Contract
- [ ] Terminated - Not Certified
- [ ] Terminated - Certified
- [ ] Cancelled
- [ ] Royalty Agreement

The records contained in this file are marked (x) and arranged in this order:

Folder No. 1:

Left Side

- [ ] Royalty Audits
- [ ] Certification of Discovery
- [ ] Closing Letter
- [ ] Cost Audits
- [ ] Termination Notice or Agreement
- [ ] Recision Notice
- [ ] Assignment of Contract
- [ ] Contract Amendments
- [ ] Contract with all exhibits and annexes
- [ ] Owner's Consent to Lien and Subordination Agreement
- [x] Application and attachments

Right Side

- [ ] Project summary (final)
- [ ] Work Completed analysis (final)

All other material filed in chronological order including the following reports if checked:

- [ ] Field Team Semi-Annual Report for Certified Project
- [ ] Final Field Team Report (Tab)
- [ ] Operator's Final Report (Tab)
- [ ] Interim Field Team Reports
- [ ] Operator's monthly reports and all attachments
- [ ] On-site Exam Report (Tab)
- [ ] Settlement Sheets
- [ ] Drill Logs

Additional Folders:

Left Side

Folders No._____: Reports
- [ ] Analysis of Semi-Annual Inspection Reports
- [ ] Project Summary (Interim) by DMEA Engineers

Right Side

- [ ] Field Team Semi-Annual Report for Certified Project
- [ ] Field Team Interim Reports
- [ ] Operator's Monthly Reports with transmittal, narrative and maps.

Re: New application (Uranium)
The Golden Anchor Mining &
Milling Co. Consolidated, Inc.
Moonbeam & Blue Bell claims
Pend Oreille County, Washington

Dear Mr. Selfridge:

Enclosed are the original and two copies of an application received June 30, 1958 from Mr. H. L. Newmiller, president of the above-cited company.

The list of claims and recording information has been received since Mr. Newmiller's letter of June 28, but the lease has not yet been received.

Sincerely yours,

A. E. Weissenborn
Executive Officer, DMEA
Field Team Region I

GENERAL INSTRUCTIONS

Before filling out this application, please read DMEA Order–I, Revised, "Government Aid in Defense Exploration Projects." To assure prompt action, your application must provide all applicable material and information specified on the back of this application form. Avoid unnecessary correspondence and delays by submitting complete and accurate information. *Please submit four copies of this application and all accompanying papers* except as otherwise noted. Place your name and address on each sheet. Each item of information, maps, and reports required as a part of this application is described on the back of this form. Identify each attached statement by the item number to which it applies. If an item does not apply to your application, show the item number on your statement and after it write "not applicable." Maps or sketches should be used to supplement narrative descriptions of the property location and boundaries in item 1, existing mine workings and geology in item 2, and the proposed exploration project in item 4. When this information is not too complex, all of it may be shown on one map or sketch. All documents and other attachments submitted as a part of this application, except those in item 2(g) which you mark to be returned, become the property of the Government and will not be returned to the applicant. Send true copies, *not originals*, of leases, contracts, and other documents which are an essential part of your business records. *File this application with the Defense Minerals Exploration Administration, Department of the Interior, Washington 25, D. C., or with the nearest DMEA Field Office.*

CERTIFICATION

The undersigned, whether as an individual, corporate officer, partner, or otherwise, both in his own behalf and acting for the applicant, certifies that the information set forth in this form and accompanying papers is correct and complete, to the best of his knowledge and belief.

INFORMATION REQUIRED WITH THIS APPLICATION

1. *Applicant's Property Rights:*

(a) State the legal description (section, township, and range; metes and bounds; patent number of claims) of the land upon which you wish to explore and all land adjacent to the proposed project area which you own or control. Describe any part of the project land or workings which should not be subject to Government lien for royalty payments. If the land consists of unpatented claims, state the book and page number for each recorded location notice, including amended locations, and the place where recorded (courthouse, recorder's office, county, and state).

(b) State all the names by which you know the property.

(c) State your interest in the land, whether owner, lessee, purchaser under contract, or otherwise. If you are not the owner, submit with this application one exact copy of the lease, contract, or other document (with address of owner) under which you control the property.

(d) Describe all liens, mortgages, or other encumbrances on the property.

2. *Physical Description:*

(a) Describe in detail and illustrate with maps or sketches all mining or exploration operations which you know have been or are being conducted upon the lands, including existing mine workings. Describe all production facilities.

(b) State your interest, if any, in operations stated in 2*(a)*.

(c) State, as far as you know, the past and current production, supporting your statement with copies of settlement sheets, mine records, or published data if available.

(d) Describe known ore reserves on the property giving quantities and grades and sampling methods used, supporting your statement with copies of assay certificates and assay maps if available.

(e) Describe by narrative and maps or sketches the geologic features of the property, including ore minerals, geologic formations if known, and type of deposit (vein, bedded, etc.).

(f) State your reasons for expecting to find ore, and if you have sampled the area you propose to explore, show where the samples were taken, describe sampling methods used, and provide copies of assay certificates.

(g) Send with your application at least *two* copies of all geologic or engineering reports, assay maps, or technologic information which you may have, indicating on each whether you require its return to you.

3. *Accessibility of Project:*

(a) To aid DMEA representatives who may be required to examine the property, state the name and address of the person who will meet the DMEA representative; give directions for reaching the property; and describe accessibility of the property including the mine workings.

(b) Name the shipping and supply points and places where employees reside and state the distances between them and the property.

4. *The Exploration Project:*

(a) Describe fully the proposed exploration project giving individual footages and sizes of openings *for each item of work*. Use narrative, maps, plans, and longitudinal and cross sections as necessary. Show the location of the proposed work as related to geologic features such as veins, ore-bearing beds, contacts of rock formations, etc. Show also the relation of the proposed work to any existing mine workings and to *property boundaries* or to the closest identifiable corner.

(b) If an access road to the project must be built, show the location on the property map and state the length, type, and construction methods proposed.

(c) In the event that an exploration contract with DMEA is executed, how soon will the work start and how many months will be required to complete it? State your anticipated average daily or monthly rate of progress for each type of work.

5. *Experience:*

State your operating experience and background with relation to your ability to carry out this exploration project, and also that of the person or persons who will supervise the operations.

6. *Estimate of Costs:*

Furnish detailed estimates of the costs *for each item of the work proposed in 4(a)* under the headings listed below with a total for each heading and the estimated total cost of the project. Costs for any work to be performed by an independent contractor should be shown separately under category *(a)* below. Costs for any work that is not to be performed by an independent contractor should be given in detail under categories *(b)* through *(g)*.

(a) Independent contracts. State the cost of any proposed independent contract for the performance of all or any part of the work, expressed in units of work, such as per foot of drilling, per foot of drifting, per hour of bulldozer operations, per cubic yard of material moved. Cost estimates should be supported by bids from three contractors if possible. *(Note* – If none of the work is to be contracted, write "none" after this item.)

(b) Personal services. For necessary supervision, engineering and geological services, and labor, include an itemized schedule of numbers, classes, rates of wages, salaries or fees, and periods of employment. State whether these technicians and employees are available.

(c) Operating materials and supplies. List items of material and supplies with their cost. Include under this heading power, water, and fuel, and units of equipment and tools costing less than $50 each.

(d) Operating equipment. List items of operating equipment to be used giving specifications and indicating how each item is to be acquired – i.e., rented, purchased, or provided by the applicant. If it is rented or purchased, state the estimated rental or purchase price. If it is to be furnished by the applicant, give its present fair market value.

(e) Initial rehabilitation and repairs. Describe the type and the cost of necessary *initial* rehabilitation or repair of existing buildings, fixtures, installations (exclusive of mine workings), and movable operating equipment now owned by the applicant, which will be used on the exploration project.

(f) New buildings, fixtures, installations. Describe each building, fixed improvement, and installation to be purchased, constructed, or installed for the exploration project stating specifications and cost including labor, materials and supervision.

(g) Miscellaneous. For the operating equipment listed in 6*(d)*, describe the type and estimate the cost of repairs and maintenance expected during project operations. Do not repeat initial repairs listed in 6*(e)*. Show also the costs of analytical work, accounting, workmen's compensation and employees' liability insurance, payroll taxes, and other required costs that do not fall within the previous categories.

Note – No items of general overhead, corporate management, interest, taxes (other than payroll and sales taxes), or any other indirect costs, or work performed or costs incurred before the date of the contract, should be included in the estimate of costs.

7. *(a)* State whether you are prepared to furnish your share of the cost of the proposed project in accordance with the regulations on Government participation stated in Sec. 7 of DMEA Order–I, Revised.

(b) Explain to what extent you propose to furnish your share of the costs by providing money, by use of equipment owned by you, or otherwise.

THE GOLDEN ANCHOR MINING AND MILLING COMPANY

CONSOLIDATED, INC.

Application for Aid in an Exploration Project

1. Applicant's Property Rights:

(a) Legal description: Unpatented Moonbeam Claims Nos. 1, 2, 3, 4, 5, and 6; and unpatented Bluebell Claims Nos. 1 and 2; Section Twelve; Township Thirty-two; Range Forty-two; Pend Orielle County; State of Washington.

The claims are situated near Ten Mile Creek on the Flowery Trail Road, approximately eleven miles west of Usk, Washington.

The applicant is unfamiliar with adjacent land.

Unpatented claims are filed in the office of the County Recorder of Pend Orielle County, State of Washington, as follows:

(b) The only name known is given above.

(c) Applicant is leasing. Copy of lease is enclosed. No.

(d) There are no liens, mortgages, or encumbrances on the property.

2. Physical Description:

(a) There are two shallow test holes, four to five feet in depth; surface soil has been removed by bulldozing to a depth of approximately two feet over an area twenty to fifty feet in width, and three hundred feet in length. There are no production facilities.

(b) Applicant did the bulldozing.

(c) There has been no past or current production.

(d) The ore reserves are unknown. No assay certificates or maps have been made.

(e) The terrain is considered moderately mountainous with no precipitious cliffs. Minerals are urnaium ores. Formation is of a mica schist, pegmatite character. Type of deposit is undetermined.

(f) We expect to find ore as very high readings have been obtained on both scintillator and geiger counter over a large area up to 300 feet in width and over 1600 feet in length. Two samples

taken at from one to three feet in depth in a test hole on Moonbeam No. 1 Claim was given to the Atomic Energy Commission for testing on June 27, 1958--no returns received at this writing.

(g) There are no geologic or engineering reports, assay maps, or technological information covering this area.

3. Accessability of Project:

(a) Contact representatives George L. Howard, E. 1808 Rockwell Ave., Spokane, Wash., phone, HU 7-5419; or H. L. Newmiller, 2328½ W. First Ave., Spokane, Wash., phone, RI 7-3250. To reach the property, take Flowery Trail Road from Usk, Washington west about eleven miles. The claims lie on both sides of the county road (Flowery Trail). Three Golden Anchor Mining and Milling Company signs are posted on trees in three different locations beside the road.

(b) There are no shipping or supply points or employees' residences established at this date.

4. The Exploration Project:

(a) Proposed project includes core drilling ten holes up to one hundred and fifty feet in depth over an area three hundred feet in length and one hundred feet in width on Moonbeam No. 1 Claim, ~~Percussion drilling~~ to determine location and depth of ore body. Percussion drilling and bulldozing would be necessary before dore drilling operations.

(b) No access road is necessary as workings lie next to Flowery Trail Road.

(c) Should a DMEA contract be executed, work could be begun the first of September and completed in thirty days.

5. Experience:

Mr. Newmiller, as supervisor and manager of The Golden Anchor Mining and Milling Company, has had eight years practical experience.

6. Estimate of Costs:

(a) Independent contracts: Core drilling would be contracted at an estimated cost of $9,000.00 at six dollars per foot. Due to lack of time in submitting this application, no bids have been obtained. Bulldozing would be hired at an estimated rate of $15.00 per hour for an estimated seven days, totaling $840.00.

(b) Personal services: Two company employees would do the percussion drilling and general labor at $20.00 per day for two weeks, total wages, $560.00. Supervisory wages would be $500.00 for one month.

(c) Operating materials and supplies: (Estimated costs.)

Bits (5), $80.00; 38' feet drill steel, $60.00; gasoline, 24 gal. per day, 14 days, $100.00; powder, 200 lbs., $60.00; miscellaneous tools to be furnished by company.

(d) Operating equipment:

Compressor to be rented at $100.00 per week, two weeks, $200.00; hammer and truck furnished by company.

(e) There would be no rehabilitation or repairs.

(f) There would be no buildings, fixtures or installations.

(g) Miscellaneous: Bit replacement, $80.00; steel replacement, $60.00; tool replacement, $200.00; truck maintenance, $150.00; analytical work; $200.00; workman's compensation, payroll taxes, liability insurance on $560.00, $75.00.

7. (a) We are prepared to furnish our share.

(b) We will furnish our share of cost by providing money and equipment.

Note: This estimate is submitted with the understanding that it is subject to revision after consultation with representatives of the Defense Minerals Exploration Administration.

Re: Docket No. DMEA-5072 (Uranium)
Moonbeam and Blue Bell Claims
Pend Oreille County, Washington

Dear Mr. Newmiller:

Reference is made to our letter of January 29, 1959, regarding action required to make your DMEA application eligible for consideration under the OME regulations.

We wish to cooperate with you in allowing ample time to complete such action, but, if we do not hear from you within 30 days from the date of this letter, we will assume that you are no longer interested in proceeding with your application, and we will consider it as having been withdrawn.

Sincerely yours,

(signed) FRANK E. JOHNSON

Re: Docket No. DMEA-5072 (Uranium)
Moonbeam and Blue Bell Claims
Pend Oreille County, Washington

Dear Mr. Newmiller:

Enclosed is a copy of the regulations for obtaining Federal assistance in financing mineral exploration under which the new Office of Minerals Exploration will operate.

If you wish that your partly-processed DMEA application be considered under the OME regulations, please complete and return four of the copies of the attached application, MME Form 40.

Your attention is called especially to the certification which when signed declares that you would not ordinarily undertake the proposed exploration under current conditions and circumstances at your sole expense, and to Item 1(a) - and 1(c) if applicable - which relates to information used to determine your financial eligibility under the new exploration program. Information that is included in your DMEA application need not be repeated in the OME application, but you can add new information if you so desire.

Since no lease was received with your original application, it is essential that you forward two copies with the new application form.

Also enclosed are six copies of the Lien and Subordination Agreements, MME Form 52, referred to in Item 2(c) of the application. Early submittal of five completed copies of the form will save time in case you apply for exploration assistance under the OME program and a contract is granted.

If you do not wish to participate in the OME program, we shall appreciate being so informed.

Re: OME 5072
The Golden Anchor Mining
& Milling Co., Inc.
Moonbeam & Blue Bell Claims
Pend Oreille County, Wash.
Appl. Est. $12,165 - Uranium

Memorandum

To: F. S. Knouse, Office of Minerals Exploration

From: N. E. Nelson, U. S. Geological Survey

Subject: Review of application

The applicant requests assistance in exploring by bulldozing and close diamond drilling part of an area 300 x 1,600 feet, underlain by mica schist in which anomalous scintillator and geiger counter readings have been obtained.

Work done consists of bulldozing an area 20 to 50 x 300 feet to a depth of about 2 feet and two shallow test holes. Samples had been submitted to the A.E.C. as of June 27, 1958, but no returns had been received at the time of filing the application.

Probably more work has been done of which the Field Office may have information.

Referral of the application to the Field Team is recommended.

Dear Mr. Newmiller:

As you have an application for exploration aid pending in our office, perhaps you may wish to study the proposed OME regulations and comment on them before October 17 as provided in the first paragraph of the enclosed notice reprinted from the Federal Register of September 17, 1958.

Some time after October 17 when the final regulations become effective, we will send you the new application form so you may furnish any additional information necessary to process your application for aid under the new program.

Sincerely yours,

G. D. Antonioni

Gentlemen:

My letter of July 14 was not entirely correct. Your application was accepted and numbered DMEA 5072 because it was received at the DMEA Field Office in Spokane, Washington before midnight, June 30.

However, your application could not be processed before that deadline, so it will be held until we know whether exploration aid is to be continued.

You can expect to hear from us at that time.

Sincerely yours,

S

Gentlemen:

We are sorry that we cannot accept your application for exploration aid. It was received after June 30th, the last day for accepting new applications for Defense Minerals Exploration Administration assistance, and we can do nothing with it until the Congress acts on proposed legislation to continue exploration aid.

If you have no objection, we will hold your application until we know whether the aid is to be continued. If the aid is continued, we will then explain the terms of the new program and you may decide whether we should consider your application under these terms. If aid is not continued, your application will be returned.

Sincerely yours,

Allen S. Dakan, Director
