OFFICE OF MINERALS EXPLORATION
CONTRACT ADMINISTRATION AND AUDIT DIVISION

REPORT OF ROYALTY REVIEW

I have reviewed the files of the Washington office pertaining to Contract Idm-E943, Docket DMEA-4047 (uranium), dated April 11, 1956, with

Charles M. Coleman, J. H. Deimerly, Albert W. Dilling,
Leonard D. Carmichael, Kirkpatrick W. Dilling,
and Mabel E. Carmichael
c/o Kirkpatrick W. Dilling
188 West Randolph Street
Chicago 1, Illinois

for the purpose of determining the amount of royalty payable to the U. S. Government on sales of minerals from property referred to as the Clyde, Marsh, and Longport Groups of Claims located in Fremont County, Wyoming, during the period June 17, 1959, through May 22, 1963.

A certification of discovery or development was issued on March 10, 1958, and, in accordance with Article 8 and Amendment No. 5 of the contract, royalty is payable on all minerals produced from the land described in Article 2 of the contract for a period of 12 years from the date of the contract or until the total net amount contributed by the Government without interest is fully repaid, whichever occurs first. A Report of Review dated November 10, 1958, indicated accepted costs under the exploration contract amounting to $20,290.22 with the Government's contribution on a 68.03 percent (average) basis being $13,803.23.

The status of the project, the scope of review, and the reasons therefor are stated on page 2.

This review found no sales subject to the Government's royalty subsequent to the period covered by a prior Report of Royalty Review, which also found no sales subject to the Government's royalty through June 16, 1959. Accordingly, as of May 22, 1963, the royalty account of this project was found to be:

Total Royalty Payable	$ -0-
Total Royalty Paid	-0-
Balance of Royalty Due	$ -0-

July 12, 1963

E. D. Talbert, OME Auditor

STATUS OF PROJECT, SCOPE OF REVIEW
AND REASONS THEREFOR

This contract provides that the Operator, as principal if the producer or as surety if not the producer, shall pay to the Government a percentage royalty on all minerals produced from the land thereunder. The land consists of Clyde Nos. 7 through 18, Marsh Nos. 1 through 6, and Longport Nos. 1 through 5 unpatented claims located in secs. 15, 22, and 23, T. 32 N., R. 91 W., and secs. 27, 32, 33, and 34, T. 33 N., R. 90 W., 6th P.M., Gas Hills District. At the time the contract was executed the Operator was in possession by virtue of deeds of conveyance subject to certain overriding royalty interests of the locators, Irving L. Marshack, Don Louder, Robert W. Utter, and Charles Lesnick. In consideration of the contract these holders of royalty interests executed Subordination Agreements dated March 26 and April 11, 1956.

The Operator is composed of six persons, all officers of the Riverton Uranium Corporation. In executing the contract they deleted all references to "partner" and "partners". All contract business was conducted in the name of Charles M. Coleman & Associates by Albert W. Dilling, 139 North Clark Street, Chicago 2, Illinois, under an April 24, 1956, Power of Attorney executed by the other five persons.

Exploration work under the contract was terminated effective June 26, 1958, by an agreement dated September 29, 1958. No minerals were produced during the exploration period. Subsequent examinations of the property, checks of A.E.C. production records, and inquiries by OME regional representatives disclosed no production through February 15, 1960.

A MME Form 63 addressed to Albert W. Dilling resulted in a March 18, 1963, reply from Kirkpatrick W. Dilling to the effect that the property had been sold to Gas Hills Uranium Co. and production since February 15, 1960, was unknown.

In a May 22, 1963, reply to a MME Form 63 inquiry, Leon Hetherington, Chief Geologist of Gas Hills Uranium Co., P. O. Box 1011, Laramie, Wyoming, stated that neither production nor change in property status had occurred since Gas Hills acquired the property.

This review was made in lieu of an on-site audit of the Operator's accounts and records for the following reasons:

(1) The files contain no indication of production from the property since the date of the contract; and

(2) The administrative cost to the Government of an on-site royalty audit at this time would be excessive in relation to the amount of possible royalty which might be disclosed.

Dear Mr. Hasler:

In response to your letter of April 29, 1968 we have checked the production records for the period July 1963 through April 11, 1968 and do not find any production for the Clyde 7-16, 17 and 18, Marsh 1-6 and Longport 1-5 claims during this period.

Very truly yours,

Don R. Hill, Director
Mining Division

ASSIGNMENT AND LEASE OF MINING CLAIMS

THIS ASSIGNMENT AND LEASE, made and entered into this 8th day of September, 1965, by and between GAS HILLS URANIUM COMPANY, a Wyoming corporation, P.O. Box 1011, Laramie, Wyoming, hereinafter referred to as Lessor, and UTAH CONSTRUCTION & MINING CO., a Delaware corporation, 550 California Street, San Francisco, California, hereinafter called Lessee:

W I T N E S S E T H:

Lessor, in consideration of the sum of One Dollar ($1.00) paid to it by Lessee, the receipt and sufficiency of which is hereby acknowledged and in further consideration of the covenants on the part of the Lessee to be kept, performed and observed as contained in that certain Agreement between the Lessor and the Lessee dated July 1, 1965, hereinafter referred to and known as the Agreement, do hereby let, lease and demise unto Lessee for and during the term commencing upon the date contained in said Agreement and to and including December 31, 1990, or until this lease is sooner terminated in accordance with the provisions of said Agreement, the real property of Lessors situated in Fremont County, Wyoming, and described as follows:

Name of Claim	Recorded Book	Recorded page	County and State	Situate Within Sec. Twp. Rge.
Rex 1-14, incl.	93	486-518	Fremont, Wyoming	Secs.10,11, & 14, T 32 N, R 91 W.

The purpose for which this Lease is made, the further consideration therefor and the rights and obligations including the royalties payable with respect to said mining claims or lands and the use thereof are all set forth in said Agreement; and this Lease and said Agreement shall be considered and construed together, and they shall always be deemed jointly to constitute but one Agreement covering the rights and liabilities of the parties, reference to said Agreement being hereby made for greater particularity.

Lessor hereby assigns to Lessee its interest under any outstanding leases, contracts of purchase, options or other contracts in any way relating to the above described mining claims.

TO HAVE AND TO HOLD SAME, together with all and singular the hereditaments and appurtenances thereunto belonging or in anywise appertaining, for the purpose and upon the terms set forth in said Agreement.

By the granting of this Lease, Lessors, for themselves, their successors and assigns, lease unto Lessee, its successors and assigns, only such right, title, and interest in and to the mining claims and lands above described as shall be held by Lessors, their successors and assigns.

IN WITNESS WHEREOF, the parties hereto have caused these presents to be executed the day and year first above written.

Contract Idm-2943

Dear Mr. Ferguson:

On September 24, 1965, we sent you a set of MME Form 63 by registered mail relating to the subject contract. Our letter was received on September 30, 1965, by Louise Steinhausen according to our file. However, the form was not returned to us.

Enclosed is a new set of the form which please execute and return as indicated.

Can you give us a more recent address for Mr. A. R. Grusbee than Boulder, Colorado?

Sincerely yours,

FRANK E. JOHNSON

AGREEMENT

This agreement made and entered into as of May 15, 1964 by and between GAS HILLS URANIUM COMPANY, a Colorado Corporation, hereinafter "Gas Hills" and A. R. ORMSBEE of Boulder, Colorado, hereinafter "Ormsbee"

WITNESSETH:

WHEREAS, Gas Hills owns certain mining claims (hereinafter "the mining claims") located in Fremont County, Wyoming, and described with particularity in Exhibit A hereto; and

WHEREAS, Parties hereto are in dispute as to the right of Ormsbee to maintain a trailer camp located on three of the mining claims, such claims being Eureka No. 33, 34 and 35 in Section 28, Township 33 North, Range 90 West; and

WHEREAS, parties hereto desire to resolve such dispute and to provide for the exploration and development of the mining claims

NOW, THEREFORE, in consideration of the mutual promises herein contained, IT IS AGREED AS FOLLOWS:

1. Gas Hills will upon completion by Ormsbee of the assessment work set forth in paragraph 2(a) convey to Ormsbee an undivided one-half interest in the mining claims, said conveyance to be subject to all outstanding royalties and to be without any warranty whatsoever.

2. (a) Ormsbee will on or before July 15, 1964 commence assessment work on the mining claims and will diligently continue same until $100.00 of assessment work has been performed for each mining claim, which work shall be completed not later than August 31, 1964. Said assessment work shall consist of exploratory drilling, which shall be conducted in accordance with good engineering practices and pursuant to the direction of Gas Hills. All work performed hereunder shall be at the sole expense of Ormsbee.

(b) Ormsbee will for each of the succeeding assessment years through the assessment year ending August 31, 1970 at his sole expense perform the assessment work required under the mining laws of the United States in order to protect all the mining claims against relocation; such work to be performed in conformity with the specifications set forth in paragraph 2(a) hereof or in such other manner as mutually agreed upon in writing by the parties hereto. In the absence of such mutual agreement, the provisions of paragraph 2(a) hereof shall control the manner in which said assessment work is performed. Ormsbee's obligation under this subparagraph may be avoided by a reconveyance of the claims to Gas Hills Uranium Company on or before June 1st of each year.

(c) In addition to the drilling undertaken and agreed to be performed pursuant to subparagraph (a) and (b) of this paragraph, Ormsbee shall undertake at his sole cost and expense to accomplish exploration drilling work on "the mining claims" or on such other mining claims as may be designated by this Corporation, which additional exploration drilling shall have a total value of $47,500.00. Said additional drilling provided by this subparagraph (c) shall be conducted in accordance with good engineering practices and pursuant to the direction of Gas Hills. Rotary drilling undertaken in satisfaction of this provision shall conclusively be presumed to have a value of $.95 per foot. All work shall be completed not later than August 31, 1964. Ormsbee shall submit monthly reports to Gas Hills reflecting the work accomplished pursuant to this paragraph.

(d) In performing work pursuant to the provisions of this paragraph, Ormsbee shall comply with all unemployment compensation, social security, workmen compensation and other federal and state laws and shall maintain adequate liability insurance. Ormsbee shall pay promptly for all costs of labor, materials, and supplies used in connection therewith and shall keep the mining claims free and clear of any liens arising out of the work performed by him.

3. The parties hereto hereby recognize that the lease from Gas Hills-Western Partners to Ormsbee covering the Eureka 33, 34 and 35 claims was executed without the consent of Gas Hills and as between the parties hereto has no force or effect and nothing herein contained shall be deemed a ratification of said mining lease. Gas Hills hereby consents to the maintenance on said mining claims of existing improvements subject to compliance by Ormsbee with all of the provisions hereof and subject to the following conditions:

(a) That Ormsbee shall keep valid the Special Land Use Permit issued by the Bureau of Land Management for the surface use of five (5) acres located on a portion or portions of the Eureka 33, 34 and/or 35 claims during the continuance of surface use by Ormsbee.

(b) That Ormsbee shall not construct any further improvements, temporary or permanent, on said mining claims without the express written consent of Gas Hills.

(c) That in the event the improvements on said mining claims interfer with mining operations, or with operations of Federal Partners mill and mining waste and tailings pond, that they will be removed from the mining claims if requested by Gas Hills Uranium Company at the joint expense of both parties and in all instances mining operations and related activity shall have priority over the maintenance of the permanent improvements located on said mining claims, Provided, however, that to the extent such removal is necessitated in order to provide space for mill and mining waste of the Federal Partners and tailings pond for the Federal Partner's mill such right shall be granted to Federal Partners only in return for a fair consideration which shall be shared proportionate to each party's interest in the mining claims. Provided, further, that the right to grant such use to Federal Partners is subject to the executive power vested in Gas Hills pursuant to paragraph 4 hereof.

(d) That Ormsbee will indemnify and hold harmless Gas Hills directly and as a member of Federal-Radorock-Gas Hills Partners,

a Wyoming co-partnership, from any liability, loss and cost arising or which might arise or any claim of liability arising or which might arise from the operation of the Federal-Radorock-Gas Hills Mill involving an alleged injury or damages to persons or properties located on the Eureka No. 33, 34 and 35 claims and such indemnity shall extend to and include but not be limited to liability, loss and cost arising out of the negligent operation of said mill and related facilities including tailing pond and any trespass resulting from such operation, actual or alleged, and such indemnity shall extend to and include the cost of defending any such action and/or negotiating a settlement relating to any such action.

4. Parties hereto upon execution of this agreement will execute the operating agreement designating Gas Hills as operator of the mining claims, a copy of which operating agreement is attached hereto as Exhibit B and by this reference incorporated herein. Gas Hills shall have the executive power to sell, lease or enter into an operating agreement covering the undivided one-half interest to be conveyed to Ormsbee pursuant to paragraph 1. Provided, however, such sale, lease or operating agreement shall be on the same terms as the comparable interest of Gas Hills is disposed of and the consideration received shall be shared proportionate to their respective interests. Any disposition made by Ormsbee shall be subject to this provision which shall be deemed a covenant running with the land and shall be binding upon Ormsbee, his heirs, assigns and personal representatives.

5. This agreement supercedes all prior agreements and represents the entire agreement of the parties. This agreement shall be binding and shall inure to the benefit of the parties hereto, their heirs, personal representatives, successors, and assigns. Notice hereunder shall be deemed effective upon deposit in the United States mail by certified mail, postage prepaid, or by Western Union telegram, prepaid, and directed as follows:

Gas Hills Uranium Company, P. O. Box 1011, Laramie, Wyoming, and A.R. Ormsbee, Boulder, Colorado.

6. In event Ormsbee bonafide attempts to dispose of his interest in the mining claims or improvements thereon, he shall first give Gas Hills an opportunity to buy said interests upon the same terms and conditions as bonafide offered to Ormsbee by a third party. Gas Hills shall have 30 days from the receipt of notice of such offer and the terms thereof in which to exercise this right of first refusal. The interest in the mining claims sold or otherwise disposed of by Ormsbee shall be subject to the executive power retained by Gas Hills pursuant to paragraph 4 hereof.

EXECUTED the day and year first above written.

GAS HILLS URANIUM COMPANY
