirty feet deep - to test the solid vein.

Thanking you for your courtesy to me -

Sincerely,

G H Downey

Re: Docket No. DMEA-4789 ~~Mica~~
Gilbert Haven Downey
Ledger Prospect
Mitchell County, North Carolina

Dear Mr. Downey:

Reference is made to your application, dated July 10, 1957, requesting Government assistance to explore for strategic mica at the subject property.

To avoid delay in processing the application, please submit the rest of it at your earliest convenience. None of the required information, as listed on the back of form MF-103, accompanied the application. All of the questions listed should be answered. One copy of MF-103 is enclosed for your information. Please reply to each question asked.

In addition, we will require the following data:

1. Because of the mortgage on your property, a Consent to Lien and Subordination Agreement from the Northwestern Bank of Bakersville, North Carolina, is required. Also please furnish the book and page number of the recording of the deed in the County records.

2. A lease and Consent to Lien and Subordination Agreement on the adjoining land to be included in the application.

3. Metes and bounds description of your tract and the tract under lease.

4. A tie-in of the proposed work to the nearest identifiable corner or property line, that is the bearing and the distance.

As soon as we receive this information, we can continue processing the application.

Sincerely yours,

L. G. Houk
