CEMENT IN APRIL 2018

This report provides monthly data on the shipments of cement to final customers and the production of clinker in the United States from January 2017 through April 2018.¹ Data on the imports of cement and clinker for April 2018 also are provided. Listings of leading States (below) are in order of descending activity.

Total shipments of portland and blended cement in the United States and Puerto Rico in April 2018 were about 8.2 million metric tons (Mt), 8.9% higher than shipments in April 2017 (tables 2A and 2B). Shipments for the year through April totaled about 27.2 Mt, up by 2.6% from those for the same period in 2017. The leading producing States for portland and blended cement in April 2018 were Texas, California, Missouri, Florida, and Alabama (table 1A). The leading cement-consuming States (Texas, California, Florida, Georgia, and Ohio), received about 44% of the April shipments (tables 2A and 2B).

Masonry cement shipments of about 209,000 metric tons (t) in April 2018 were 8.0% higher than those in April 2017 (table 2C). For the year through April, shipments totaled 753,000 t, 3.4% less than those for the same period in 2017. The leading masonry-cement-consuming States in April 2018 were Florida, Texas, California, North Carolina, and Georgia; these States received about 57% of the April shipments.

¹Footnoted revisions to the historical data are those received since the publication of the previous month's edition of this report.

Clinker production totaled 6.4 Mt in April 2018, up by 5.0% from the output (excluding Puerto Rico) in April 2017 (table 4). For the year through April 2018, production was 21.7 Mt, essentially unchanged from that of the same period in 2017. The leading clinker-producing States in April 2017 were Texas, California, Missouri, Florida, and Alabama.

Tables 5, 6, and 7 list import data from the U.S. Census Bureau; however, data for clinker imports into the Seattle, WA, and the Detroit, MI, customs districts do not include material trucked in from Canada on an informal entry basis. Likewise, imports of cement into the El Paso, TX, district are missing significant informal entries from Mexico. Monthly imports may show significant year-over-year changes for a variety of reasons and commonly do not correlate well with same-month consumption levels in the import districts. April 2018 imports of cement and clinker totaled about 1.3 Mt, up by nearly 19% from imports in April 2017. Imports for January through April 2018 totaled 3.7 Mt, up by 4.0% from imports in the same period in 2017.
