## CEMENT IN APRIL 2017

This report provides monthly data on the shipments of cement to final customers and the production of clinker in the United States from January 2016 through April 2017.<sup>1</sup> Data on the imports of cement and clinker for April 2017 are also provided.

Total shipments of portland and blended cement in the United States and Puerto Rico in April 2017 were about 7.6 million metric tons (Mt), slightly less than sales in April 2016 (tables 2A and 2B). The leading producing States for portland and blended cement in April 2017 were Texas, California, Missouri, Florida, and Alabama, in descending order (table 1A). The leading cement-consuming States (Texas, California, Florida, Ohio, and Georgia, in descending order) received 41% of the April shipments (tables 2A and 2B). Shipments for the year through April were 26.5 Mt, substantially unchanged from the same period in 2016.

Clinker production totaled 6.1 Mt in April 2017, up slightly from the output in April 2016 (table 4). The leading clinker-producing States in April were, in descending order, Texas, California, Missouri, Florida, and Pennsylvania, and these States accounted for 48% for the month's total production. Clinker production for the year through April totaled 21.9 Mt, down slightly from that of the same period in 2016.

Masonry cement shipments of about 193,000 metric tons (t) in April 2017 were down by 6% from those in April 2016 (table 2C). The leading masonry-cement-consuming States were, in descending order, Florida, Texas, California, North Carolina,

and Tennessee; these received 54% of April's shipments. Masonry cement shipments for the year through April were 780,000 t, up slightly from those of the same period in 2016.

Tables 5, 6, and 7 contain import data from the U.S. Census Bureau; however, data for clinker imports into the Seattle, WA, and the Detroit, MI, customs districts do not include material trucked in from Canada on an informal entry basis. Likewise, imports of cement into the El Paso, TX, district are missing significant informal entries. For some time, imports have been increasing at rates generally higher than those for cement sales overall. In part, this reflects the collapse of imports during the recession (hence a low basis for comparison), but also the relatively low cost of imports resulting from a combination of low bunker fuel costs, modest ship chartering rates, increased ship availability, and a strong dollar. In some regions, imports are offsetting domestic production constraints related to difficulties in bringing long-idle extra kilns back online. Also, clinker imports have increased, likely temporarily, ahead of expected disruptions to kiln output at certain plants that are undergoing upgrades. Notwithstanding the overall trend, April 2017 imports of cement and clinker of about 1.08 Mt were about 26% lower than those in April 2016 (the record month for that year). As listed, imports for the year through April totaled 3.53 Mt, down slightly from those of the same period in 2016; however, within the 2017 total, the January imports were understated by nearly 28,000 t of gray portland cement imported into the San Francisco Customs district under a tariff code for another commodity.

---

<sup>1</sup>Footnoted revisions to the historical data are those received since the publication of the previous month's edition of this report. Data for the current month may contain revisions (not indicated by footnotes) received since the publication of the preliminary edition of the current month's report.

<sup>r</sup>Revised.

<sup>1</sup>Data are unrounded but are believed to be accurate to no more than three significant digits.

<sup>2</sup>Includes cement manufactured from imported clinker.

<sup>3</sup>Data may not add to totals shown because of independent rounding.

<sup>4</sup>Beginning with July 2016, data for Indiana and Ohio have been combined to avoid disclosing proprietary data.

<sup>5</sup>As reported by domestic and Canadian cement manufacturers and other importers.

<sup>†</sup>Revised.

<sup>1</sup>Data are unrounded but are believed to be accurate to no more than three significant digits.

<sup>2</sup>Includes imported cement and cement manufactured from imported clinker.

<sup>3</sup>As reported by domestic and Canadian cement manufacturers and other importers.

<sup>4</sup>Data may not add to totals shown because of independent rounding.

Value <sup>3, 4, 5</sup>	\$94,556,851	\$296,056,423			

-- Zero.

<sup>1</sup>Includes white cement and clinker.

<sup>2</sup>Although imports are reported from Malta, Malta has no cement plants; the import source is thought to be Turkey.

<sup>3</sup>Value = c.i.f. (cost, insurance, and freight).

<sup>4</sup>Data for the Detroit and Seattle districts for imports from Canada are thought to be underrepresented with respect to clinker.

<sup>5</sup>Data for the El Paso district for imports from Mexico are believed to be underrepresented with respect to cement.

<sup>6</sup>Data for the San Francisco Customs district exclude a January 2017 entry of 27,816 metric tons, worth \$1,068,000 c.i.f., of gray portland cement from China that was misregistered by the importer under a tariff code for a different commodity.

Source: U.S. Census Bureau.
