CEMENT IN JUNE 2015

This report provides monthly data on the shipments of cement to final customers and the production of clinker in the United States from January 2014 through June 2015.¹ Data on the imports of cement and clinker for June 2015 and the year through June are also provided.

Total shipments of portland and blended cement in the United States and Puerto Rico in June 2015 were about 8.9 million metric tons (Mt), up by 7.6% from the level in June 2014 (tables 2A and 2B). Shipments for the year through June totaled 40.8 Mt, up by 3.6% from the same period in 2014. The leading producing States for portland and blended cement in June were Texas, California, Missouri, Florida, and Michigan, in descending order, and accounted for about 41% of total apparent output (table 1A). The leading consuming States (Texas, California, Florida, Illinois, and Ohio, in descending order) received about 36% of the June shipments (tables 2A and 2B).

Clinker production totaled 7.0 Mt in June 2015, up by 7.2% from the output in June 2014 (table 4). Production for the year through June was 35.3 Mt, up by 4.7% from the same period in 2014. The leading clinker-producing States in June were Texas, Missouri, California, Florida, and Alabama.

¹Footnoted revisions to the historical data are those received since the publication of the previous month's edition of this report. Data for the current month may contain revisions (not indicated by footnotes) received since the publication of the preliminary edition of the current month's report.

Masonry cement shipments in June 2015 of about 220,000 metric tons (t) were up by 6.1% from those of June 2014 (table 2C). Shipments for the year through June were 1.09 Mt, up slightly from the same period in 2014. The leading masonry cement-consuming States were, in descending order, Florida, Texas, California, North Carolina, and Georgia, and these received 51% of June's shipments.

Tables 5, 6, and 7 contain import data from the U.S. Census Bureau; however, data for clinker imports into the Seattle, WA, and the Detroit, MI, customs districts do not include material trucked in from Canada on an informal entry basis and, likewise, imports of cement into the El Paso, TX, district exclude significant informal entries. June 2015 imports of cement and clinker of 1.2 Mt were 34% higher than those in June 2014. Imports for the year through June totaled 4.9 Mt, up by about 39% from the same period in 2014. Some of the growth in imports relative to production reflects higher consumption in certain districts that have traditionally been significantly reliant on imports, as well as production constraints, including those related to still idle kilns, in some other districts.

^rRevised.

¹Data are unrounded but are believed to be accurate to no more than three significant digits.

²Includes cement manufactured from imported clinker.

³Data may not add to totals shown because of independent rounding.

⁴As reported by domestic and Canadian cement manufacturers and other importers.

¹Revised.

²Data are unrounded but are believed to be accurate to no more than three significant digits.

³Includes imported cement and cement manufactured from imported clinker.

⁴As reported by domestic and Canadian cement manufacturers and other importers.

⁵Data may not add to totals shown because of independent rounding.

¹Revised. -- Zero.

²Data are unrounded but are believed to be accurate to no more than three significant digits.

³Includes imported cement and cement manufactured from imported clinker.

⁴Blended cement defined per ASTM standard C595.

⁵Includes U.S. possessions and territories.

⁶Data may not add to totals shown because of independent rounding.
