CEMENT IN JUNE 2018

This report provides monthly data on the shipments of cement to final customers and the production of clinker in the United States from January 2017 through June 2018.¹ Data on the imports of cement and clinker for June 2018 also are provided. Listings of leading States (below) are in order of descending activity.

Total shipments of portland and blended cement in the United States and Puerto Rico in June 2018 were about 9.3 million metric tons (Mt), essentially unchanged from shipments in June 2017 (tables 2A and 2B). Shipments for the year through June totaled about 45.9 Mt, up by 2.8% from those for the same period in 2017. The leading producing States for portland and blended cement in June 2018 were Texas, Missouri, California, Florida, and Michigan (table 1A), and these accounted for about 41% of the country total. The leading cement-consuming States (Texas, California, Florida, Ohio, and Georgia), received about 38% of the June shipments (tables 2A and 2B).

Masonry cement shipments of about 215,000 metric tons in June 2018 were slightly less than those in June 2017 (table 2C). For the year through June, shipments totaled 1.19 Mt, 2.1% less than those for the same period in 2017. The leading masonry-cement-consuming States in June 2018 were Florida, Texas, California, North Carolina, and Tennessee; these States received about 55% of the June shipments.

¹Footnoted revisions to the historical data are those received since the publication of the previous month's edition of this report.

Clinker production totaled 6.9 Mt in June 2018, up by 3.0% from the output (excluding Puerto Rico) in June 2017 (table 4). For the year through June 2018, production was about 35.8 Mt, slightly higher than that of the same period in 2017. The leading clinker-producing States in June 2017 were California, Texas, Missouri, Florida, and Alabama.

Tables 5, 6, and 7 list import data from the U.S. Census Bureau; however, data for clinker imports into the Seattle, WA, and the Detroit, MI, customs districts do not include material trucked in from Canada on an informal entry basis. Likewise, imports of cement into the El Paso, TX, district are missing significant informal entries from Mexico. Monthly imports can show significant year-over-year changes for a variety of reasons and commonly do not correlate well with consumption levels in the respective import districts in the same month. June 2018 imports of cement and clinker totaled about 1.5 Mt, up by 9.7% from imports in June 2017. Imports for January through June 2018 totaled 6.9 Mt, also up by 9.7% from imports in the same period in 2017.

List service and web feed subscribers are the first to receive notification of USGS minerals information publications and data releases. For more information on how to subscribe, go to <http://minerals.usgs.gov/minerals/>.
