SODA ASH IN OCTOBER 2014

U.S. natural soda ash production in October was 985,000 metric tons (t), about 7% more than the previous month's production.

Ending inventories for October 2014 were 328,000 t, 7% less than the preceding month's inventories. Wyoming trona production in October 2014 was 1.48 million metric tons, 4% more than that of September 2014.

Exports and imports of soda ash in September 2014 were 492,000 t and 2,650 t, respectively.

The changes in soda ash statistics for September 2014, compared with those of September 2013, were as follows: production was 7% higher; exports were 2% lower; imports were five times greater; and apparent consumption was essentially unchanged. Soda ash import tonnages can vary widely from month to month, but generally are much smaller than soda ash export tonnages. For 2014, the U.S. Census Bureau monthly data has consistently shown a significant

increase of soda ash imports from Germany and this accounts for the large increase in total imports compared with 2013.

End use data for the third quarter of 2014 is published in table 5. Comparing the third quarter of 2014 to the third quarter of 2013, total soda ash consumed was slightly higher. By use, soda ash consumed for glass decreased slightly but increased by 11% for chemical uses. For the year through September, 2014, comparing the same period in 2013, total soda ash consumption increased slightly, consumption for glass decreased slightly, and consumption for chemicals increased about 8%.

All percentages in this report were computed using unrounded data.

List services and Web feed subscribers are the first to receive notification of USGS minerals information publications and data releases. For information on how to subscribe, go to <http://minerals.usgs.gov/minerals/>.

TABLE 1
SALIENT SODA ASH STATISTICS¹

(Thousand metric tons)

Period	Soda ash		Wyoming trona production
	Production ²	Stocks, end of period	
2013: ^P			
January–October	9,530 ^r	347	14,500
October	1,000	347	1,430

^rRevised.

¹Data are rounded to no more than three significant digits; may not add to totals shown.

²North American Industry Classification System.

³Includes soda ash equivalent from soda liquors and purge liquors sold to powerplants for water treatment. Sales of mine water are excluded.

⁴Imports reported by the producer/importer have been distributed into appropriate end-use categories listed above.

⁵As reported by producers; includes Canada. Data may not necessarily agree with those reported by the U.S. Census Bureau for the same periods.

⁶Represents soda ash from domestic origin (production and inventory changes) and imports and exports. Includes soda ash sold by coproducers and distributed by purchasers into appropriate end-use categories.
